Bolling Quits Race for House Party Leader

Decision Prevents Possible First Day Democratic Split

WASHINGTON (AP) — Withdrawal of Rep. Richard Bolling, D-Mo., from the race for majority leader and tentative approval of a new policy committee have averted a possible session-opening split among House Democrats.

Bolling's statement Wednesday that he would not seek the majority leadership being vacated by Rep. John W. McCormack of Massachusetts left next week's caucuses of House Democrats without a controversial issue.

It cleared the way for unanimous selection of Rep. Carl Albert of Oklahoma as the party floor leader to succeed McCormack, who has no party opposition to replace the late Sam Rayburn as speaker.

McCormack's election at the initial House session next Wednesday may not even be contested by Republicans. Whether the GOP will go through with the formality

of nominating Minority Leader Charles A. Halleck of Indiana for speaker may not be decided until early next week.

In any event, Halleck would have no chance of election, the vote traditionally being along straight party lines.

Bolling had the support of some

Bolling McCormack of nominating Minority Leader Charles A. Halleck of Indiana for speaker may not be decided until early next week.

Reds, Pakistanis Warned by India

PATNA, India (AP) — The annual meeting of India's ruling Congress party opened today with a warning that Chinese Communists and Pakistanis must follow the Portuguese off Indian soil.

Party President Neelam Sanjiva Reddy was loudly cheered when he declared India is determined to end their occupation of Indian territory within a short time.

Turning to Prime Minister Nehru, the party head, Sanjiva Reddy said the entire nation is behind the government in whatever steps it takes to regain Indian territory.

The source said that the Indonesian shift resulted from pressure from the United States and Australia. Australia administers the eastern half of the island, the world's second largest.

A Dutch official in The Hague termed the report interesting but said it would have to be communicated through official channels before the Dutch government would comment.

Dutch Premier Jan de Quay on Tuesday dropped Holland's longstanding demand that Indonesia recognize the Papuans' right of self-determination as a condition to negotiations. Indonesian Foreign Minister Subandrio rejected this overture Wednesday, declaring that Indonesia would negotiate only if the Dutch agreed to advance to transfer control of the territory to his government. He said otherwise Indonesia would proceed with its invasion plans.

75,000 or More Vendors Get Added Burdens; Department Must Increase Staff by 200

MADISON — Putting the state's first sales tax law into operation on Feb. 1 will involve trouble and work in costly volume for the state department of taxation as well as for at least 75,000 vendors of taxable commodities and services.

That was the principal conclusion at a special news conference by Tax Commissioner John Gronouski to answer questions about the administration of the brand new tax features of the tax revision law enacted by the legislature two weeks ago.

Symbolic of the size of the task was Gronouski's estimate that he will need at least 200 additional auditors and clerks for the management of the selective sales tax and the income tax withholding law that was embodied in the new tax act. That would bring the total to at least 900 in his department and make it one of the largest in the state government establishment.

Some of the highlights of the conference:

1. Virtually every merchant in the state will be required to get a "seller's permit" under the new law, with payment of a fee of \$2 to the state department, because for all practical purposes all merchants will be subject to the selective sales tax to some degree.

Even the corner grocer, selling cold cuts and a slender line of grocery staples, is also likely to handle tobacco products, it was pointed out.

2. In the inevitable conflicts about interpretations of the sales tax effectiveness, "each case will be handled on its own," the tax chief said, including the numerous border-line commodities that will be sold without a clear-cut early

2 California Men Accused Of Extortion

SANTA ANA, Calif. (AP) — The FBI arrested two Santa Ana men Wednesday night on charges of trying to extort \$25,000 in return for the release of two American students imprisoned in East Germany.

Intended victim of the plot, the FBI said, was Edgar E. Pankey, a rancher at nearby Tustin, Calif.

Pankey's son, Victor S. Pankey, and his nephew, Gilbert Ferrey, both 20, were arrested by East German police last September. They were shortly afterward sentenced to two years in prison on charges they had tried to smuggle a girl student into West Germany in the luggage compartment of their car.

Charged with federal extortion charges were Dennis Shane Harrick, 23, and Albert Bruce Dyer, 23. Both are unemployed. They are brothers-in-law.

Letter Sought \$25,000 William G. Simon, special agent in charge of the Los Angeles FBI office, said Pankey received a letter on Sept. 19, 1961, a few days after the two youths were seized by the Communists.

The letter instructed the elder Pankey to deliver \$25,000 if he wished to see his son again soon. Simon said the demand was on the basis that a release of the boys would be effected through alleged contacts in West Germany and in East Germany. Simon did not say whether any such contacts had been discovered.

Gun-Runner Ring Smashed in Laos

VIENTIANE, Laos (AP) — The royal Laotian government today announced it had smashed a ring of civilians and military men who have been gun-running.

Forty persons, including prominent businessmen, were reported arrested on charges of stealing weapons from the royal army munitions depot.

He finally asked for a cease-fire "not because we were tired of fighting for our freedom but simply because the Katanga government wanted to put an end to the killings and carnage," he declared.

Red Propagandists— Issue Wrong Picture To Back Up Charges MOSCOW (AP) — A photograph distributed by the Soviet government as evidence in its charges against West German Gen. Adolf Heusinger gave Moscow propagandists red faces today.

Foreign Ministry officials declined immediate comment when told a photograph they had distributed—purporting to show Nazi soldiers burning a Russian village at Heusinger's order—was actually one the Soviet government had previously issued of Japanese soldiers burning a Chinese village.

"We will investigate," they said. It was one of the biggest propaganda shupus in recent years.

The news reached Moscow in the issue of the West German magazine Stern dated Jan. 7. It was confirmed here by reference to the original document.

The United States denounced the charges as a "crude propaganda maneuver."

Byrnes Hits at Delay in Trade Program Talks

Republicans Do Not Know of Decisions Reached, He Asserts

WASHINGTON (AP) — President Kennedy may have waited too long to start bipartisan consultations on his trade program, a Republican who will have much to say about the legislation suggested today.

Rep. John W. Byrnes, R-Wis., commented in an interview: "If by bipartisanship they mean we Republicans must jump aboard a bandwagon the other side has going, they are mistaken."

Byrnes is chairman of the House Republican Policy Committee and second in seniority among Republican members of the Ways and Means Committee, which handles reciprocal trade legislation.

Not Opposed to Principle Byrnes said he does not necessarily object in principle to further tariff reductions nor to increased negotiating power for the president, "provided there is machinery to ward off excessive damage to U.S. industries."

It is in this area of help for U.S. businesses hurt by increased foreign competition, he contended, that the administration has been especially vague in its discussions until now.

Commenting on reports that Kennedy plans a breakfast meeting next week to discuss reciprocal trade legislation with leaders of both parties, Byrnes said: "From the way they talk, we don't know what decisions have already been made... there has been no bipartisan consultation to date that I have heard of and I would think that as a rather ranking member of the Ways and Means Committee, I would have heard."

Presidents Goal Administration spokesmen have indicated the President seeks authority to negotiate with individual countries and with the booming European common market in terms of reciprocal tariff reductions on whole categories of products, not merely item by item, and for bigger cuts than the present 20 per cent maximum.

"The big question mark is what they want done to protect U.S. industries," Byrnes said, adding "I don't see any promise" in the suggestions made in some administration quarters that industries seriously troubled by imports might be helped with tax concessions for reconversion and by programs for retraining workers.

"That presupposes willingness to sacrifice some domestic industries," he said. "I don't know who has the wisdom or power to make a decision like that."

Snow Call for Area Shovellers Wisconsin—Mostly cloudy and colder today, tonight and Friday. Snow or snow flurries north portion today and snow possibly mixed with rain south portion this afternoon or evening. Outlook for Saturday, partly cloudy and colder.

Appleton — Temperatures for 24-hour period ending at 10 a.m.: High, 38; low, 20. Temperature at 10 a.m. 20. Barometer at 29.98 and rising. Wind from northeast at 22 miles an hour. Trace of precipitation.

Sun sets at 4:28 p.m., rises Friday at 7:29 a.m. Moon rises Friday at 6:21. Prominent constellations visible are Cassiopeia in northwest and Ursa Major in northeast at midnight.

Medical Care Drive Planned

Humphrey Expects Kennedy to Press For Enactment

WASHINGTON AP — Sen. Hubert H. Humphrey, D-Minn., predicted today that President Kennedy will "push very hard" in Congress for enactment of a medical aid program for the elderly.

This prediction by Humphrey, the assistant Senate Democratic leader, coincided with reports that National Chairman John M. Bailey has picked medical care as the top issue to be plugged by party candidates this year.

Humphrey said in an interview that he looks for "tough going" but believes a bill providing health care financed through the Social Security system can be piloted through both houses.

Must Meet Pledge "The President must fulfill his campaign pledge to get this program enacted," Humphrey said. "I think he is going to push very hard on it."

But the Minnesota senator was less optimistic about some of the other major proposals Kennedy is expected to lay before Congress shortly after it convenes next Wednesday.

He said he feels it is unlikely that Congress will approve any general aid to education plan. He expressed hope, however, that some assistance for higher education can be obtained.

Asked how he felt about Atty. Gen. Robert F. Kennedy's failure to recommend any new civil rights legislation, Humphrey said he thought "there still is much that can be done on the executive front."

"I think the administration has an excellent record of executive action in this field," he said. "Personally, however, I think some of the civil rights laws should be strengthened, particularly in the field of voting, and I will support legislation of this kind."

\$125,000 Fire Loss At Milwaukee Plant

MILWAUKEE (AP) — A four-alarm fire feeding on supplies of paint, roared through a plant of the Perflex Corp. Wednesday night, shooting flames through the roof high into the sky and causing damage of \$125,000.

Fire Chief James Moher, who estimated the damage, praised firemen for preventing the flames from reaching highly flammable stocks of paint thinner and tanks of nitrogen stored in the 300,000-foot building. He said firemen arriving at the scene scurried to shut off valves on 18 tanks of potentially dangerous nitrogen.

Thirty-four second shift workers scrambled to safety seconds after the fire broke out in a tank of paint. No injuries were reported. The blaze was reported at 10:25 p.m. and brought under control 40 minutes later.

It was confined to the single building, purchased by the firm last May in an expansion move. The building formerly housed a stove company.

New Medical Care For Aged Proposed

Hospital Association Hears Plan Which Blue Cross Would Sponsor

CHICAGO — Mass enrollment of the nation's aged under the Blue Cross insurance banner — with the federal government paying the premiums — was put before a joint meeting of the American Hospital Assn. and Blue Cross Assn. today.

The health care proposal was the most sweeping since the formation of the Blue Cross plan itself 30 years ago.

It was the answer of the nation's voluntary health system to those who want to put health care under social security and government control.

While the new proposal would in essence provide free care to the aged, it would retain private control.

The proposal was worked out by a task force headed by Walter J. McVerney, president of LEOPOLDVILLE, the Congo (AP) — Congo River flood waters are receding, the U.N. Command reported today, and large-scale relief operations are under way to repair damage from the worst flood in the river's recorded history.

The crisis point now is Matadi, near the Atlantic, where the rampant river has cut off the port from the town. All shipping has been halted.

"We expect this situation to start easing by the weekend," said Alessandro Corradini, the U.N. flood relief director, "so that we will be able to reactivate river traffic—the lifeline to the interior."

A large train of supplies is being prepared—paid for by a \$10,000 check from the U.S. government—to carry provisions to Leopoldville and dozens of jungle villages cut off by the torrents for the past fortnight or more.

The U.S. Air Force is flying five power generators from Europe to flooded towns to get basic communications and essential electric installations working.

Two Soviet plane loads of medical relief supplies, the first aid the Soviet Union has offered to the Congo since the late Patrice Lumumba was in power, have not yet arrived. One was reported detained at Khartoum, capital of Sudan, because it had no permission to fly over the country and no clearance to land at Khartoum.

Compromise Reports

Indonesia Increases Arms Buildup Off West New Guinea Coastlines

JAKARTA, Indonesia (AP) — Indonesia stepped up its arms buildup today off the shores of Dutch-held West New Guinea despite reports that President Sukarno's state from operating and to hoist the Indonesian's red and white flag in the territory.

Netherlands a compromise on the future of the disputed territory.

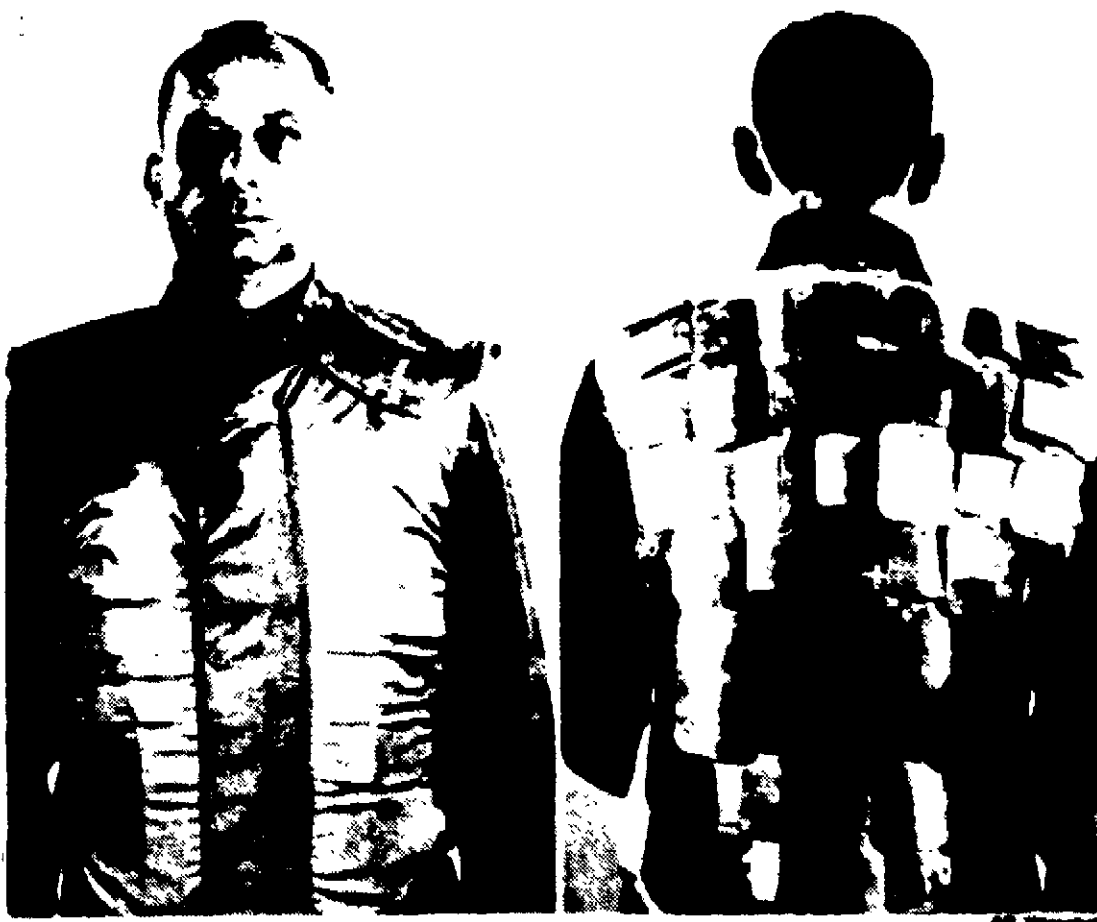

The army announced that 10,000 veterans of independence fighting against the Dutch are being retrained at Ambon and other islands of the Molucca chain some 150 miles off the western tip of New Guinea.

Prepare for Invasion The announcement closely followed a report from a high government source that Indonesia is willing to promise West New Guinea eventual self-determination if the Dutch agree to let Jakarta take over the territory's administration in the meantime.

Col. Basjiri, military commander of the Molucca area, declared that the issuance of arms to the

could take.

The Department of Defense released these photographs of the Army's new armored vest Wednesday. It is made up of overlapping flexible titanium plates stapled to a nylon fabric. The outward appearance of the vest is shown in the front view. The back view has the nylon removed to show the placement of the plates.

2 Divisions Won't Be Ready For Year

Advance Arrangements Needed Before Army Can Start in Training of Proposed Units

WASHINGTON AP — The two new regular Army divisions are expected to be established by the end of March, but it will take about eight months of intensive training before they can be declared ready to fight.

President Kennedy announced Wednesday he had approved immediate formation of the two divisions, the 1st Armored and the 5th Mechanized Infantry. They will bring the regular Army force to 16 divisions.

Officials said today the term "immediate" was relative. They noted that certain advance arrangements must be made, including the mustering of a framework of officers and noncommissioned officers and housekeeping preparations to receive the troops at Fort Hood, Tex., and Ft. Carson, Colo.

The Pentagon has ticketed a group of regular armored, infantry and artillery units to become the nucleus for the two divisions. Together, they total about 10,500 men. A full strength, the new divisions will number about 31,700 men in all.

The 21,000 soldiers need to fill the divisions' ranks will be drafted.

Battle Over Civil Rights Stirs Critics

President Should Exert Leadership, Says Bob Kennedy

Chicago Daily News Service

WASHINGTON — Atty. Gen. Robert F. Kennedy is as conscious as his critics of the battle that still must be fought before the Negro wins basic equality with his white brother.

Roy Wilkins, executive secretary of the National Association for the Advancement of Colored People, has complained because the administration has not pushed for more laws on civil rights.

The Americans for Democratic Action have listed the kind of laws they want passed. One, sponsored by Senator Joseph Clark (D-Pa.) and Rep. Emmanuel Celler (D-N.Y.), would make it the duty of every school district with segregated schools to adopt a plan for desegregation within six months. Another would give the attorney general authority to seek civil injunctive relief for any violation of guaranteed civil rights.

Use Leadership

The first requisite, in his view, is for the President to use his moral leadership on behalf of the struggling minorities.

The ADA and the NAACP both have chided the administration with the charge that only token progress was made during 1961 toward school desegregation.

The enormous job still to be done in this area is emphasized by figures made available upon request, by the justice department.

These figures show that only 20,000 more Negro children are attending biracial schools in the South now than were attending them last May. This brings the total of Negro children in biracial schools to a mere 233,000 out of the total of approximately 3,000,000 Negro school children who are known to live in the 17 southern and border states.

All Areas

The attorney general's argument, however, is that progress not only in school desegregation but in all the other areas of civil rights — housing, voting, employment, and transportation — will result from vigorous presidential leadership.

The attorney general indicated that the administration "undoubtedly" will support some civil rights legislation in Congress. But he was not specific about what he had in mind. The Kennedy brothers obviously have decided to rely more on executive action than legislation just as they have done from the start.

Tension Grows In Algeria Over Message

Radio Broadcast From Head of OAS Adds to Confusion

Chicago Daily News Foreign Service

PARIS — Paris observers were puzzled and concerned today over a cryptic message broadcast yesterday from Algiers to all "OAS" (Secret Army Organizations) formations.

The message, reminiscent of the wartime coded instructions broadcast from London to the French Resistance, ran "cigarettes are lighted."

It came after a clandestine radio message from the head of the OAS, Gen. Raul Salan, to the Algerian population. Salan proclaimed that Algeria would remain French despite President Charles de Gaulle and that 1962 would see an OAS "victory."

All Mobilized

In the same message Salan announced that all Frenchmen living in Algeria from 18 to 45 should from now on consider themselves as "mobilized" to serve France and the OAS.

One interpretation of the message "cigarettes are lighted" is that it's a warning of an OAS putsch in the near future. Another is that it's simply a part of the continuing war of nerves the OAS is waging against De Gaulle.

Salan's address to Algerians coincided with a particularly sinister outbreak of violence throughout that tormented land in which Frenchmen attacked Moslems and the Moslems reciprocated by knifing peaceful French citizens including one pregnant woman. The death toll was 41 French and Moslems, the highest figure ever reached in one day.

More Violence

The new violence evidenced the increasing powerlessness of French troops and police in Algeria to maintain order. The confusion in Algeria matches new signs of tension in metropolitan France.

Butchers openly refuse to submit to government price ceilings on meat, and the police union is discontented with the government decision to penalize a high official who protested against instructions given to police to use weapons against anti-OAS demonstrators in Paris Dec. 19.

The agitation in Algeria and France comes at a time when new important developments are expected over Algeria's future. Members of the FLN Algerian Nationalist government are going to Rabat today for what appears to be a conference with Morocco's King Hassan II over the results of secret talks in Rome between French and FLN envoys.

The well-informed Tunis weekly Jeune Afrique announced today that official negotiations on Algeria's future will open soon with De Gaulle heading the French delegation.

Iowa Earners Won't Have to Pay Two Taxes

DES MOINES, Iowa (AP)—Iowa residents working in Wisconsin and required to pay taxes under Wisconsin's new withholding program will not have to pay income taxes in Iowa, that state's tax commissioner said Wednesday.

Andrew George said that Iowans working in Wisconsin, and it was estimated there may be hundreds of them, will be credited for the amount of tax paid Wisconsin.

George also said that Wisconsin residents working in Iowa have taxes withheld from their checks by Iowa. "Therefore," he said, "it's possible that Wisconsin people employed in Iowa may have to pay income taxes in both states. It's up to Wisconsin to take care of them."

The 1961 Iowa Legislature ended the 1961 Iowa Legislature ended a tax reciprocity agreement with Wisconsin and other states. "We now take care of just our own people," George said.

U2 Pilot Hungry After He Spent Nine Hours in Tree

BILOXI, Miss. (AP)—U2 pilot as part of the Defense Department's high altitude sampling six-hour sleep following a night program. Tuesday night's flight, perched in a cypress tree and asked, "Where can I get some oysters?"

The Air Force captain, 32, seemed more concerned with food than with his reconnaissance plane, whose shattered remains lay in a brush-covered, almost inaccessible part of the Pearl River swamplands on the Louisiana-Mississippi border.

Not a Scratch

Although he survived his 40,000-foot fall, nine hours in the cypress tree above the snake-infested marsh and a daybreak rescue with not a scratch, Stratton had the plane," he recalled.

Apparently, Air Force officials said, there was an explosion. Residents of the area reported seeing a bright flash. When search parties reached the crash scene, all there wasn't much to it. Stratton that was left of the U2 was a normally flies the high-altitude wing, and it was rapidly sinking U2s on weather detection missions into the swamp.

George Meany, President of the AFL-CIO, poses Wednesday beside "The Sound at Copenhagen," one of the 50 paintings he has done for relaxation. The painting hangs in the AFL-CIO board room in Washington. Meany says he gives most of his canvases away.

Recognition Expected For Dominican Republic

New Government Will Get Shower of Gifts From United States and Others

BY ROBERT S. BOYD
Chicago Daily News Service

WASHINGTON—The United States is ready to slaughter a whole stableful of fatted calves when the prodigal Dominican Republic returns to the fold today.

As soon as the Organization of American States ends the Dominicans' 18-months exile, we'll be showering goodies on them.

In rapid-fire order, you can look for:

1. The restoration of diplomatic relations with the Dominican Republic—possibly as early as tonight. The United States and 19 Latin American nations broke off relations with the Trujillo dictatorship in August, 1960.
2. The dispatch of a high-level U.S. air mission, headed by the boss of the whole Alliance for Progress program, Ambassador Theodore Moscoso. Moscoso and an imposing retinue of aides will leave for Santo Domingo Sunday.
3. An end to the partial ban on U.S. exports to the Dominican Republic. Within a few days, Commerce Sec. Luther Hodges will authorize shipments of trucks, truck parts and petroleum products—banned since January, 1961.
4. Approval of a sugar bonanza worth \$35,000,000 in the first six months of 1962 alone. Agriculture Secretary Freeman—by early next week at the latest—will grant the Dominicans 315,000 tons of the sugar import quota we votes that they are no longer a

took away from Fidel Castro's Cuba. The Trujillos used to get some of this gravy until we shut them off last spring.

The paperwork has already been completed for these gestures of friendship to the new council of moderates governing the Dominican Republic.

Signatures Needed

All that is needed is the official signatures.

In addition, the Dominicans will be swamped with offers of help from international organizations partly financed by Uncle Sam.

Dr. Jose Mora, secretary-general of the OAS, flies to Santo Domingo today to discuss a possible OAS technical assistance program.

Felipe Herrera, president of the Inter-American Development Bank, will make the pilgrimage next week.

The United Nations - affiliated International Monetary Fund will also send a delegation shortly.

The Dominicans' feast will begin soon after the OAS council vote is scheduled for 3:30 p.m. today.

Former Governor Tells Why He Sold His Stock In the Kohler Company

Additional \$214,000 Sought in Suit Against Plumbingware Firm

MILWAUKEE (AP)—Walter J. Kohler, former Wisconsin Republican governor, testified Wednesday that while serving as the state's chief executive, he sold his stock in the Kohler Co. in 1953 because of the imminence of a strike against the firm by the United Auto Workers.

Kohler said he wanted to expedite the sale because negotiations with Local 833 of the UAW had reached a point where a strike seemed imminent.

Other Factors

Other factors in the sale, he said, were that he was extremely busy with the Legislature in session and that he put his trust in Paul E. Johnson, a partner in the Chicago accounting firm of Ernst & Ernst, which handled the company's books, to make a fair appraisal of the stock's value.

Kohler testified in the second day of his action before U. S. District Court Judge Kenneth P. Grubb. The former governor is seeking an additional \$214,156 for the 21,415 shares he sold for nearly \$2.5 million to the firm and its president, Herbert V. Kohler, his uncle.

Herbert Kohler, the plumbingware firm and Ernst & Ernst are defendants in the suit.

"As governor of the state of Wisconsin, I did not want to be in a position of having to act in the strike," Kohler said. "I did not want to be appearing to protect my own interest."

Firm Struck

The UAW struck the firm in April 1954. The strike lasted over six years.

Kohler claimed the stock was worth \$10 more per share than he received.

"He testified he discovered 'some things which puzzled me' in company balance sheets five years after the sale and was

threat to the peace and security of the Western Hemisphere. The council vote is scheduled for 3:30 p.m. today.

Johnson Will Get Memento of Trip

BANGKOK, Thailand (AP) — Vice President Lyndon B. Johnson has a gift in store, a 1½-foot teakwood model of the boat in which he toured Bangkok's river front when he visited here last May.

The model was made by Tam Montri, whose father, boatman Tam Gimsawat, guided Johnson on his sightseeing and handshaking river tour. The youth delivered the model to the U.S. Embassy to be forwarded to the vice president, "in memory of Johnson's kindness," an embassy announcement said.

Lawrence College Grew to Maturity With Long List of Accomplishments

Highlight of Decade Came With '3-3' Course Change

BY MARGUERITE SCHUMANN

The years 1951 to 1961 contain no magic number for Lawrence College — no anniversary, celebration or symbol.

Yet the educational accomplishments of that decade clearly make it the most significant in the college's history.

The decade began with Nathan Marsh Pusey occupying the carved black walnut president's chair. Three years later, Pusey went to Harvard University as president. The bulk of the decade's achievement, then, has been the accomplishment of Lawrence's eleventh president, Douglas Matland Knight.

Gains were made in the area of faculty achievement. The percentage of full-time academic personnel holding doctorate degrees rose from 56 to 65 percent. Total numbers of faculty, both full and part-time, plus administrative members holding academic rank has grown from 83 to 123.

In that decade, 80 Lawrence faculty members have received research assistance from foundations and other societies. Nearly 40 junior faculty members have been given summer research grants through the Danforth and Lilly Foundations.

In addition, there were 12 on-campus, term-time scientific grants, nine of them from the National Science Foundation spanning several years. Largest of these was a four-year, \$28,400 study in biology.

Wrote 24 Books

During the 1951-61 decade, 24 books came from resident Lawrence faculty members. They ranged from novels to corporation histories, texts in biology, English, psychology, French, economics, government and philosophy. One of the books, Dr. William H. Riker's "Democracy in the United States," has been translated into German, Spanish and French with several Oriental languages now in process.

The student body has caused Lawrence to be known as a national college in the last decade, and has left Lawrence holding more national fellowships for graduate study than any time in the history of the institution.

The geographical spread in each successive freshman class proves the college's widening national impact. In 1951, freshmen came from 11 states and three foreign countries; in 1961 they came from 30 states and eight foreign countries. Forty per cent of the present freshman class ranked in the honor 10 per cent of their high school graduating groups.

In 1951-52, 24 per cent of the graduates requested transcripts

of their college record to be sent to graduate schools by their commencement date. That total has risen to 60 per cent since, and 63 per cent of the men graduated go to graduate school.

By commencement day last June, nearly 40 per cent of the class of '61 had sought transcripts. Projecting this number at the same rate as previous classes in another ten years it should be the largest graduate-school group in the college's history.

Numbers of major fellowships won by students has also risen. The class of 1951 won eight; in 1956 the number was 13; 1960 reached a high water mark with 18, and in 1961 there were 15.

Lawrentians have won a total of 32 Fulbrights since 1949, with 26 of them in the 1951-61 period; they have won 17 Woodrow Wilson, six Rotary, three Dankschmidt grants and two Rhodes scholarships.

Enrollment in the honors course, a requirement of a student wishes to graduate with distinction higher than cum laude, has jumped 200 per cent in the last ten years.

Study Abroad

The increase among students spending part of their college time in off-campus academic projects is dramatic. A decade ago, only an occasional student spent the junior year abroad. This year, 10 Lawrentians are studying in Europe or Asia, planning to return to the campus for their degrees.

Newest aspect to the foreign study program is a Carnegie Foundation scholarship for a year in Delhi, India, to a student enrolled in the Asian Studies program. Another student is at the International Christian University in Tokyo, while the rest are at European universities in Paris, Vienna, Madrid and Munich. The Argonne National Laboratories has been the site of scientific education for four Lawrence students in the past two years, combining a semester of intensive laboratory work under Argonne personnel with classes taught by faculty members from the Associated Colleges of the Midwest.

The curriculum course offerings have grown from 109 to 139, an increase of 27.5 per cent. Tutorial study rose 5.8 per cent.

Greatest enrollment jumps occurred in anthropology which showed a gain of 139, French, 132; German, 130; mathematics, 111; chemistry, 106; Freshman Studies, 101; and government, 95. All increases came about through expanded staffing. Increases in French and German resulted from new language requirements for the B.S. as well as the B.A. degrees. New areas of study added during the decade include Russian, Asian

studies, and sophomore studies, a divisional course in the three major disciplines. The Asian Studies program, principally courses in Indian and Chinese civilization and religion, was

'3-3' Introduced

In 1954, new requirements for the B.A. and B.S., chiefly in languages, were introduced, and a new Bachelor of Arts in Most radical curriculum change

of the decade took place this fall when the faculty voted to adopt a plan known as "3-3" in which a student will take three concentrated courses per semester instead of the five less concentrated at present, and that three semesters will be fitted into the time now allotted to two. It will go into effect in September, 1962.

Seven major buildings—more than \$4,000,000 worth—have been acquired in the last decade, including the memorial union, Lucinda Darling Colman Hall for Women, the music drama center, a sixth quadrangle house, Samuel Plantz Hall for Men, an addition to the existing Carnegie Library Drama Festival Year. Lawrence ranks 16th among the nation's leaders in producing college teachers, and 14.5 per cent of its 11,000 alumni are involved in educational work on some level and 70 alumni are listed in "Who's Who in America."

Just the Facts, Man!

The taxing agents of the various levels of government have for years attempted to make the paying of taxes as painless as possible. Withholding is one such means. So is the sales tax. To get enough money it is increasingly necessary for such strategies. But we must disagree thoroughly with the optimistic people who somehow seem to think they can turn taxpaying into a joyous experience.

In just such an attempt the name of the federal agency was changed, when President Eisenhower took office, from the Internal Revenue Department to the Internal Revenue Service. Somehow it didn't influence the tempers of the taxpayers.

The 1961 forms include a friendly "personal letter to taxpayers" from none other than Mortimer Caplin, Commissioner of Internal Revenue. Mr. Caplin seeks to explain to the lowest common denominator of taxpayer why filling out the complicated forms is just as essential as paying the taxes. "The forms as well as the taxes are necessary for the kind of orderly govern-

ment which will preserve America and its way of life," he says nobly.

But Mr. Caplin does not stop with persuasion or politics. He quotes Oliver Wendell Holmes, whom he calls "one of our nation's greatest judges." Holmes, we can concede, was one of the nation's best known judges in part because of the length of his life on the United States Supreme Court. But his stature must be determined by history and there are a lot of people who will not agree with Mr. Caplin's view. A recent article in a national magazine pointed out some major flaws. A local history teacher insists that Holmes was one of the most "pernicious" influences in American jurisprudence.

Mr. Caplin has defeated his own aims. He simply can't get people to enthuse about filling out forms and paying taxes. Now he probably has encouraged a lot of taxpayers to fret and fume and blow their tops before they even get to the second page of the return.

The next few months will be painful enough, Mr. Caplin. Leave us our opinions and our gripes.

Changes in Viet Nam

The United States Ambassador to South Viet Nam, Frederick Nolting, reportedly has been successful in getting agreement from President Ngo Dinh Diem for reforms to aid the effective use of United States aid to that beleaguered country. We just hope that the advice was sound.

Diem has been severely criticized for too stringent a personal control over the agencies of his government, too many relatives in high places, and not enough effort toward encouraging the mass of people to have a stake in the battle against the Communist Viet Cong and the forces of North Viet Nam. U. S. officials have made a big point in insisting that their suggestions for improvement are not based upon our conception of democracy which may not be feasible to the Vietnamese at this stage in their development of self-government. But some of the concessions made by President Diem sound a little that way.

He has agreed to meet at least twice a week with the South Viet Nam National Council, the legislative body, in an effort to encourage representative government. Rural areas will have something to say about the recruitment of village men for the army.

Pounds and Shillings

The British government is giving serious attention to a decimal system of currency. Selwyn Lloyd, chancellor of the exchequer, told the House of Commons recently, that a committee had been named to study the problem and that final decision would be made in the light of the committee's findings.

He pointed out, however, that while the decimal currency system undoubtedly would prove helpful, that the transitional cost would be substantial in view of the widespread use of counting and other monetary machinery. The British system of pounds, shillings and pence seems awkward to Americans accustomed to the dollar which is divided into ten dimes and each dime again divided into ten cents. The British pound is worth \$2.80 and it is divided into 20 shillings. Each shilling is worth 12 pence. The smallest unit is the half penny. For convenience, the British have 5-pound, 1-pound and 10-shilling notes. In addition, they have in coins the half crown worth two shillings and 6-pence or 35 cents, and the florin or 2-shilling piece, the shilling, 6-pence, 3-pence, the penny and the half penny.

Quite obviously it would be a tremendous change for the British to replace this complicated system for a decimal system of money. But the British are doing business with countries that have the decimal system and the advantage must be quite

obvious. American, Canadian and French systems are in sharp contrast with the British and recently the British Caribbean and Cyprus, both a part of the Commonwealth, have changed to the decimal system as have Burma and South Africa. The change would be simple enough and could retain the terms, pound and shilling, if that were desired. For example it was suggested that the present 10-shilling note, valued at \$1.40, become the new pound worth 100 cents and the new pound could be divided into units of 50, 25, 20, 10, 5, 2.5 in silver coins. The new 10-cent piece might be designated as the shilling.

The United States has a similar problem in its system of weights and measures. Quite obviously the measure of distance in miles, rods, yards and feet is a cumbersome thing but no less so than is the measurement of products in bushels, pecks and quarts. Nevertheless, the change from this system of measurement has proved too much for the United States to accomplish although it has been discussed for many years. The change to the metric system, such as used by France and many other countries, could be an obvious advantage but, like the British, we have clung to the old familiar terms. If the British can take the mighty wrench needed to bring their currency into line with the modern world, perhaps the United States will be inspired to change its system of measurements.

What Others are Saying

Fast Exchange of Criminal Intelligence a Necessity

J. Edgar Hoover in the FBI Law Enforcement Bulletin

Experience has shown there is no substitute for on-the-spot dissemination of vital information on the working level. This exchange of criminal intelligence is made among regular, duly authorized law enforcement agencies whose experienced officers understand its nature and are aware of its potential. They make prompt and proper application of it. To my mind, this is a far more logical and practical basis than the theoretical national clearinghouse for criminal information. Yet our profession is constantly beset by those who maintain there is a "void" in the exchange of information. They contend it can only be overcome by this catalytic cure-all. Such a contention is without merit and does not deal in reality. Crime prevention requires

timely, cohesive, and spontaneous action. There is no margin for procrastination or administrative red tape. In a like manner, dissemination of criminal intelligence must be expeditious. Presently, it is exchanged promptly by agencies involved, and there is no delay in its reaching the proper authorities. Daily throughout the country numerous investigations are closed and violators convicted as a direct result of this nationwide program. During a recent 12-month period this Bureau disseminated to various agencies over 10,000 items of criminal information. Based on this assistance, the recipient agencies effected some 2,570 arrests during the same period and recovered property valued at more than \$1,000,000. The bitter and greedy struggle in the underworld for controlling power over vice and corruption

is a scourge in many communities. But it is a challenge that is being forcefully met. As an example, the FBI has been channeling information to one metropolitan police department relating to organized gangs which are a menace in that city. As a result, a number of arrests have been made. In another case, a tip to local authorities made possible the arrest of a powerful out-of-town numbers racket operator who was surveying the area with designs on spreading his illegal business to that locality.

Such graphic examples indicate the effectiveness of this operation and are the rule rather than the exception. Reciprocity, of course, is a dominating factor, and each participating agency benefits from this workable plan. The FBI is deeply indebted to police authorities and officers across the country who repeatedly pass on pertinent data relating to its operations. The fund of information on criminal activities is swelling daily and the FBI stands ready to place an ever-mounting volume of such information into the hands of law enforcement.

Enforcement of Parking Law Severely Criticized by Shopper

Editor, Post-Crescent:

This afternoon has left me eternally and humbly grateful that I am not a citizen of Appleton. But somehow I feel enough civic duty to take the time to suggest that Appleton ought to establish at once a place of appeal for parking tickets. It should be open any time the tickets are being issued, should be handy to everyone, and the person in charge should have some sort of authority to at least pass the appeal on (or better still, tear up the tickets.) The present administration of parking tickets may be law enforcement, but it certainly is not an administration of justice. I have wondered all afternoon, just exactly what is the purpose of the parking tickets in Appleton. The term I keep trying to ignore in the back of my mind is 'legalized robbery'.

Up-until now I have shopped where I belong — Neenah — and idly read about the parking situation in the paper. I felt that any law worth having should be observed and enforced, and even told our Neenah police so the night just before Christmas when I had to go to the station to pay a parking fine I deserved for overparking (this time for ten or fifteen minutes). I have spent my entire adult life childishly, I guess, trying to obey the letter of the law and taught my children that such was the thing to do. "We never jay walk, never drive faster than that sign says we must, never cross in the middle of the block." In fact — "the meters are there for our convenience, we always pay." But after chasing wildly all over your town this afternoon, I found myself understanding why people have a "get away with all you can" attitude toward law enforcement agencies. In your city, I would, too.

At least you could have some sympathetic listener at your "Place of Appeal" to give the idea that there is some desire to be fair as well as firm.

Since no one would listen to me, I am going to write it all out. Then I can forget the entire incident — except to be eternally and humbly grateful that I am not a citizen of Appleton.

We had a windfall this Christmas, and planned for a week to spend it on clothes, etc., today in Appleton. Daniel (almost two) and I were to case the stores to find the right selections, while Wayne and the four older kids saw 'Bates in Toy-

land'. Then the next hour or so we could fit and buy. The other responsibility Daniel and I had was dropping dimes in the meter. By parking in front of the theatre, we had a common meeting place, and like most husbands, Wayne mapped out my thinking. I was given three dimes, and told to drop one in at 1:30, one in at 2:30, and hold the other for 3:30. 1:30 went off fine, and we got there just on time.

2:30 I had fallen into the clutches of a vacuum salesman in Prange's Rio store. I at last had to be rude to him. He laughingly told me he would split the fine with me, and I sanctimoniously thought to myself that it was more than the fine. We ought to obey the law.

Outside in the alley I stopped to fasten my hat, settle Daniel firmly in the stroller and warn him to hang on, took a deep breath — and together we raced at full speed right down the middle of town block after block without stopping. I'm nearly forty and the mother of five. Athletics was never my long suit. To say I am out of condition is being kind to me. But I was pretty sure I had been rude in time to get to the car by 2:30, so it was worth my while to put on a burst of speed.

I had my eyes glued to our destination, so I saw the girl making out the ticket. I should have yelled. But my heart was

pounding so hard that I was sick and dizzy, and instinctively I was sure all I had to do was pull up to her and inform her, like a lady, that I had arrived in time.

I did. She told me that she had made out the ticket and put it on the car, and would not take it off. I couldn't believe my ears. The policeman at the desk later told me I was six minutes late — really only seconds late to stop her from writing the ticket. When I pleaded with her to realize I was not criminally negligent, she had a very pat answer. The police would never allow her to take back a ticket. By this time I was sick with the running, and so disillusioned with 'Justice Appleton' (six minutes!) that I threw the ticket in the snow and vowed I wouldn't pay it. Then I realized that this whole thing wasn't her fault, so I chased her a block more, and got directions to the police station. I couldn't drive to it, since the movie would be out shortly, and I had to leave the car parked. I had instinctively put the dime in while I was talking to her (and I hate myself for doing it, simple soul that I was) so I walked to the station. By the time I got there I was really so ill and upset from the running that I just stood and sobbed. Really a lady. The policeman at the desk also had a very pat line. too. He had positively nothing to say

Looking Backward

Plans for Little Chute Grist Mill

100 YEARS AGO

Quoted from the Appleton Crescent for Jan. 11, 1962.

Our enterprising millwright and draughtsman, J. M. Barker, informs us he has selected the grounds and is engaged on the plans for a grist mill at Little Chute, to be built in the spring by John Versteegen.

The mill will be 36 by 50 feet, four stories in height, and calculated for two runs of stone. Mr. V. is the right man to embark in this enterprise, and we all have the confidence in the successful completion of the new enterprise.

25 YEARS AGO

Thursday, Dec. 31, 1936

The world toed the line for an unchecked naval rearmament race as the Washington limitation treaty of 1922 and the Lon-

don pact of 1930 reached their end.

Marshal Chang Hsueh-liang, was sentenced to 15 years in prison for his rebellion against Generalissimo Chiang Kai-Shek by a military court that immediately reduced the punishment to 10 years.

Joseph Ulrich, Menasha, was promoted to desk sergeant and assistant chief of police in Menasha.

In China's remote Suiyan Province, the land whence Genghis Kahn, the Mongol conqueror once held sway over half the known world, rumors of war were heard again as Japanese and Chinese exchanged warnings of possible military action there.

Although congressional leaders agreed to a quick resolution banning arms shipment to participants in civil wars, a battle loomed over whether to make embargoes in the permanent neutrality act mandatory or discretionary.

10 YEARS AGO

Thursday, Jan. 3, 1952

The Communists turned down an Allied plan for exchanging war prisoners and civilians as "no more than a barter of slaves."

Russia called for a top level security council meeting to help bring about an armistice in Korea.

Premier Mohammed Mossadegh rejected any plan by the world bank for at least temporary revival of Iran's idle oil industry unless his government had complete control over the industry's operations.

President Truman's proposal for a "sweeping reorganization"

Under the Capital Dome

Electorate to Blame For Muddled Finances

BY JOHN WYNGAARD

MADISON — The painfully clumsy and uncertain way in which the state government a fortnight ago managed after a long period of political stalemate to pass a revenue bill ought to put at rest the notion in some fashionable circles that a politically immobile government is the best one.

The state came within an ace of financial bankruptcy and chaos, and the accumulation of a deficit that would have made the fiscal responsibility of the succeeding legislature murderous.

The problem arose because the people of Wisconsin in the last election couldn't make up their minds about the merits of the competing claims of the two political parties, and entrusted the executive department to one, by a slender margin, and the legislative branch to another, by a margin that was also a long way from being decisive.

The delicate balance of power besides rendering each branch powerless to act without the other, made each nervous and apprehensive and uncertain about its own mandate. The Republican legislature couldn't be any more sure of popular backing for its position — in examining the election returns — than the Democratic governor could be sure he was doing what the people wanted.

REFLECTION

That helplessness and indecision on the field of action no doubt reflected the uncertainty of the electorate on the dominant finance issue which was clearly enough drawn during the campaign.

But it is a clumsy way to run a railroad, as they used to say in rural Outagamie County.

The most effective government, as this incident may serve

about parking tickets. The law is the law. It was the aldermen in city hall. I am sending this letter to the police, and the aldermen.

I paid the \$1. I could kick myself now for having done it. But I have respected the law and right and fair and honest for so long that I obey without thinking. Not again. And never in Appleton.

We piled into the car and got all our shopping done in Neenah in an hour or two, for half the parking price and one fourth the walking to and fro. And we learned to stay where we belong in the future.

But now you see why your city should have a place of appeal for tickets. And fast! You'll have some welfare cases that will eat into your ticket profits if you treat Appleton mothers like this often. Or are they mature enough to have less faith in their civic servants and government than some Neenah mothers?

Virginia W. Gasper
(Mrs. Wayne P.)
227 Alcott Drive
Neenah

to remind the voters, is one in which responsibility is clear and defined, but where the opposition is relatively strong and able to audit and challenge and criticize the performance of the responsible majority.

There is something to be said for the complaint that during the long days of easy Republican superiority in Wisconsin the state administrations grew complacent and lazy. The rise of the Democratic party to competitive status in the legislature during the last decade was a useful and good thing, considered on academic grounds alone, and without necessary reference to the ideology of the party.

THE MEASURE

A divided government also becomes an irresponsible state government with respect to electoral judgment. Gov. Nelson, to use the pertinent illustration, will run for office again next year — either for governor or for senator. His claim to voter support will be his record, inevitably. But what is his record, in an objective analysis?

How much weight should be given to the fact that some of the things he wanted to do, aside from their merits, were not done because he had to deal with a Republican legislative majority that didn't happen to believe in them?

The last governor who served a comparable term in office was Walter J. Kohler Jr. Is it fair to compare Nelson's achievements with those of Kohler's, remembering that Kohler had only to devise a political program to have a friendly legislative branch, led by friends who esteemed and respected him, to enact it into law?

Or, on the other hand, should a record that probably has numerically fewer affirmative achievements be endorsed only because there was an effective opposition party? The Republicans could make the same claim on the basis of their legislative performance according to their lights. It is the kind of cloudy situation that can only be remedied by the delegation of direct responsibility for performance to one party.

Here's a Way To Long Life—Hibernating

From The Toronto Star

According to a report from Washington, scientists foresee the possibility of humans living to the age of Methuselah — by literal interpretation of the Biblical record, 969 years. The trick, they say, is to learn to hibernate like groundhogs, bats and squirrels.

Is the longevity worth the price? We suppose that groundhogs, bats and squirrels have their good points, but should humans try to imitate them in order to hang on to life? Although this may not be more weird than considering cave-life — euphemistically called shelters — as a means of surviving even three score years and 10.)

Now that it is common to live to 80, people may not think with horror of the possibility of existing to 100; increasingly there will be many to share the loneliness of centenarianism. And there is the congratulatory message from the Queen to look forward to. But age 1,000? Better Edna St. Vincent Millay's quietude:

My candle burns at both ends;
It will not last the night;
But oh, my foes, and oh, my friends,
It gives a lovely light.

We Have It

COLUMBUS, Ohio (AP) — Usually the "Is" have it, but on the Ohio Board of Education it's the "Ws." The last name of eight of the 23 members of the board start with "W." And to add to the confusion there are three Walkers and two Wagners.

GRIN AND BEAR IT

If You Can Aim This Camera You've Got It Made!

This is the new Polaroid J66 — the simplest Land
Camera ever made . . . and it actually costs less
than the first Land Camera model introduced more
than 12 years ago!

It takes the same large pictures . . . but with what
a difference. It's fully automatic. There are no
settings you have to make. An electric eye chooses
the exposure. You don't even have to focus. You
don't need an expensive light meter. The flash gun
is built in too. And your picture is ready in just
10 seconds.

There are 12 years of improvements, refinements
and brand new ideas in this camera. And yet it
actually costs less than the first Land Camera on
the market!

If you've always want-
ed a Polaroid Land
Camera, here's your
chance. Costs less than
\$90.

Fox Cities Area Democrats met Tuesday to discuss the coming visit of Gov. Gaylord Nelson to Appleton. Making the arrangements for the Jan. 11 visit are left Mrs. Robert Swanson, committee chairman, Robert Swanson, Mrs. Robert Taylor, ticket chairman, and Mrs. Eugene Polewski, chairman of the decorations committee. The governor will be the keynote speaker at a campaign kick-off dinner at the Appleton Club.

Lawrence Says Russia Building Large Invasion Force in Cuba

**State Agency Says
Island Army 2nd to
U. S. in Hemisphere**

BY DAVID LAWRENCE

WASHINGTON — The United States government has just made public a document telling, in effect, how Communist Russia has taken over Cuba.

The facts disclosed show clearly that the Soviet government has completely disregarded the Monroe Doctrine, which for nearly 140 years has warned that no European power will be permitted to establish a new foothold in this hemisphere.

The Monroe Doctrine is no longer just a policy of this country but has been embodied in resolutions passed by the organization of American states, which is to meet Jan. 22 to consider the whole Cuban problem.

The State Department's 23-page report, issued just a year after the United States severed diplomatic relations with the Havana government, reveals that upwards of \$100 million of military aid has come from the Soviet-Bloc countries to the Castro regime. Castro today, therefore, has the second largest ground army in this hemisphere — exceeded only by that of the United States. The military force is estimated at from 260,000 to 400,000, including militia. This is 10 times what any previous government in Cuba ever had.

Approximately 300 Russian and Czechoslovakian military technicians are in Cuba today training local forces. Russia has agreed, moreover, to train new pilots, artillerymen, ground crews and other personnel.

What will the United States government do about all this? Will it wait for the organization of American states to adopt meaningless resolutions, or will this country insist on a complete economic blockade of Cuba by all countries of this hemisphere?

Likewise, will the United States warn the Soviet Union to get out of Cuba at once or risk the severance of diplomatic relations by the United States with all Communist-Bloc countries that are today aiding Castro with arms and money?

Indifference To Problem
There has been a kind of indifference to the Cuban problem ever since last April's ill-fated expedition of counter-revolutionists was deprived of air support by the United States at the last minute. But the military build-up in Cuba by the Soviet Union during the past year can no longer be ignored. For it means that unless this is checked immediately, every country in Central America

March of Dimes Chapter Reports \$2,700 Balance

Mrs. Paul Cary, chairman of Outagamie County March of Dimes chapter, recently reported on the financial standing of the local chapter. The report, prepared by Jack Adrian, chapter treasurer, showed a balance of \$2,700 on Dec. 8, 1961.

The last campaign in January

1961, raised \$16,907 in Appleton and \$8,503 in the remainder of the county. Of this amount, one-fourth was sent to the National Foundation's research fund. The remainder was equally divided between the National Foundation for professional education, scholarships and public information; and the local chapter for patient care. The speeded up treatment activities of the National Foundation now include three national centers for birth defects, four for

rheumatoid arthritis and 14 for polio. **46 Patients Aided**
Approximately 40 polio patients in Outagamie County were helped during 1961. Because of the heavy polio case load built up in the county, the local chapter has not been able to expand its assistance to victims of birth defects and arthritis. Mrs. Cary said, "Support of the broadened programs in the new areas will be given by the local chapters when

a plan of action has been determined and approved." A breakdown of those assisted in the county shows three aided in Kaukauna, eight in Little Chute, three in Grand Chute, two in Hortonville and two in Bear Creek. Expenditures for 1961 amounted to \$7,233.56 before Dec. 8, spent for hospital care, braces, shoes, transportation and administration.

Bank Stockholders at Little Chute to Name Directors, Officers

LITTLE CHUTE — Officers and directors of the Bank of Little Chute will be elected at the annual stockholders meeting at 4 p.m. Tuesday at the bank. The annual statement of condition will be given at the meeting.

Over \$40,000 in Taxes Collected After Two Days

KAUKAUNA — A total of 11 persons paid personal property taxes amounting to \$712.79 the first two days of collection while 276 paid real estate taxes amounting to \$39,459.76, the total slightly below the amount collected in the same period in 1961, said Miss Ruth Wolf, city treasurer.

Last year Miss Wolf had 313 persons pay a total of \$40,242.72 in real estate taxes the first two days and 11 persons paid \$1,055.33 in personal property taxes in that time. The 1962 total collected is slightly below four per cent of the \$1,005,847 total to be collected whereas the 1961 collection rate after two days was about 45 per cent of the total.

120 Persons Pay Tax First Day at Kimberly

KIMBERLY — A total of 120 persons paid \$15,327.91 in real estate and personal property taxes Tuesday, the first regular day of collection, according to Mrs. Katherine Lochschmidt, clerk-treasurer.

Last year 119 persons paid taxes the first day, total money just over \$15,000, according to the treasurer. A true comparison is not possible due to the increase in assessment during 1961, said Mrs. Lochschmidt.

to stand by the Monroe Doctrine. If they falter, then this country will be challenged to go it alone to emancipate Cuba from Communist rule. For if the Monroe Doctrine is to be abandoned, the future to the "alliance for progress" plan will be dark indeed.

Latin America will not be attractive for the investment of private capital, and there will be little use in sending funds derived from the taxpayers of the United States if nothing is to be done to challenge—by arms, if necessary—the Communist takeover of Cuba which now has been officially revealed.

Africa's Climate, Topography Not as Generally Visualized

Vast Majority of Land Is Dry, Semi-Wooded, Good for Ranching

BY SMITH HEMPSTONE
Chicago Daily News Service

NAIROBI, Kenya — Most of the impressions we have about Africa are wrong.

The world's second largest continent is not a particularly hot place. North Africa has a mild, delightful climate that any Californian would envy.

The Sahara, as anyone who served there during the war can tell you, gets bitterly cold as soon as the sun drops beneath the horizon.

The coastal areas of West Africa and the forest areas of Central Africa are hot and muggy. But no hotter and no more muggy than Kansas City, Memphis or Washington, D.C., in July.

Like North Africa, Southern Af-

ness, and its bite can be fatal both to men and to domestic stock. Wild animals have a natural immunity to it.

Hindered Development

For centuries, the tsetse fly has hindered the development of Africa by causing illness among men and by barring large areas of the continent to domestic stock.

By the same token, it has made possible the preservation of Africa's invaluable wild life.

The anopheles mosquito is the carrier of malaria. It exists generally in Africa, particularly in hot, coastal areas.

Nowadays, through the use of malaria suppressants, it is possible for white men (Africans have developed a limited immunity to malaria by long exposure to it) to live in Africa with relative safety.

But had it not been for the anopheles mosquito, white penetration of Africa would probably have come earlier and colonization certainly would have been both more widespread and more intensive, with profound economic and political consequences for the continent, not all of which would have been unfavorable.

Lacking in Stamina

There is little question, also, but that Africans themselves would have reached a higher level of development had it not been for the malaria-bearing mosquito, which has kept much of the continent's population half-sick and lacking in stamina for centuries.

Physical facts that have conditioned the development of the continent and its people are the great desert of the Sahara, the lack of natural harbors, and the limited number and the rapid-choked nature of its rivers.

It is an established fact that Africa has been getting drier in recent centuries. This particularly applies to North Africa, which 1,500 years ago was the granary of Rome.

The drying up of the waterholes and the encroachment of the desert on the Saharan oases, which finally throttled the caravan routes, had a profound influence on African history.

With these gone or greatly reduced in their practicability, Medieval Africa was thrown back on its own resources, resources which proved, at least in the Western sense, to be inadequate.

The effect of the loss of the Saharan arteries could have been minimized had there been alternative routes from the African coast into the interior. These did not exist.

The African coast is ringed by reefs and sand bars, through or over which a hundred years ago there were only few and perilous channels.

A glance at the map of Africa will show how few are the indentations in the coast. This indicates that Africa has very few natural harbors of any size.

Routes of Penetration

Rivers are the natural routes of penetration into any continental land mass. Despite its huge size, Africa has only five large rivers: the Nile, Congo, Zambesi, Niger and Orange.

Each of these is choked with sand bars and blocked by cataracts and waterfalls at several places. In addition, access to the interior of West Africa is blocked

to some degree by the presence of a thick rain forest.

Because of these factors, the world to a large extent passed Africa by. It was the last of the continents to be exposed to modern ideas and advanced technology.

The same obstacles that delayed outside penetration of Africa inhibited internal movement and the development of ideas.

Isolated From World

The average African, isolated from the world and from his fellow Africans, found himself living in a lightly populated land with a capricious climate plagued alternately by drought and flood.

Survival, once he reached adulthood, was relatively easy: To improve on survival was difficult.

These physical factors all have combined to make Africa the Cinderella continent that it is. Whether the ingenuity of man can change the African environment sufficiently to allow the continent to bridge the gap left by centuries of isolation remains to be seen.

What is certain is that Africans, like other men, have been shaped in the course of centuries by the nature of the land in which they live.

Neither they nor the land can be changed overnight.

New Court Law Aims to End Backlogs

Judges May Get Temporary Tasks In Crowded Courts

MADISON (W) — The Wisconsin court reorganization law, aimed at keeping large backlogs of cases from accumulating in any court, went into effect Tuesday.

The law empowers the State Supreme Court chief justice to assign circuit or county judges to temporary service in other courts where calendars are crowded.

Another provision of the law establishes a court administrator and an administrative committee to assist in the new setup. Retired Chief Justice John E. Martin of Madison is the administrator.

The law expands use of county courts, sets uniform jurisdiction and authorizes, towns, cities and villages to create municipal justice of the peace courts. Special municipal, superior, small claims and police justices have been abolished by the law. Regular justice of the peace courts, how-

ever, are retained but their jurisdiction has been cut.

Circuit courts were not greatly affected by the reorganization act. They continue to be trial courts where many lawsuits may be initiated and intermediate appeals courts for the review of some lower court decisions.

Additional Branches
Two additional court branches for the 2nd circuit of Milwaukee County and one for the 14th circuit of Brown, Door and Kewaunee counties were provided by the legislation.

The most striking reorganization was at the county level. With the exception of Florence, Forest and Menominee, a county court was established for each county with additional branches in several cases where existing statutory courts were incorporated in the new structure as branches of the county court.

The following county courts now have two branches: Columbia, Dodge, Jefferson, La Crosse, Manitowish, Washington, Waukesha, Winnebago and Wood.

Brown, Douglas, Fond du Lac, Kenosha and Outagamie counties have three court branches; Dane, Racine and Rock four each, and Milwaukee county has an even dozen.

Southern Spider Found in Massachusetts

Insect Poisonous, Could Become Health Hazard in U. S.

A species of South American spider, not previously known in the United States, has been identified living in Cambridge. The spider is venomous, and could become a health hazard.

There is reason to believe, however, that it has been present ever, that it has been present, but undetected, for several years.

No cases of bites to humans by spider specialists; and the South American spider, looking much like some domestic spiders, can be recognized only by an expert.

Dr. Herbert W. Levi spotted the invader. Since the species looks to the layman much like the spider are being observed at some domestic spiders, it could be spotted only by an expert on the more than 20,000 species of animal. The Massachusetts Department of Health and U. S. Public Health Service are watching the Museum of Comparative Zoology at Harvard University.

He found the South American spider "Loxosceles laeta", in a casual examination of spiders found alive in the basement of the museum.

The South American spider is related to the "brown spider" that has created a nuisance in Kansas and Oklahoma. The bite of the spider causes an ulcerous wound in the victim's skin.

The injury is localized but is slow to heal. The spider is not aggressive and runs rapidly from approaching objects. It bites only when touched or trapped.

Of the more than 20,000 kinds of spiders known, very few are poisonous.

Not Native
"Loxosceles laeta" is native to the dryer parts of South America. It is not known how it became introduced into the United States and the extent of its spread is also unknown, as there are few spider specialists; and the South American spider, looking much like some domestic spiders, can be recognized only by an expert.

Dr. Herbert W. Levi spotted the invader. Since the species looks to the layman much like the spider are being observed at some domestic spiders, it could be spotted only by an expert on the more than 20,000 species of animal. The Massachusetts Department of Health and U. S. Public Health Service are watching the Museum of Comparative Zoology at Harvard University.

Second of Series

rica can be bitterly cold. So, too, can be the highlands of East Africa.

Nor, with apologies to Edgar Rice Burroughs, is Africa one big forest, drenched with rain, with gorillas, and slimy with snakes.

The vast majority of Africa is dry, semi-wooded savanna. There is, of course, a forest belt, stretching from Sierra Leone in the west to Uganda in the east.

Pine Trees, Roses

Deserts exist in Northern Africa (the Sahara) and in Southern Africa (the Namib and Kalahari). In the highlands of North, East,

and Southern Africa (where most of the white settlement has taken place) pine trees grow and roses bloom.

But the most typical African land is lightly wooded savanna country with a thin grass cover, suitable for agriculture if properly farmed, good for ranching, providing it doesn't lie within the tsetse fly belt.

Although, contrary to the general impression, one is not overwhelmed with bugs in Africa, the tsetse fly and the mosquito have been enormous factors in making the continent, for better or for worse, what it is today.

The tsetse fly, which is slightly larger than the common house fly (it can be recognized by the scissor-like position of its wings when in repose) spreads from Gambia in the west to Ethiopia in the east, from Chad in the north to Rhodesia in the south. It is a carrier of sleeping sick-

Smiling Russian Takes Washington Position

Anatoly Dobrynin, Well-Liked Diplomat, Has Had Three Years U.N. Experience

BY WILLIAM N. OATIS
AP Foreign Staff Writer

The Soviet Union is sending a younger smiling Russian to replace an older smiling Russian as its ambassador to Washington.

Mikhail Aleksevich Menshikov, who sails for home Thursday after almost four years on the job, is known throughout the United States as Smiling Mike.

Anatoly Fedorovich Dobrynin, who will arrive in about a month to succeed him, may well become known as Affable Anatoly.

Dobrynin won his reputation for affability in almost three years at the United Nations, from 1957 to 1960, as the top-ranking Soviet citizen in the U.N. secretariat. He was an undersecretary, just below the then secretary-general, Dag Hammarskjöld.

He is only 42—17 years younger than Menshikov is now. He was born two years after the 1917 Bolshevik revolution and grew up tall, with a booming voice, a bone-crushing handshake and a quick sense of humor. He is a partly bald, graying blond with a high, round forehead, silver-rimmed glasses and ice blue eyes. He speaks good French and good English.

He is widely known as one of the friendliest Russians ever to hold U.N. headquarters. All acquaintances agree that he was an extremely capable U.N. official. They also agree that he should make his government an excellent Washington ambassador—for reasons like these:

1. Since leaving the secretariat, he has been chief of the Department of American Countries in and other Moscow schools on diplomatic history and international relations. He reads widely in economics and Latin America. He knows U.S.-Soviet relations inside out.

2. He is not publicly identified with any particular Soviet line. They have come a long way since then.

nel for any change of policy directed by the Kremlin.

3. He faithfully reflects the Soviet view but tries to understand other views. His reports to Moscow on U.S. policy and public opinion are apt to be closer to reality than those of someone blinded by communist dogma.

4. He is a good administrator. He easily grasps the inner workings of such small, specialized societies as the U.N. secretariat and the Washington diplomatic corps.

He mixes well with all kinds of people.

Dobrynin's full name is pronounced "ah-na-toe-lee" (third syllable accented) "fyoduh-ruh-chen" (first syllable accented) "doh-breen-yin" (second syllable accented).

He is only 42—17 years younger than Menshikov is now. Student Molds Opinions After European Journey

Beloit Senior Says Germans Don't Care for Americans

BY FERN SMITH
Post-Crescent Staff Writer

As a student observer at the University of Freiburg, Baden State of the Bonn Republic, Germany, Ted Haber came away with several district impressions.

"Opinions about a future war differ sharply in Germany, France, Switzerland and Italy from those of Americans. While war is likely to be all the more undesirable for people who have lived through one, it is all the more actual," says this Beloit College Senior.

"Many Germans expect another war. Their philosophy seems to be to build one's life again and hope for peace. They seem too near the last war, too near Berlin and between the border of East and West to practice much blind optimism."

"The people I met in this agricultural area of southwest Germany do want a unified Germany but have very little hope that it will ever come into being."

Disfavor Army
"Many Germans I talked with do not want a German Army and others go even further and say 'Down with war!' Who knows what will happen in a country where the Nazis began as a civil defense group in the 20s and gained fame fighting communism, and then went on to fight the world? The same radical nationalism can arise in this country—only the cult of the military and the tradition of a strong leader are lacking."

Pursue Knowledge
"Entering an institution of higher learning is a real pursuit of knowledge for European students. They do not think of going to a particular school because it was dad's or mother's school and less often of the opportunity for a lu-

crative position when they are graduated.

"I found that students at the German university were much more respected and articulate because they make a continual study of their history, government, culture and purposes. In the area of self-expression, it shows up most in politics. They have a real voice and in France, particularly, they make themselves heard."

"Most important was the closeness between students and professors in their seminars. Students are permitted to ask questions with complete freedom and I found the lectures to be more specialized and on a higher level. There are a number of reasons for this but the two most important are the differences in the students preparation and the fact that the professors have to earn the respect of their students."

Plans to Teach

"High school requirements are very different on the Continent. Most students are 20-years-old by the time they come to the university because high schools have six years of study. Their backgrounds in history, government and the humanities are greater than ours."

Much of Ted's time between semesters, was spent travelling by its platform from the Socialist, or foot and motor scooter through the Black Forest area, the Alps, travelling in France and a trip to Rome with a French student.

this to see how really beautiful the world is."

There is still a touch of the Continental about this fellow who plans to teach after he has had several years of study following his graduation in June. He hopes part of it can be abroad. "One of the aspects of their living I liked best was 'no rushing'. They do not get involved in 'things'. They find plenty of time for reading, walking into the beautiful countryside, enjoying nature. While they are serious, they laugh heartily and relish the long hours of discussion, pursuing many subjects."

A prevalent feeling he experienced during his stay was the fact that the Germans do not care about Americans but they care less for the Russians. Looking for a basis, Ted comments, "American culture has made great inroads into a number of areas but some persons do not welcome it. For they consider aspects of old German culture, for example, music, superior to our own."

"While German newspapers are very friendly to America, the many are hesitant to embrace rock-n-roll and are unhappy about seeing good literature and other integral parts of their culture increasingly ignored by the present generation. They feel that we Americans are diluting their culture and that Germany has lost a great deal of its dignity since the war."

"Germans discuss politics rationally and with a fervor that Americans reserve for baseball. The ruling party, Christian Democrats, is the conservative party and does not differ too much in liberal party. However, each party does deal with issues in elections, which makes them quite different from the parties in American politics."

State to Face Many Sales Tax Problems

CONTINUED FROM PAGE 1

definition of their tax liability (Example: Are the sweat socks that are used by athletes taxable as sports equipment, when they are bought for ordinary wear by students attending school?)

Booklets Prepared

3 Merchants and employers will be given booklets of instructions about their obligations under the sales and withholding taxes well before the effective Feb. 1 dates. They are now in production and should be distributed during the next week or ten days.

4 Merchants will remit their sales tax receipts to the state at monthly periods and they will be subject to regular audits by the state. Grouski said he expects to hire in a ratio of one sales tax auditor for each 400 merchant "accounts."

5 Employers will start withholding state income taxes from wages and salaries on Feb. 1 and make their deposits by March 20 for the first collections, to a state bank depository not yet chosen but which will be designated before that time.

6 Self-employed persons will be required to make quarterly declarations and quarterly payments to the state department of taxation under penalty of a six per cent interest charge for non-compliance. Farmers will file once a year on Jan. 15 as under the U.S. government tax withholding system.

'Forgiveness' Feature

7 In making out their April 15 personal income tax returns on 1961 earnings, all individuals will be entitled to deduct 65 per cent from taxes due as "forgiveness," to take into account their new withholding liability and the one third-two thirds installment privilege of the old income tax law will apply on the remaining tax owed on April 15.

8 About 1,250,000 of the 1,800,000 persons in the state who have normally filed personal income tax returns will probably be subject to withholding, but the auditing expense at Madison won't be reduced because all of the withholding accounts will require checking. The statement was distributed as a "political bulletin" by the official rebel agency, Algerie Presse Service.

Personal Returns

9 A wage or salary earner will be permitted to understate his personal exemptions, as a means of overpaying his withholding tax in order to avoid additional annual payments on income outside of withholding as under the federal government plan. But each individual taxpayer, whether he is subject to withholding or not, in future years will be required to file a personal return on or before April 15 to make a final adjustment of his withholding account whether he owes money or has a rebate due. Refunds will not be paid if they are less than two dollars.

10 Purchasers of taxable commodities will be able to escape the three per cent sales tax if they contract for the delivery within 90 days after Feb. 1. Thus a person could contract for the purchase of an automobile for delivery at any time until May 1 without being subject to the three per cent excise.

Technical Errors

Grouski told reporters that there are many technical errors in the 100 page new tax law that the legislature adopted after days of hectic maneuvering, but he said he has not yet decided whether to ask for correcting amendments when the law makers meet again on January 8. He said he regards the two per cent commission allowed to merchants for the collection of the sales tax as "ridiculous" and will ask for its repeal if he is asked for his opinion. But he won't volunteer such a recommendation, he added.

Some vendors will be subject to a three per cent tax on their gross receipts unless they are prepared to furnish records showing exemptions. Officials illustrated with the case of a tavern-keeper, most of whose sales—of liquor and beer—are subject to the sales tax. But he might have some sales of sundries, such as candies, that are exempt. Such a person must keep records to prove his case, it was said.

Capital Gains Barred

The state won't be concerned about how the merchant explains the tax to his customers. A restaurant owner might add a three per cent surcharge to his checks to cover the new tax program. Or he may absorb the three per cent levy. Or he may adjust his meal prices to take the new state tax liability into account. The state doesn't care, as long as he pays the three per cent on the gross sales of his taxable items, which includes all meals.

Under the withholding act "forgiveness" does not apply to income taxes due on capital gains. Such capital gains in the future, for a person who is otherwise subject to withholding of taxes from wages and salaries, will be reported in one of the quarterly declarations called for under the revised law and in the adjusted

final return, officials said. Thus a stock sale late in the year would be reported in the final quarterly declaration and in the recapitulation of the individual's tax situation in the final adjusted assessment return on April 15 of the following year.

The new law attempts to erect barriers against the evasion of the tax through the purchase and sale of taxable commodities outside the borders of the state. Consumers are required to have a use tax certificate in such instances, and vendors outside the state can collect the tax on the account of their customers for payment to the state under a use tax collection certificate to be issued by the state department.

Cooperation Sought

Penalties for evasion are provided but the department evidently intends to rely principally upon the cooperation of non-resident vendors, such as mail order houses.

Experience in other states has shown that such sellers will be inclined to cooperate "because they don't want us to be hounding their customers," one official said.

There is another protection against the evasion of the tax on the purchase of an automobile through an out of state transaction in that the law provides that the vehicle cannot be licensed for operation within this state unless the application for a registration fee is accompanied by a tax receipt, either from the dealer, or through direct payment by the purchaser.

Fight Urged For Algeria

CONTINUED FROM PAGE 1

desire to achieve a realistic solution a solution that would take into account France's interests. "Independence of the Algerian people and its entire sovereignty over all of its territory should be reconciled with the interests of France. The statement was distributed as a "political bulletin" by the official rebel agency, Algerie Presse Service.

Formal Talks Expected

Observers in Tunis believed the statement was a forerunner of an announcement concerning the opening of formal peace negotiations between the De Gaulle government and the Nationalists. High French sources in Paris said the secret talks now going on deal with the possibility of a cease fire followed by a transitional period leading to Algerian independence.

The sources said the French propose to retain technical sovereignty over Algeria during the truce period and be responsible for maintenance of order until a self-determination vote by Algeria's nine million Moslems on their political future. The Moslems are considered certain to favor independence. Then a provisional Algerian executive body would be installed to carry on further negotiations with France on cooperation between the two countries. The sources emphasized that

Producer-Actor Dick Powell and actress June Allyson display her new four-carat diamond ring in Hollywood Wednesday after they announced that they would not let their divorce become final. "You just can't break up after 15 years," said Powell. An interlocutory divorce degree was granted last Jan. 31 to Miss Allyson. But Powell explained it's no secret that they have long since reconciled.

Bolling Quits Race for House Party Leader

CONTINUED FROM PAGE 1

House liberals when he announced last November that he would seek the majority leadership. However, not enough colleagues rallied behind his standard and he pulled out of the contest.

"Developments in the last few days convince me that I do not have a chance to win," Bolling told newsmen.

Bolling said he was unable to get solid support in several states with big Democratic delegations. He estimated that at the time of his withdrawal he had from 70

to 80 sure votes and 30 to 40 "possibles"—not enough to win in a caucus of 258 Democrats.

He said he considered his failure to make a winning race a defeat for House liberals. Bolling said that while he regarded Albert a liberal the Oklahoman had "reservations" when it came to legislation dealing with civil rights and oil and gas.

13 Mountain Climbers Lost Lives in Japan

TOKYO AP—At least 13 mountain climbers have lost their lives trying to scale Japanese peaks in treacherous weather since Jan. 1, police reported today.

Another 14 were injured in climbing accidents blamed on blizzards, high winds and avalanches.

negotiations are still in a fluid state and a number of points remain to be cleared up.

New Program Of Medical Care Proposed

CONTINUED FROM PAGE 1

all aged, the entire 65-plus population of 15,000,000, including those able to pay, the bill would run considerably more.

Also undetermined as the meeting opened today was the method of financing. There was diminishing sentiment for making the proposal part of the Social Security system.

Among methods discussed were a special payroll tax, payment from general taxation, income tax credits and possibly an excise tax.

McNerney said the Blue Cross-AHA proposal was made after three months of discussions with leaders throughout the country, including labor, professional and officials in the Kennedy Administration.

McNerney said Sec. Abraham Ribicoff of the Department of Health Education and Welfare expressed sympathetic interest.

Ribicoff insisted only that all aged be covered and that the plan be paid for by a payroll tax, McNerney said. All other points of difference are negotiable.

All Covered

Sentiment favored coverage of all aged so that, as one delegate put it, "No one would be subjected to the indignity of a means test in the declining years of his life."

McNerney, in his formal presentation and in a news conference, said he felt certain that even though the government would pay the bill, government would not want to take over the operation.

He said it would be "wasteful and foolish" to set up a new government agency when Blue Cross already has a going national organization, including an accounting control system that insures the biggest return to the public for its money.

Blue Cross now enrolls 57,000,000 Americans, including 4,500,000 age 65 or over.

McNerney said there has been

ity for Nova booster requirements.

Avco said Nova is being designed for manned flight to the moon.

Students Too Much, Driver Leaves Bus At Busy Intersection

PITTSBURGH (AP)—A Pittsburgh bus driver, fed up with the antics of high school students riding in his bus halted his vehicle at a busy Pittsburgh intersection Wednesday and walked off the job.

"I can't stand it anymore. I've had it," Frank Seitz told police at the scene.

Seitz, a driver for the Pittsburgh Railways Co. for 15 years, ordered the students off the bus and then telephoned his office to come and get the bus because he was going home.

"It is too early to say he quit, or whether he will be disciplined," said R. A. Hamilton, manager of rates and services for the bus firm.

Scale Models of Rockets Fired

NEW YORK (AP)—Avco Corp. announced at Wilmington, Mass., today that scale models of a new type rocket exhaust nozzle being designed for future huge space boosters have been successfully test fired.

Avco designed and built the subscale nozzles for the proposed Nova class of solid-propellant rockets in a project sponsored jointly with United Technology Corp. of Sunnyvale, Calif.

In initial tests at Sunnyvale last week, each of the subscale nozzles was fired successfully for periods of up to two minutes, long enough to confirm their adaptabil-

New Majority Leader Has Brilliant Career

Carl Albert Virtually Assured Election To New Post After Bolling Withdraws

WASHINGTON (AP) — It's a long road from Bugtussie, Okla., to Washington, D. C. and virtually certain election next week as the next majority leader of the House.

Carl Albert, son of a coal miner, has traveled it in 53 years. On the way this product of a one-room Oklahoma schoolhouse won a national oratorical contest, a Rhodes scholarship and a Bronze Star in the Pacific theater in World War II.

Since his election to the House in 1946, Albert's rise in its circles of power and influence has been quiet and sure. The withdrawal Wednesday of his only opponent for the office of majority leader, Rep. Richard Bolling, D-Mo., makes Albert's elevation a foregone conclusion.

Served in House
For the past nine years, Albert has served as Democratic whip in the House. His effective handling of this chore of rounding up colleagues for important votes put him in line to move up a notch to Rep. John W. McCormack's job as majority leader as McCormack moves up to speaker.

Albert is a self-effacing man. It is said that no one in the House—Democrat or Republican—dislikes him. Yet he is considered an able cog in the House leadership machine.

Although the White House kept hands off the majority leader contest, President Kennedy made for Dr. Rastus a letter known in those days as Bugtussie. Dr. Rastus is a veterinarian employed by the State Division of Animal Health.

One of Albert's most cherished pictures among dozens on his office walls is a group portrait of his first grade class, given him recently by his first grade teacher at a luncheon back home.

He went to high school in McAlester and was class valedictorian. He won a national oratorical contest and a trip to Europe. After a brilliant career at the University of Oklahoma, he won another oratorical contest and a trip to Hawaii.

In 1931 he won a Rhodes scholarship to Oxford University in England, where he took two law degrees. It is typical of Albert that the official biography issued by his office says of his military career, "he served in the Army in the Pacific theater in World War II."

What it doesn't say is that Albert enlisted as a buck private before Pearl Harbor, emerged as a lieutenant colonel and won a Bronze Star.

"Little Giant"
Albert is 5 feet 4 in his stocking feet. His southeast Oklahoma district is called "Little Dixie" and Albert has become famous there as "The little giant from Little Dixie."

He is a favorite with the neighborhood children when he goes home to McAlester. When they see his car parked they come in droves to see him. He and his wife, Mary, have two children, Mary Frances, 13, and David, 6.

As majority leader, Albert can be expected to be an administration stalwart. "I have a progressive voting record," he said Wednesday. "I supported the President's program right down the line last year."

Accused of Inadequate Care for 28 Horses
WEST BEND (AP) — Russell Moberly Jr., 24, was named in a warrant Wednesday which charged he failed to properly care for 28 riding horses at his Sleepy Dragon Ranch riding stable near here.

Washington County Dist. Atty. Richard T. Becker said the warrant was issued on a complaint by Sheriff William Johnson. The complaint after receiving a letter from Dr. V. P. Rastus, a veterinarian employed by the State Division of Animal Health.

Dr. Rastus stated that he investigated the ranch after receiving complaints from neighbors his first grade class, given him recently by his first grade teacher at a luncheon back home.

Moberly is scheduled to appear before County Judge Robert Stoltz next Tuesday.

Coroner Report Shows 114 Investigations

Kemps Cites Agencies For Help in Keeping Road Deaths Down

One hundred and fourteen deaths including two homicides and 14 traffic fatalities were investigated during 1961 by Outagamie County Coroner Bernard H. Kemps.

Kemps, in his annual report to the board of supervisors, cited the work of law enforcement agencies and private youth organizations in safety promotion as a direct contributing factor in the highway death toll which, for this year in Outagamie County, was the lowest since 1950.

Four Inquests
The coroner ordered 28 autopsies and conducted four inquests. Of the 114 investigations, death was attributed to natural causes in 77 cases. Six persons took their own lives, three by gunshot, two by hanging and one by drug intoxication. Twenty-nine accidental deaths were broken down into 14 traffic; three drowning; three domestic; two farm; two industrial; two asphyxiation and three miscellaneous.

Two training sessions, one at Denver, Colo., and the other at Green Bay, were attended by Kemps at his own expense.

One investigation resulted in finding electrocution as the cause of death when, at first, it was believed the victim died of injuries from a fall.

Safety recommendations made by the coroner were carried out by Town of Oneida officials at a hazardous curve where two lives were lost.

Other points in the report: Seven cremation permits; two crime lab investigations.

29 Fishermen Drown Off So. Korean Coast
SEOUL, South Korea (AP) — The government reported 29 fishermen drowned Tuesday when five South Korean fishing boats sank off the eastern coast. Another fisherman was reported missing.

Six other boats with about 30 men aboard had failed to make port early today and a search was underway.

The fishermen were aboard a fleet of 244 boats that set out Tuesday morning from Sok Cho on Korea's east coast. South Korean planes and ships helped to guide 233 safely back to harbor.

HERE ARE 2 OF THE NEW JET-SMOOTH CHEVROLETS

WHICH ONE IS THE CONVERTIBLE AND WHICH THE HARDTOP?

Did your keen old eyes tell you the top one's the convertible? Well, sir, that turns out to be our new Impala Sport Coupe whose solid steel roof line is a dead ringer for the Impala Convertible's below. But after rich new styling, then what? Look at the power department, where there's a new choice of V8 vigor. In the ride department, things are Jet-smooth. In glamor and go, comfort and craftsmanship, this one's got everything you'd reasonably expect of an expensive car. Except the expense.

Slip inside a Jet-smooth Chevrolet, relax in one of the comfort-high seats and notice how good you feel. Ready for action? Just flick the key and let 'er purr (you have your choice of two standard engines—a 135-hp 6 or 170-hp V8—or optional-at-extra-cost V8's way up to a 409-hp mile-shrinker). That gentle cradling motion you enjoy is Jet-smooth ride at work. And the

richness and spaciousness of the interior are Body by Fisher at work. Now, we ask you, is there any more you could reasonably expect of a car? If there is, your dealer will be very happy to show you (1) just where you can find it in the handsome new Jet-smooth '62 Chevrolet and (2) what it feels like to own a costly car—without the cost.

See the new Chevrolet, new Chevy II and new Corvair at your Chevrolet dealer's One-Stop Shopping Center

Let's EXPLORE YOUR MIND

By Sylvanus M. Duvall, Ph.D. and Evelyn M. Duvall, Ph.D.

This statement is good advice. Men, usually. Little boys are taught from their earliest years to go after what they want and to take it. Men are expected to be aggressive and to throw themselves into the battle of life and to fight for what they want. Women are usually reared differently — to cajole and coax and tease for what they want rather than to fight aggressively for it. Modern women tend to be more active in going after what they want than were their great-grandmothers — men still have the edge on aggressiveness.

Wolf River Study Receives Priority III

Chicago District Water Territories Will be Examined

A priority three classification has been set on the Wolf River watershed by David Carley, state director of the Department of Resource Development, for the Army Corps of Engineers.

The Corps of Engineers will provide technical aid to municipalities along certain waterways.

A hearing has been scheduled on the Wolf River waterway Feb. 9 at Appleton on a proposed \$30,000 study of the river by the Corps of Engineers.

Under the federal grant, the agency will determine flood damage, controls, recreation potential and will attempt to determine interest in backing Wolf River improvements.

Carley will present data on the Wolf River at the hearing and ask the corps for a study outlining the entire flood plan of the Wolf River. This study would be used for a resource development program Carley's department is preparing for the expected new regional planning commission in the seven-county Wolf River Basin.

Priorities set for water territories in the Chicago District are:

- Priority I — Milwaukee, Menomonee and Kinnickinnic River watersheds.
- Priority II — Fox River watershed in Walworth, Burlington, Silver Lake and Waukesha.
- Priority III — Wolf River.
- Priority IV — Lake Winnebago — city of Fond du Lac and urbanized towns affected by high water levels.

2 Drivers Deny Being Tipsy

Two motorists pleaded innocent of drunken driving when they were arraigned in Outagamie Municipal Court.

James F. Kleuskens, 29, 1132 Mantowoc Road, Menasha, posted bond of \$195 for trial March 5. He was arrested Dec. 22 in the Town of Grand Chute near

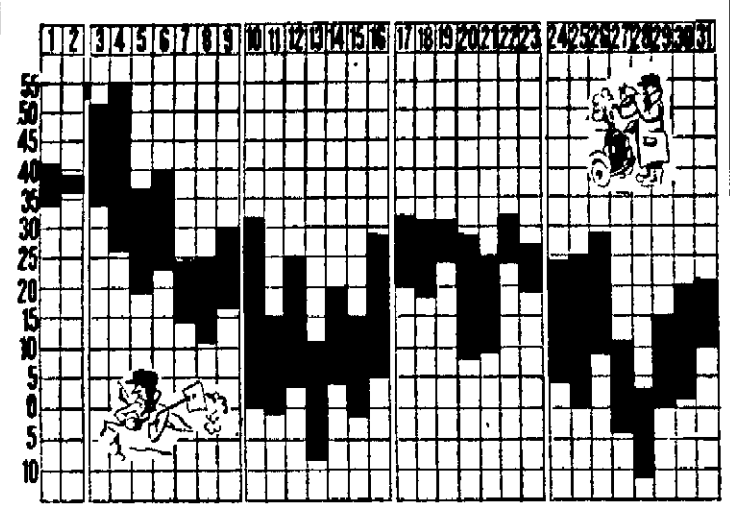

Rainfall Record Set

It's Old News, But December Was Snowy

Snowfall! Did we get it? Well I guess. There was more snow in December than the Fox Cities have had in that month since 1952 and was the fourth highest December total on record. Snow amounted to 14.5 inches on 20 days during the month, with 7.4 inches recorded in one storm that began on the afternoon of the 11th and ended on the 12th.

Another storm, with 4.6 inches, ended during the morning of the 17th and brought the grand total to 12 inches. Only traces of the 4

December normal. As a result, the annual total for 1961 amounted to 40.96 inches which is a new record for any year since records began. The previous high was 38.97 inches set in 1959. Not only was December a snowy month—it was cold, too. After Dec. 6, daily temperatures did not exceed freezing for the rest of the month. Minimum temperatures dropped to zero and below on eight days. A minus 12 on the morning of the 28th was the month's low, and was the coldest in Appleton since Feb. 2, 1959. A 55 degree above zero reading early in the morning of Dec. 12 inches. Only traces of the 4

white stuff were spotted after that date and the snow compacted to eight inches by Dec. 23.

Heavy hoar frost covered the leafless trees Christmas morning giving the Fox Cities a Christmas card appearance.

New Record
Melted snow and rain amounted to 1.31 inches for the month, which is .08 inches below the

temperature and set a record high for that date.

The average maximum for the month was 27.1 degrees and the average minimum was 11.2 degrees, being 2.8 degrees and 4.7 degrees below normal, respectively. The monthly mean of 19.1 degrees compares with a normal of 22.9. Heating degree days amounted to 1,419 during the month for an accumulated total since Sept. 1 of 2,906. Normal values are 1,310 and 2,840 degree days, respectively. That means a bit more than the usual amount of fuel was required to heat buildings.

There were four days with clear skies, 11 days with partly cloudy skies and 16 days were overcast during December. The average wind velocity was 9.6 miles an hour with a prevailing direction from the west. The maximum velocity of 40 miles an hour was observed Dec. 5.

Around Home

Mike Valentyn, sixth grader at Holy Name School, Kimberly, and one of the more talented basketball players in the recreation Boys' League, recently was the hero of the game by tossing in the winning basket in an overtime tilt, but his team lost.

Valentyn, in the excitement of the closing minutes of overtime, tossed the ball through the opponent's basket.

Bills Sent Out Little Chute Tax

Regular Collections Begin Jan. 10; Hours Set by Treasurer

LITTLE CHUTE — Mrs. Loreta Verstege, clerk - treasurer, placed 1,739 tax notices in the mail Tuesday, including 146 personal property tax notices, and will begin regular tax collection Jan. 10.

The treasurer will collect taxes during normal office hours on Jan. 10, 11, 15, 16, 17, 18, 22, 23, 24, 25, 29, 30 and 31 and on Feb. 1, 2, 7, 8, 9, 12, 13, 14, 15, 16, 19, 20, 21, 22, 23, 26, 27, and 28. Starting Feb. 2 the treasurer will hold 6 to 8 p.m. collection hours on Friday evenings.

Taxpayers paying in full have through Feb. 28 to pay taxes without penalty. Those paying on the installment plan are required to pay the first one-half of their taxes by Jan. 31 and the remainder is to be paid to the county treasurer by July 31.

Personal property taxes and special assessments must be paid in full to the village treasurer. Owners of dogs are requested to pick up dog licenses when pay-

Little Chute Kiwanians Pick Committee Chairmen for '62

LITTLE CHUTE — Committee chairmen for the coming year were appointed by William Win-

us, president, at a dinner meeting of the Little Chute Kiwanis Club Monday.

Committee heads will be Paul A. Dercks, boy and girl work; William Fitzpatrick, Key Club; Robert Scherzinger, vocational guidance; Robert Gneiser, agriculture and guidance; Jack Reynebeau, public and business affairs; Theodore Verkuilen Jr., support of churches; Paul Dercks, trees for tomorrow, Ed Spierings, achievement; Joseph Van Den Burgt, attendance and membership and Fabian Ourada, finance.

Others are Paul Koska, house; Robert Hartjes, inter-club relations; Robert Lace, Kiwanis Education and Fellowship; Frank Briske, laws and regulations; Joseph Reynebeau, new club building; George Vanderloop, programs and music; Tony Van Boxtel, public relations; Art Grundy, reception, and George Vanderloop, convention.

Member Drive
Plans were made for a membership drive with three-man teams to be organized and prizes to be awarded the team gaining the most members. Installation of new members will be held at a Valentine party for Kiwanis and their wives Feb. 13.

Members voted to change the meeting from noon on Mondays to 5:45 p.m. Tuesdays. The final noon luncheon is scheduled Jan. 9 with the initial evening dinner set for Jan. 16. Plans were also made for a broom sale with John

ing taxes as names of delinquent dog owners are furnished to district attorney when making tax returns to the county.

George Vanderloop was authorized to investigate the possibility of staging a donkey basketball game, proceeds to be placed in the welfare fund. Additional committee appointments will be made when it is ascertained whether such a contest can be staged.

Vanderloop and Winus were named delegates to the mid-winter conference to be held in Milwaukee this weekend.

The need for teaching brothers is emphasized in the pamphlet. The authors point out that of the 10,928 brothers in America, 4,807 are engaged in education of 9 million children enrolled in Catholic schools.

Undeveloped Narrow Alley Taken Off Official City Map
An alley south of College Avenue between Victoria and Douglas streets, placed on the official city map more than 50 years ago but never developed, was taken

New Year Time For Inventory Of Our Lives

Pastor Finds Three Suggestions From Psalmist's Writings

"The end of the year is a time for taking stock of our situation . . . In the process, if we have any depth of character, we will find much for which to give thanks to God," the Rev. John Seidler told his congregation Sunday.

The minister of St. John United Church of Christ agreed there might have been "sorrows to cloud the sky, but we will find even such tribulations have their compensation in God's appraisal of life."

Faith Important
The Rev. Seidler's sermon theme was from Psalm 27, verses 13 and 14. In the passage the psalmist expresses three suggestions everyone could follow as the old year leads into the new. Have faith, have courage, have patience.

While this suggestion, "Have off the map by the council Wednesday night.

The platted alley was 10 feet wide, too narrow for practical use, and no grading was ever done. The land will revert to the abutting property owners.

No one appeared for the public hearing on vacating the alley that was scheduled to be held during the council meeting.

"We take our cue from the Apostle Paul," the minister concluded. "So then, as we have the opportunity, let us do good unto all men, especially to those who are of the household of faith."

"Let us never grow tired of doing good."

"Our chief concern as Christians is to bear witness to Christ unto the salvation of souls," he said. "The world continually tempts us to doubt that the Kingdom of God will ever come on earth." But the Bible reminds us, "In due time ye shall reap, if you faint not," said Pastor Seidler.

"Faith is a covenant with God, the pastor said. "We can depend on His faithfulness. But we will not find this out, or discover how real his love and grace area, until we take the venture and fulfill our part of the agreement."

Courage is important, the Rev. Seidler said, "if faith is to be kept alive." Faith must be exercised in face of fears of hesitations.

Gift of God
If we meet the things of which we are afraid with Christian courage, he continued, "we will be surprised to find that they add to the enrichment of our life."

Courage is a gift of God, the minister stated.

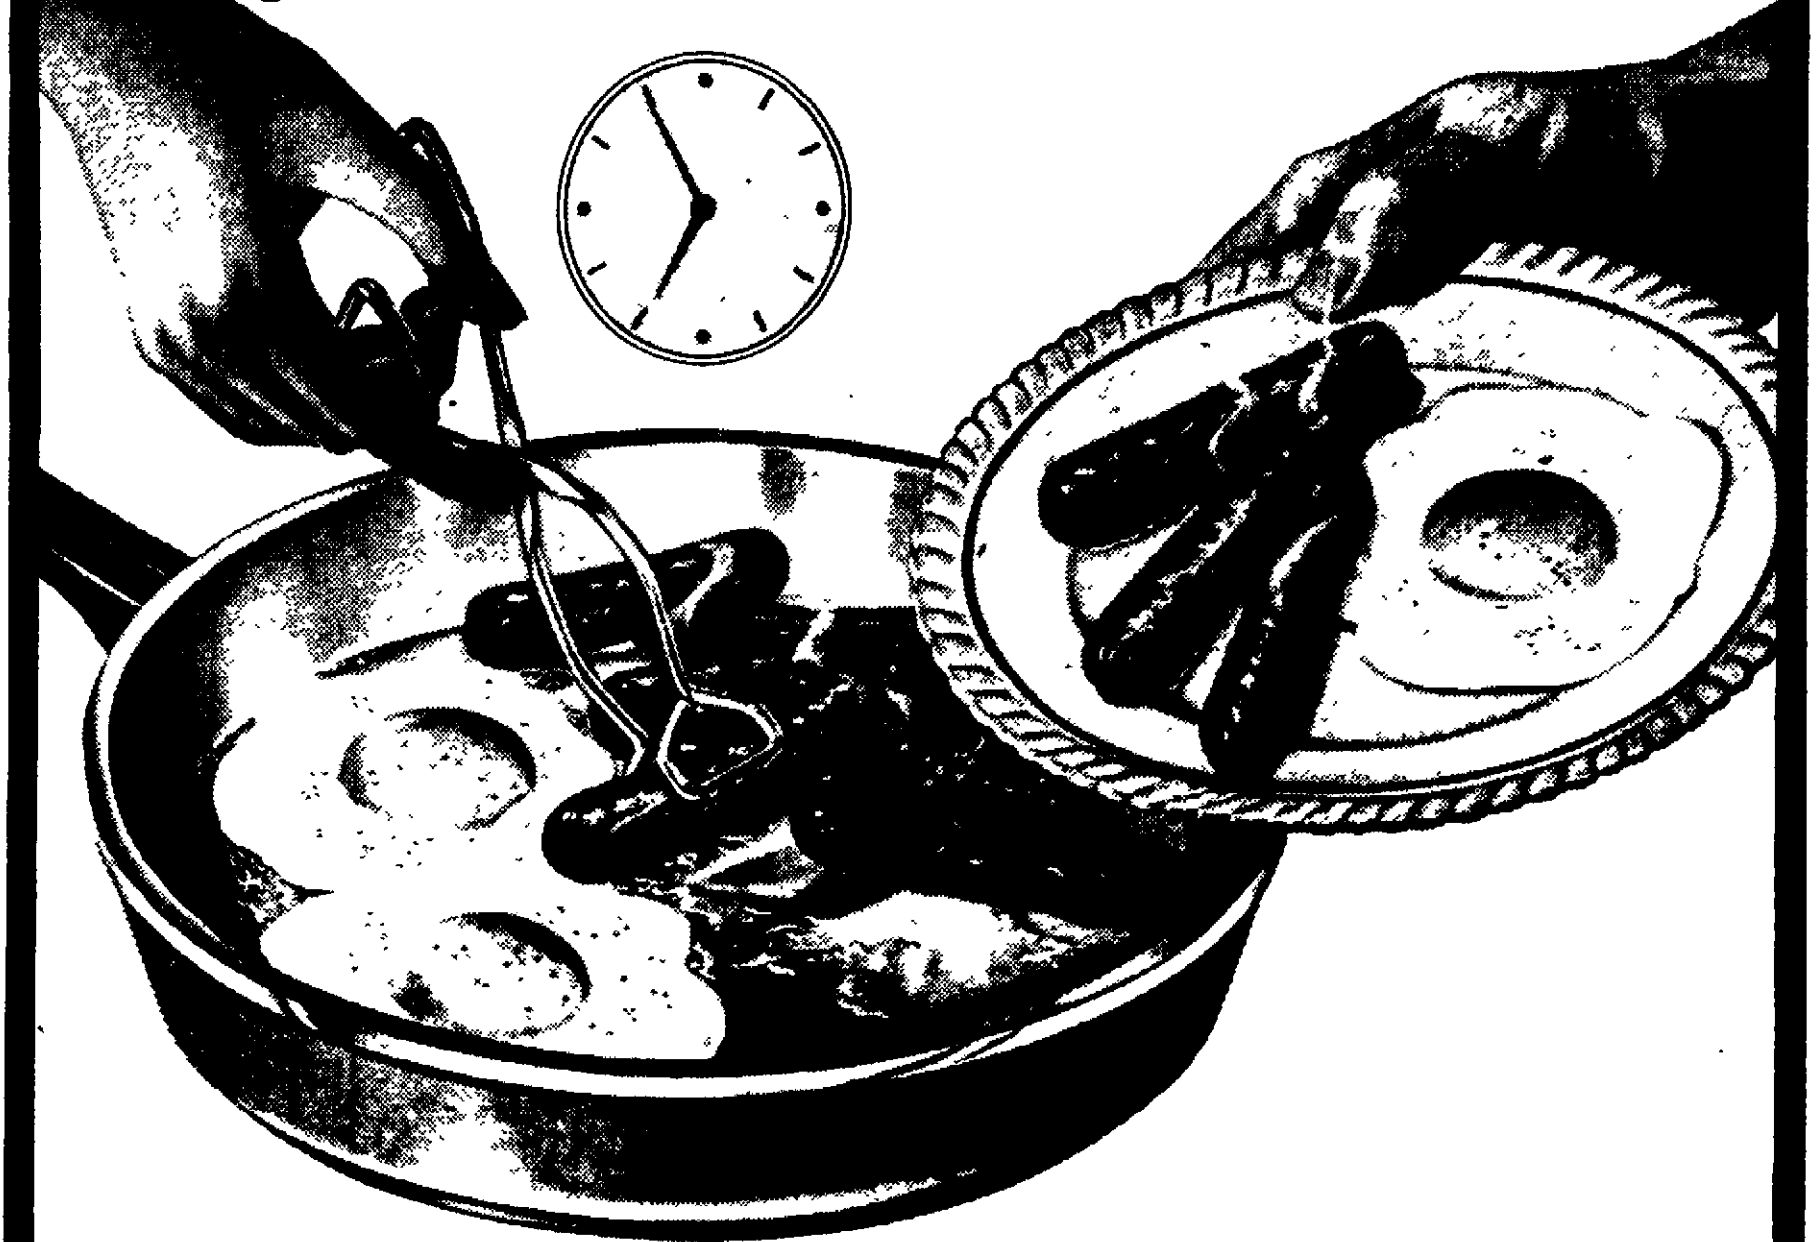

Faith and courage need another companion: Patience. "Wait on the Lord," the psalmist said. The Rev. Seidler reminded his congregation, "We cannot get very far in our Christian endeavor if we are looking only for quick returns."

"In Due Time"
"The world continually tempts us to doubt that the Kingdom of God will ever come on earth." But the Bible reminds us, "In due time ye shall reap, if you faint not," said Pastor Seidler.

Rev. Seidler

Savory new breakfast meat that you just need to heat!

NEW OSCAR MAYER Smoked Breakfast Sausage

You can heat these tender links while the eggs cook sunny-side-up! Oscar Mayer Breakfast Sausages are fully cooked, you see, so you merely brown them. (And there's very little shrinkage.) They're made of beef and pork, ground country-style, and ready to burst with juicy, smoky flavor. Try some tomorrow morning. Remember, meat gives you natural vitamins and the complete protein you need for good health.

All Oscar Mayer meats carry this U.S. Govt. Inspection Stamp — your added guarantee of wholesome quality.

Kennedy Budget Indicates America Pays Price of Modern Great Power

BY WALTER LIPPMANN

In the present fiscal year it will be larger by more than \$10 billion than the last Eisenhower budget as originally presented to Congress.

Nevertheless, the tentative rise in the spending for national security, there has been no radical increase in the burden of government spending during the past twenty years. In 1939 government spending (minus defense) amounted to 13.4 per cent of the gross national product. In 1960 it was 12.3 per cent. It is interesting to note that in 1929, before the New Deal and the Second World War, government spending (minus defense) was 7.5 per cent of the gross national product.

"Creeping Socialism"

It is often said that these large government purchases of goods and services are "creeping socialism." The facts do not believe support this charge. For the goods and services which are purchased are not produced as they would be under socialism by government-owned and operated industries. They are being purchased from the profit in 1960 some 53 per cent of the all government purchases were of goods and services produced by private firms. The other 47 per cent went to wages and salaries of government employees.

What has crept along during the twentieth century has been our rapidly growing population which has been moving away from the farms and villages into big cities. People collected in big cities need more public expenditure than do people who live in the open country. This simple and obvious truth is often forgotten by the orators. But the people living in the urban centers are continually aware of the truth. They cannot get along in the cities as could their grandfathers in the country, with private wells, private cesspools, unpaved streets, no police force, no volunteer fire department, private transportation. They must have the facilities and the amenities that are essential once they have moved from the country into the city.

The so-called socialism which is supposed to be creeping upon us is in fact nothing more than the work of making life safe and decent for a mass society collecting in great cities. Through the work of making life safe and decent for a mass society collecting in great cities. Through the work of making life safe and decent for a mass society collecting in great cities.

proportion of government funds was somewhat lower thirty years ago. In 1929, government purchases from private firms accounted for only 39 per cent of government purchases. Thus there has been no decline in the role of private enterprise in government spending. It is evident that creeping socialism has not crept very far.

Population Explosion

What has crept along during the twentieth century has been our rapidly growing population which has been moving away from the farms and villages into big cities. People collected in big cities need more public expenditure than do people who live in the open country. This simple and obvious truth is often forgotten by the orators. But the people living in the urban centers are continually aware of the truth. They cannot get along in the cities as could their grandfathers in the country, with private wells, private cesspools, unpaved streets, no police force, no volunteer fire department, private transportation. They must have the facilities and the amenities that are essential once they have moved from the country into the city.

The so-called socialism which is supposed to be creeping upon us is in fact nothing more than the work of making life safe and decent for a mass society collecting in great cities. To Your Good Health

'Stay-Awake' Tablets Called Harmful to College Students

BY JOSEPH G. MOLNER, M.D.

My letter file included a number about "stay-awake" pills, including these two:

"Dear Doctor: My daughter takes 'stay-awake' pills when she has to study late at night. I feel this is not good for a teenager. She has become so much more tense lately. Will you comment? And also what is your opinion on cigarette smoking at this age?" Mrs. S.E.

Dear Sir: I am a college student and have a lot of homework to do. I have tried some stay-awake pills to keep my studies from putting me to sleep. They are supposed to be non-habit-forming. What do you think of them?" W.B.

I know it's hard work in college these days—and the colleges are so crowded that the student who doesn't keep up in his grades presently is sent home.

The colleges have to be hard-headed about this. Students should be, too, if they intend to stay in college.

These pills are at best a poor substitute for staying awake naturally. They may keep a person from falling dead asleep—but they don't improve mental alertness. Quite the reverse! It's a foggy sort of wakefulness.

May Become a Habit

True, they may not be habit-forming in the sense of causing an addiction or physical craving for them. But they can become a habit when anybody puts too much dependence on them.

Furthermore, the pills don't add any extra useful hours to the week. Whipping up the nerve to more activity when the body is demanding sleep simply means that the lost rest must be made up in some other way or at some other time. Maybe you stay more or less awake far into the night, but you'll pay for it by being tired later.

There are plain reasons for fatigue—which includes being unable to stay awake without drugs. An obvious one is not enough sleep because of excessive extracurricular activities—sports, clubs, dates. Or the hard task of having to work in addition to going to school.

Inadequate nutrition is another and not eating breakfast is a more powerful factor than many people suppose.

Stuffy rooms or excessive smoking can also make people sleepy.

And frankly a subject in which the student isn't really interested usually makes him sleepy. The best answer I can offer is that since you've signed up for the course willingly or not, study it first. Save the more interesting ones until later.

Coffee, a brisk walk or even five minutes of calisthenics is enough to wake up somebody who has been getting enough sleep, food and exercise.

Smoking among college students is pretty much an individual choice. By and large children reflect the attitudes of their parents but not always. You can't just tell 'em not to smoke and expect it to stick. You can hope that they are smart enough not to get the habit.

Possible Pregnancy

"Dear Dr. Molner: I am 50 and still having my periods regularly. Can I become pregnant? Or am I too old?" Mrs. R.L.

You can so far as the presence of periods is concerned. Age itself is not the important factor. I repeat for the second time—second or sixtieth—that there's no absolute rule. But one year after the last period the prospects of pregnancy are virtually nonexistent.

Note to HW: About 10 grains of quinine a day seem to be adequate to control malaria although these days some other drugs have proved more effective. I don't believe that it is necessary to take doses every two hours."

Study of Rockers Illinois Student's Unusual Hobby

MACOMB, Ill. (AP) — Rocking chair lore is as old as the hills but for Trudi Alessi it's a new and interesting hobby.

"America's tremendous might was built by men who rocked gently on their front porches," she said.

She backs up her theory by citing the rocker in Abraham Lincoln's Springfield, Ill. house (which doesn't have a front porch).

Assignment editor for the Western Illinois University campus paper she has corresponded with rocking chair owners over the state in an effort to find the oldest.

One owned by Mrs. Paul Lambert of LaSalle, Ill. is wrought with iron fittings and dates to about 1736. Her grandmother brought it to Illinois from Pennsylvania.

Air Force Begins Closing of Brigs

HONOLULU, AP — The Pacific Air Force is throwing away the keys to its jails. No occupants.

Col. Calvin V. Robinson, security and law enforcement officer for the Pacific, says the command has only three jails left in operation.

Keys were thrown away last year to five brigs in Japan, two in Okinawa and one in the Philippines.

The brig at Hickam Air Force Base near Honolulu is still open for business, but has had no customers for three months.

Col. Jay C. Milligan attributes the growing "career attitude" and maturity of airmen to the declining need for jail houses.

Nothing Beats the Tantalizing Aroma of Hot, Bubbling Stew on a Wintry Day

LILLIAN MACKESY
Post-Crescent Food Editor

When winds whip icy cold or the frosty air just seems to quietly wait for victims to chill . . . it's a delight to open the door to a home that's bursting with tantalizing cooking aromas. And there's nothing that fits the bill better than stew . . . the honorable and ancient dish of every section of every country . . . the dish that well may be mankind's oldest.

Stew is a wondrously fine dish for a wintry day . . . whether made with beef, pork, lamb, chicken or seafood. Eaten all over the world in one form or another, it's always filled with vegetables of the region, nutritious but economical cuts of meats and seasonings learned through years of local custom. Stew may be served plain, hot from the pot, or with noodles, croutons, dumplings or other pastas or pastries.

The ever popular Irish stew always starts with a potato and onion . . . the meat in a true Irish stew is lamb or mutton, not beef . . . and the delicious one-meal dish comes to the table liberally garnished with fresh parsley.

But there are many ways to make a stew . . . Here are stew recipes gathered from many localities . . . France Spain and sections of our own country. All are good, hearty and palate-pleasing to hungry members of a family.

Lamb Stew, Spanish Style

- 2 pounds breast of lamb
- 3/4 cup flour
- 2 tablespoons shortening
- 3 cups hot water
- 1 bay leaf
- 3 1/2 teaspoons salt
- 1/2 teaspoon whole black peppers
- 1/4 cup onion flakes
- 1/4 cup sweet pepper flakes
- 1/2 cup uncooked rice
- 2 cups canned tomatoes
- 1 cup frozen peas, thawed
- 1 egg, beaten
- 1 teaspoon olive oil
- 1/2 teaspoon cider vinegar

Wipe lamb and cut into 1 1/2-inch pieces. Dredge in flour and brown in shortening. Add hot water, bay leaf, salt and whole black peppers. Cover and cook slowly 1 1/2 hours or until lamb is almost tender.

Add onion and sweet pepper flakes and rice. Simmer 30 minutes longer. Add tomatoes and peas 10 minutes before cooking time is up.

Mix egg, olive oil and vinegar. Add to stew, stirring until mixture thickens. Serve hot. Recipe makes six servings.

Stew with Parsley Dumplings
1/2 cup self-rising flour
1 teaspoon salt
1/4 teaspoon pepper
1 pound stew beef, cubed
1/4 cup shortening
1 large onion, diced
2 cups beef broth
1 small bay leaf
1/4 teaspoon thyme
1/4 teaspoon rosemary
6 medium carrots, quartered
1 cup diced celery
1 cup water

Parsley dumplings
If beef broth is not at hand, it may be made by combining two cups boiling water with two beef bouillon cubes.
Combine flour, salt and pepper. Dredge beef cubes in flour mixture. Melt shortening in large skillet, brown meat slowly. Add onions and continue cooking for five minutes. Stir in beef broth

Cubed Round Steak cooked over low heat for 90 minutes with beef bouillon, salt and celery seed combines with carrots and onions to make a wonderful beef stew sauce to serve over noodles. This is a recipe that's good to have on hand for unexpected company when a hearty meal is in order. It's an easy, yet delicious main dish that can come from freezer and pantry shelf whenever the occasion demands.

and seasonings. Cover and cook slowly for about 1 1/2 hours. Add carrots, celery and water. Continue cooking until vegetables are tender. Then drop dumpling dough by tablespoons into boiling stew. Simmer 10 minutes uncovered, then an additional 10 minutes covered. Serve immediately. Recipe makes four to five servings.

Parsley Dumplings
1 1/2 cups sifted self-rising flour
1 tablespoon finely chopped parsley
2 eggs, beaten
2 tablespoons melted butter
1/3 cup milk
Sift flour into bowl. Stir in parsley. Combine egg, butter and milk. Add to flour mixture to make a soft dough.

Stew With Croutons
2 pounds beef chuck, cubed
2 tablespoons fat
4 cups boiling water
1 teaspoon lemon juice
1 tablespoon Worcestershire sauce
1 clove garlic
1 medium onion, sliced
2 bay leaves
1 tablespoon salt
1/2 teaspoon pepper

This Hearty Beef Stew is topped with golden parsley dumplings . . . a dish guaranteed to win praises. The carrots, onion and celery are cooked with the meat and the seasonings are thyme, rosemary and bay leaf. The dumplings are added to the stew during the last 20 minutes of cooking time.

A Popular Seasoning for stew . . . the aromatic bay leaf . . . brings out the full flavor of this lamb stew, Spanish style. This recipe includes breast of lamb, whole black peppers, onion and sweet pepper flakes, rice, tomatoes, peas and olive oil. Now that bay leaf is available in ground form, it becomes a handy item for the busy homemaker, who can add a creative touch in a twinkling to such convenience foods as canned soups or vegetables.

An Old-Fashioned Beef stew with a new twist is this rich, brown stew with croutons. After the meat and vegetables are done, the liquid is thickened for gravy. Then all the ingredients go into a shallow casserole, bread triangles are arranged around the outer edge and topped with grated cheddar cheese, and the dish is popped under the broiler for a last-minute browning.

Altrusa Club Adopts Vietnamese Child

Appleton Altrusa Club has adopted a 10-year-old Vietnamese little girl. Her name is Vu Thi Tim and she was born on Christmas Day in 1951.

Tim's earliest years have been shadowed by tragedy. Her father was imprisoned by the Communists and died in prison in 1953.

Fled to Freedom

In the following year as soon as she possibly could Tim's widowed mother fled to South Vietnam and freedom from persecution.

Vu Thi Tim

The family is settled at Vung Tau with Tim's maternal grandmother. The widow peddled fish to pay for her children's care; her earnings were very small. In May, 1960 she, too, died and Tim and her brother, Duc, were left orphaned.

Returned to School

For a time the old grandmother peddled fish as her daughter-in-law had done, but she was ill and she could not make much money. Both children now live with their uncle, a soldier who earns \$20.50 a month and who has three children of his own. The group lives at the military camp where Duc goes to school. His fees are only 13 cents a month.

and is working hard to catch up to her grade level.

Through the provisions of the Foster Parents Plan, Tim is given a monthly cash grant of \$8, food and clothing in periodic distribution and, should she need it, special medical care.

The Altrusans' foster daughter she has returned to her classes stands exactly four feet tall.

Mr. and Mrs. John Barlow rang out the old year and in the new at Butte des Morts Golf Club Sunday evening. A cocktail hour, dinner and dance were on the agenda for the fun-filled evening. Mr. Barlow is president of the club. At left, Mrs. John Goehler adjusts her husband's paper hat as they get ready to join in the festivities.

Mr. and Mrs. Fred Kampo, Neenah, swing around the ballroom at Butte des Morts Golf Club Sunday evening. They were on hand to welcome in the new year with their friends at the club. Below, Mr. and Mrs. James Gustman, Kaukauna, enjoy a few quiet moments at their table after dinner.

Pair Marks 50th Wedding Anniversary

The golden wedding anniversary of Mr. and Mrs. Oliver Wolding, New Hope, was celebrated Dec. 31 at the home of their son and daughter-in-law, Mr. and Mrs. Herbert Wolding, Nelsonville. A buffet luncheon was served at the open house observance.

Mr. and Mrs. Wolding were married Jan. 1, 1911, in Scandinavia. Wedding attendants present for the anniversary were Mr. and Mrs. Matt Broadway, New Hope, and Carl Egeland, Scandinavia.

Mr. Wolding has been engaged in farming in the town of New Hope.

The couple has two sons, Manfred, Lapeer, Mich., and Herbert. They also have eight grandchildren and two great-grandchildren.

CD Theme

FREMONT — Civil defense will be the theme of the meeting of the Auxiliary of the Wolf River American Legion Post at the village hall Monday evening. Mrs. Florence Wohlt chairman, will be assisted by Myrtle Meyer, Emma Kuepper, Agnes Redemann and Bertha Lovejoy.

Savory Stews for Cold Winter Days

Continued from Page 14

makes six to eight servings.

Beef-Onion Stew With Noodles

10 ingredients, thus leaving out carrots, small white onions, bread triangles and grated cheese. Summer two hours, stirring occasionally to keep mixture from sticking.

Add carrots and small white onions; continue cooking 20 to 30 minutes longer, until vegetables are tender. Remove meat and vegetables, then thicken liquid for gravy.

To thicken liquid, combine four tablespoons flour with three tablespoons fat and one teaspoon Worcestershire sauce. Blend into liquid.

Place gravy and stew in shallow casserole. Arrange bread triangles around outer edge and sprinkle bread with grated cheese. Brown under broiler. Recipe

- 1 pound round steak, cubed
- 1 teaspoon salt
- 1/2 teaspoon pepper
- 2 tablespoons salad oil
- 2 cups beef stock
- 1/2 teaspoon celery
- 2 tablespoons cornstarch
- 1/3 cup water
- 1-pound can whole carrots, drained
- 1-pound can onions, drained

1 tablespoon salt
3 quarts boiling water
8 ounces wide egg noodles
Sprinkle beef with one teaspoon salt and quarter - teaspoon pepper. Heat salad oil; add beef and then cook over medium heat, turning occasionally until browned on all sides. Add stock, quarter teaspoon salt and celery seed. Cover and cook over low heat, stirring occasionally, for about 1 1/2 hours.

Combine cornstarch and one-third cup water, mix well. Add to beef mixture, blending well. Cook over low heat, stirring constantly, for about five minutes, until mixture thickens. Add carrots and onions. Cover and cook over low heat, stirring constantly, for 10 minutes.

Add tablespoon salt to rapidly boiling water. Gradually add noodles so that water continues to boil. Cook uncovered until tender. Drain noodles in colander. Serve beef mixture over noodles. Recipe makes about four servings.

Navarin de Mouton (French Stew)

- 3 pounds boneless shoulder or neck of lamb
- 2 sprigs parsley
- 1 sprig fresh mint
- 1 rib celery with leaves
- tops from green onions
- 3 cups water
- 3 teaspoons salt
- 1 clove garlic, crushed
- 1/2 cup flour, browned
- 1/2 cup cold water
- 1/2 teaspoon ground thyme
- 3 large carrots
- 3 medium potatoes
- 12 small white onions

Trim excess fat from lamb and cut into 2-inch pieces. Fry out a few pieces of the lamb fat. Add meat; brown on all sides. Pour off excess fat and save for later use.

Tie parsley, mint, celery and green onion tops in a bundle and add to meat. Stir in water and salt. Cook covered for one hour or until meat is about half done. Add garlic. Cook covered for 30 minutes. Remove herb bundle and discard.

To brown flour, place over medium-low heat in a heavy saucepan or skillet. Stir and cook until lightly browned.

Blend browned flour with the half-cup of water until smooth. Mix with meat. Add thyme.

Peel carrots and potatoes. Cut carrots into one-inch cubes and potatoes in slices one-third inch thick. Brown on all sides in fat reserved and drained from meat. Place browned carrots and potatoes over top of the meat, but do not stir.

Peel onions and add. Cover pan and cook 15 minutes until vegetables are tender. Serve hot. Recipe makes six to eight servings.

Irish Stew

2 pounds boneless lamb or mutton

- 1 peeled, chopped onion
- 1 peeled, sliced potato
- 2 cups water
- 2 1/4 teaspoons salt
- 1/4 teaspoon ground black pepper
- 6 medium potatoes
- 12 small onions
- parsley for garnish

Boneless shoulder or neck of lamb or mutton may be used for Irish stew. Trim excess fat from meat; cut into one - inch cubes. Place in a Dutch oven or heavy, four-quart saucepan along with chopped onion and sliced potato. Add water, salt and ground black pepper. Cover and cook slowly for one hour.

Peel potatoes and onions; place over meat. Cook covered for 40 minutes longer or until meat and vegetables are tender.

Place meat in center of a warm serving dish. Place potatoes and onions around meat.

Garnish with fresh parsley. Strain pan drippings and thicken with flour mixed to a smooth paste with cold water. Cook, stirring constantly, until clear and slightly thickened. Serve gravy separately in a gravy boat. Recipe makes six servings.

Mr. and Mrs. Carl Kosiorek, 1328 W. Commercial St., entertained friends of theirs from high school days New Year's Eve. Standing around the decorated buffet table are Mr. and Mrs. Thomas Roberts, Mr. and Mrs. Kosiorek and Mr. and Mrs. William Mys.

get in with the king of diamonds to draw dummy's last trump. You wind up losing two diamond tricks.

Lead Spades Promptly
Now try gathering your rosebuds earlier. Win the first trick in dummy and lead the king of spades at once.

East wins and returns a trump, but this is only the first round of trumps. You win, get to dummy

with a club and get rid of a club on a high spade. Then you take the diamond finesse.

Since only one round of trumps has been drawn, West cannot stop you from ruffing a diamond in dummy. You lose only one diamond, and this assures the contract.

The point of all this rosebud business is that you can't afford to waste time with a round of trumps at the second trick. Get to work immediately on the spades and diamonds.

Actually, there's a fancy way to make the contract even if you do lead trumps at the second trick. It's a foolish line of play, but it happens to work.

Take a round of trumps and lead a spade to East's ace. Back comes a trump, and you finesse to West's queen. Back comes a club.

Cash dummy's high clubs and ruff a club. Get back to dummy with the jack of hearts and lead a club. Discard the low diamond, and let West win the trick. He must return a diamond to your ace-queen, giving you the contract. This is known as making a contract the hard way.

Daily Question
Partner bids one spade, and the next player doubles. You hold: S-K Q J 6 H-J 8 7 D-8 7 C-A K 6 4. What do you say?
Answer: Redouble. You can show the magnificent spade support later. Redouble first to show that the hand "belongs" to your side.

(Copyright, 1962)

Homemakers Planning Meeting
ROYALTON — The L.M.R. Homemakers will meet Jan. 15 at the home of Mrs. Wenzel Bleier.

She will be assisted by her daughter, Mrs. Lloyd Schultz.

The lesson, "Basic Dress and Accessories," will be presented by Mrs. Gus Sutton and Mrs. Irl Poehlman.

Host for Club
NORTHPORT — Mrs. George Rucha will be hostess to the Ladies Aid of the Methodist Church at her home Jan. 15.

Too Many Special Days In '62; Few Important

BY HAL BOYLE

NEW YORK (AP) — If Elsa Maxwell wants me to fill in as a Chases' Calendar of Annual Duke and Duchess of Windsor Events. This year it lists a rec- anytime in 1962, she'd better name the time and place now.

Even then it's doubtful if I can oblige. My social schedule is ter- ribly, terribly crowded.

Isn't yours? Isn't everybody's? My, I've never seen so many worthwhile things that must be observed, attended or celebrated

if one is to keep one's head above water in the social swim. My Baedeker in such matters is the Chases' Calendar of Annual Duke and Duchess of Windsor Events. This year it lists a rec- anytime in 1962, she'd better name the time and place now.

rate—200 more than last year.

If one celebrated them all con- secutively, it would require 18 years, 3 months, 2 weeks and 6 days. But only the social-climbing riffraff try to celebrate every- thing.

Those of us who value a real place in society must carefully pick and choose.

Sound Schedule
Perhaps you'd like to glance at my own schedule for the next six months? I'm sure the late Emily Post would find it fundamentally sound. Everyone in our set ap- proves.

Well, I started on the first of January with international Take a Deep Breath Day, as I believe it is the duty of all of us to take a more conscientious interest in world affairs, don't you?

Right now I'm also supporting the University of Detroit's Silent Record Week. The idea: You fight noise by playing a silent record over and over.

All I have down for the rest of the month is Robert E. Lee's birthday and — oh, yes — large Economy Size Week. The latter will enable those of us at the top to encourage the masses in the virtues of thrifty buying.

Giving Blue Blood
February is fairly barren ex- cept for Weight Watcher's Week, and the birthdays of Abraham Lincoln, George Washington and Susan B. Anthony.

In March we are concentrating on Red Cross Month—we're donat- ing some of our best blue blood: Save Your City Week, and St. Patrick's Day.

April is a giddy time, what with Make it Yourself With Wool

Promises to Child Should be Kept

BY ANGELO PATRI ahead, or any length of time

"Yes, I know," said the boy's father to the troubled teacher, incentive of prolonged effort.

"Yes, I know he doesn't do as well as he should. But try as I his work, he must be helped, may I don't seem to be able to stimulated and praised day by get him to keep at it once he day. This may be wearisome to really makes a start at improving, the parent, but after all bringing

"Last month when his report up a child in the way he should was not so good I promised him go is not the work of an hour or the bike he wanted if he got bet- ter marks in spelling and arith- metic. For a few days, he really did well. Then he forgot all about it and relapsed. What more can I do?"

What this well-intentioned par- ent seemed to forget is that the very nature of children does not allow them to live in the future. They live in the present moment, the present day. They cannot give up a present pleasure for a fu- ture reward. They must get the reward, if any, at the moment. A that watch. I managed to do bet- promise of a reward a month ter than 90, so I handed my fa-

ther the report with high expec- tancy and pride."

"Bully for you," he said and signed the card.

"How about the watch, fa- ther?" I asked.

"The watch? What watch?"

"You promised me a watch if I got 90 and I got it."

"Oh, did I? I guess I did, at that. I'll have to see about it."

"He never did see about it, but my mother did and I learned about father from that. Believe me, if I make a promise to my boys I keep it, and I'm mighty careful about making them."

And that's a good idea for ev- eryone to follow.

Tell Troth of Patricia Nysse, Edward Tesch

The engagement of Miss Pa- tricia A. Nysse to Edward A. Tesch has been announced by her parents, Mr. and Mrs. Wallace A. Nysse, route 1, Fremont. Mr. Tesch is the son of Mr. and Mrs. Edwin C. Tesch, 1847 Oregon St., Oshkosh.

Miss Nysse, a graduate of New London High School, is employed at Aid Association for Lutherans. Her fiance is an Oshkosh High

A Fancy Coffee Cake, filled with all kinds of delectable goodies, is the perfect way to entertain guests at a special party brunch.

Feature Fancy Coffee Cake at Party Brunch

BY EDITH M. BARBER

The sixth of January is cele- brated in many lands as Three Kings' Day, so called in honor of the Three Wise Men in the East who fol- lowed the star that led them to Bethlehem m. It was once the custom to cele- brate Christmas for 12 days.

Througho u t the holidays, so many parties are staged by hos- pitable friends that we are usual- ly ready to settle for plainer food. If we invite guests, it may be for a simple late breakfast with a special feature — perhaps our favorite sweet bread or rolls. The latter are much easier to

serve while hot since they separate easily and do not get soggy when pulled apart.

If guests have been asked for high noon, the yeast dough can have its two risings and will be ready to come out of the oven at just the right time. It may be mixed the night before, placed in the refrigerator and finished in the morning. There is nothing that our friends appreciate more than some form of homem a d e bread.

Barber

Party Coffee Cake
1 package dry or 1 cake com- pressed yeast
¼ cup lukewarm water
½ cup scalded milk
½ cup butter or margarine
¼ cup sugar
1 teaspoon salt
1 egg, beaten
2 to 2½ cups sifted all-purpose flour
1 cup rolled oats (quick or old- fashioned, uncooked)
Melted butter
Sugar-Cinnamon Filling
Confectioner's Sugar Frosting
Soften yeast in lukewarm water — using warm water for dry yeast. Pour milk over ½ cup but- ter or margarine, sugar and salt, and cool to lukewarm. Add egg, one cup flour, oats and yeast. Stir in more flour — enough to make a soft dough.

Turn out on lightly floured board or canvas and knead un- til satiny, about 10 minutes. Round dough into ball and place in greased bowl. Brush lightly with melted shortening and cover.

Let rise in warm place until double in size, about one hour. Punch dough down and turn out on lightly floured board or can- vas. Cover and let stand 10 minutes. Roll out to form rectan- gle. Brush with melted butter.

Sprinkle with Sugar - Cinnamon Filling, and roll tightly to form 24-inch rope. Slice in one-inch pieces. Place round pieces of dough on greased cookie sheet in two circles (one circle) inside another and over-lapping). Cover and let rise until nearly double in size, about 45 minutes. Bake in over 350 degrees 25 to 30 minutes. Cool and frost with Con- fectoners' Sugar Frosting. De- corate with raisins.

Sugar-Cinnamon Filling
¼ cup sugar
1½ teaspoons ground cinnamon
Mix together sugar and cinna- mon.

June Wedding Planned by Engaged Pair

Planning a June wedding are Miss Doris Sutheimer and Ken- neth J. Wolff. Parents of the cou-

Zenetski Photo

Doris Sutheimer

ple are Mr. and Mrs. Carl Suthei- mer, 541 E. Calumet St., and Mrs. Alice Wolff, 1021 N. Union St.

Miss Sutheimer is a graduate of St. Mary Catholic High School, Menasha, and is employed at In- tegrity Mutual Insurance Co. Her fiance was graduated from Apple- ton High School and is working at Landwehr, Inc., Mackville.

Patricia A. Nysse

School graduate and is a senior in electrical engineering at the University of Wisconsin.

No wedding date has been set.

Parents Tell Engagement Of Daughter

The engagement of Miss Judith Ann Fischer to Kenneth Manthei, route 1, Cecil, has been announ- ced by Mr. and Mrs. Carl Fischer, route 1, Cecil.

The young people are graduates of Bonduel High School. Miss Fischer is employed at Aid Asso- ciation for Lutherans and her fi- nance is engaged in farming.

No wedding date has been set.

Kaukauna BPW Plan Dinner

Kaukauna Business and Profes- sional Women will hear a report by the public affairs committee at a 7 p.m. dinner meeting Monday at Hammen's Restaurant, Little Chute.

Mrs. Willis Ranquette, chair- man, will be assisted by Miss Mary Gerhartz, Miss Marie Wod- jenski and Miss Betty Glaff.

Aid to Meet

HORTONVILLE — The Bethle- hem Lutheran Ladies Aid met to- day with Mrs. Wallace and Or- ville Hanson. Mrs. Harris Hawk, Mrs. Margaret and Luther Hueb- ner and Mrs. Roger Kiecker as hostesses.

Pair Weds In Double Ring Rite

Miss Barbara Winifred Lutze- witz, daughter of Mr. and Mrs. Martin Lutzewitz, Marion, became the bride of Frederick William Polk, son of Mr. and Mrs. Wil- liam Polk, route 2, Tigerton, at 7:30 p.m. Saturday.

The Rev. Marvin Baker offi- ciated at the double ring candle- light ceremony at First Methodist Church, Clintonville.

Miss Pamela Wulk, Jackson- ville, N.C., was her cousin's hon- or attendant. Bridesmaids were Mrs. Kenneth Wolff, Appleton, sis- ter of the bridegroom, and Miss Sharron Frailing, Marion. Merri Jo Brandenburg, Appleton, cousin of the bride, was flower girl.

Best man was Thomas Hower, Milwaukee, cousin of the bride- groom, and groomsmen were Kenneth Wolff, Appleton, and Da- vid Brandenburg, Marion, cousin of the bride. Donald Brandenburg, cousin of the bride, and William Reetz, Stevens Point, cousin of the bridegroom, shared ushering du- ties.

Veterans Memorial Building was

Siebert Photo

Mrs. Frederick Polk

the setting for the buffet supper, reception and dance, after which the couple left for southern Wis- consin. They will reside on Sher- man Street in Marion.

The newlyweds are graduates of Marion High School. Mrs. Polk is employed at FWD Corp., Clin- tonville, and her husband works for Feishek Surveying and Map- ping Co., Clintonville.

Program Topic Given for Aid

ROYALTON—The topic, "The Wise Men," will be presented by Mrs. Arthur Fletcher when the Ladies Aid Society meets at the Congregational Church Jan. 11.

Mrs. Francis Dean will lead the devotions.

Officers will be installed dur- ing the business session.

Woman Entertains Order of Foresters

BEAR CREEK — Mrs. George Dery entertained members of the Catholic Order of Foresters with four tables of cards.

Winners were Mrs. Arthur Smith, Mrs. Joseph McClone and Mrs. Edward Hurley. A potluck lunch was served.

TOLE
WHAT IT IS ... AND ... WHAT IT IS NOT

Designed by Herman Kashins
Executed by Maison Tole

TOLE is an art on metal. The im- portant factor which makes decorated metal a **TOLE** product is that the decoration (the design motif) must be hand painted, not mechanically ap- plied, on a colored background.

TOLE is a late 18th Century deco- rative art form. Metal must be its basic foundation. The French used tin, Eng- land used iron, and Holland used pew- ter. **TOLE** is brushed or sprayed with plain lacquer color, then it is decorat- ed by hand with many designs. This is its claim to a work of art. Originally designed for provincial living, its form and shape must be simple and un- adorned — no gingerbread.

TOLE art is simplicity of metal craftsmanship, warmth of color background, and free hand designs in gilt, such as laurel wreaths, tear drops, and acanthus leaves.

The Ailing House Can Paint Linoleum, Ceiling

BY ROGER C. WHITMAN

Q: We have purchased an old home. The kitchen walls and ceiling are covered with linoleum. Can this be painted? If so, what is the exact procedure?

A: Yes, this can be painted. If the linoleum has a glossy surface the gloss must be dulled. Rub the walls and ceiling with fine steel wool and turpentine. Rub the walls and ceiling with fine steel wool and turpentine (which should also remove all trace of grease, wax, etc.). Then apply a top quality enamel undercoater and a finish coat of enamel, either gloss or semi-gloss.

Q: For five years we have not had a water softener in our home, but are now contemplating getting one. Without a water softener, have the water pipes filled up with lime to such an extent that repiping is now necessary? So far, we do not seem to have any trouble with the water. I've heard that after the softener is installed, the softener will soften and wash away any lime within the pipes. Is that true?

A: If all is functioning properly, no reason why you should be worried about repiping being necessary. You are in excellent luck! It is not necessarily true about the softener softening scale and lime inside the pipe. But since your water pressure is still okay, whether it will or it won't makes no difference.

House Dampness

Q: How can I overcome damp-

ness in the house during the spring and summer months when the heating system is off? The house has no cellar or concrete floor under it; the ground is of a sandy nature, but there never is any pool of water. Is there any other way to overcome this condition except to put a concrete floor under the house?

A: The present crawl space should be provided with ample ventilation and air circulation. It doesn't have it, with louver or vent openings in each side giving a total opening area of at least one square inch for each 100 square feet of ground area. To prevent the rise of ground moisture, cover the earth with overlapping sheets (at least six inch overlap) of polyethylene plastic or heavy moisture and vapor-proof building paper, sealing the seams with roofing cement.

Is your attic area also properly ventilated, with plenty of air circulation, and with an insulated floor having a moistureproof barrier? Frequently house dampness is due to moisture from cooking vapors, laundry done and dried indoors, hot baths or showers, structural house leaks building up moisture in the wall spaces. These should be checked and corrected. I suggest sending 25 cents to the National Mineral Wool Association, 1270 Sixth Ave., New York 20, for a copy of their excellent booklet "Control of Moisture in Homes," giving specific remedies for the problem.

Joe Kennedy's Blonde Caddy To Teach Art

NEW YORK (AP) — Francoise Autiero, the attractive blonde who caddied for Joseph P. Kennedy, the President's father, wants to

teach American girls how to caddy. Francoise, 23, arrived here Wednesday with her husband, Lucien, a fish market operator. She plans to spend a week in New York and then go to Florida, where she will teach girl caddy ball.

candidates at the new Doral Country Club in Miami. Wearing a chic green dress reaching to just above the knees, Francoise told newsmen that all girl caddies have to remember is "be amiable and to give advice, and, of course, not lose the think your daughter would like from buttons to a bun warmer!

Today's Etiquette BY LOUISE DAVIS

THOUGHTFUL MOTHER

Several friends have already asked to give parties and showers for my daughter who will be married next summer. Should we graciously decline some of these offers with the thought that some friends will be imposed upon? Or should we accept the offers and try to see that people will not be invited to more than one or two parties?

Louise Davis Answers:

The desire to entertain for your daughter is obviously real and is based on friendship. If there seem to be too many offers to give showers, I suggest that you or your daughter be frank by asking some of the party givers to pass up the shower angle rather than obligate so many people. You are very thoughtful and considerate wanting to spare friends from so many gift obligations and with that in mind, I am sure you will be able to control it. Inviting the same people to a number of showers can be awkward and embarrassing. I am sure you will lean over backwards to avoid having the hands out for hand-outs!

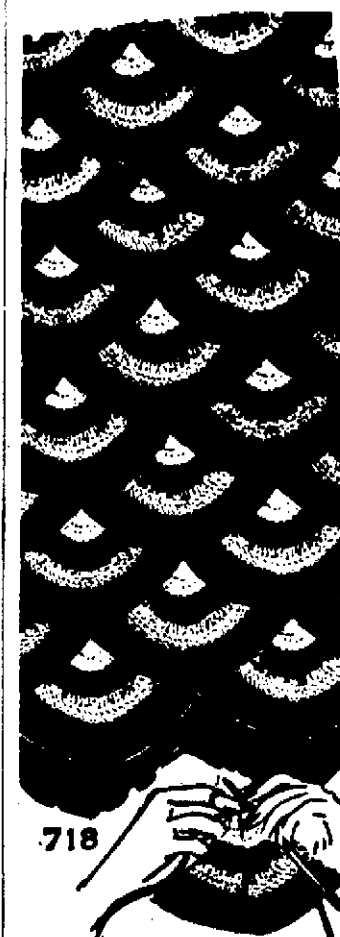

MOTHER CONFUSED

What must the bride's mother give at a miscellaneous shower? Someone told me that it should be a negligee. Another said it has to be a bed spread. I am confused.

Louise Davis Answers:

You may give anything you like. The sky is the limit as to your selection. Miscellaneous means from buttons to a bun warmer!

Health Officials Plan Home Survey Of Welfare Cases

Program First Step in Setting Minimum Standards

The Appleton Health Department will try to determine if there are any homes in Appleton that endanger the health of the people who live in them.

The department wants to look at sinks, bathrooms, yards and the number of people living in homes to determine "minimum housing needs."

Dr. Marvin S. Kagen, health commissioner, told the board of health Wednesday that he will meet with the city Director of Public Assistance Merton Ehrlicke and county Director of Public Welfare Alfred R. Eggert Monday and discuss a health survey of the homes occupied by people under welfare programs.

He wants to enlist Ehrlicke's and Eggert's cooperation in having Appleton sanitarians visit and inspect these homes.

This research might lead to a broader, city-wide survey, Dr. Kagen said.

First Action

The health department has been thinking about developing "minimum housing needs" for some time. The meeting Monday will be the first concrete action toward that goal.

"We feel that every city ages," he said. "Homes in old residential districts near the heart of the city are made into apartments and low economic groups move in. Higher economic groups move to the suburbs. There should be some standards."

The commissioner also cited the need for some kind of licensing for vending machines which serve food.

Health Exams

He told the board that a health department worker, in recent visits to all professional and coin-operated dry-cleaning establishments in the city, found all to be relatively safe and adequate. Fumes in such establishments can be dangerous, he said.

City employees should be given pre-employment health examinations, the doctor said. A board member said the newly-formed personnel committee would consider health examinations and asked that the doctor submit his recommendations to the committee.

In a general year-end report to the board, Dr. Kagen suggested that the city consider an oral polio vaccine.

He described an increase in venereal disease among the young people of the city. "There is actually a very small amount of venereal disease in the city," he said. "But there is more than last year."

"We have high hopes on mental problems," the doctor continued. He mentioned an increase in the number of psychiatrists in Appleton, the Outagamie County Guidance Clinic and an increase in facilities for mental patients at St. Elizabeth Hospital as improvements in this area.

Minor Change In Snow Law Gets Approval

Entire Ordinance Scrutinized in Discussions

A minor change in the emergency snow removal ordinance focused the prying eyes of the city council over the entire ordinance Wednesday night.

However, the council, not wishing to be caught in another snow storm without a protective ordinance, approved the provision for bidding private property owners to dump snow on city streets.

Disagreement on the provision came from Ald. Homer Malmstrom, Second Ward, who suggested some plan to allow filling station operators to put the snow in the street.

Ald. Gerald Wagner, Eighteenth Ward pointed out that filling station operators could hire private contractors to haul the snow away and keep the streets clear.

Ald. Al Stoebauer, Fourth Ward, wondered if the new provision would prevent landowners who have narrow pathways from throwing snow on the streets. Council contention was that it would not prevent this, because the snow wasn't coming from private property.

Cars Moved

There was a provision in the old ordinance that motorists must move their cars off the streets when snow comes. "What if you get stuck?" Ald. Edward V. Krueger, 11th Ward asked. Director of Public Works Edwin Duszynski said that people know, by means of radio, television and newspapers when a snow is coming and should move their cars before they get stuck.

Other aldermen suggested that a number of new streets be added to the list of emergency thoroughfares, which are plowed first after a storm. Duszynski also wanted to add some streets to the list.

Malmstrom wanted to know who would declare a public emergency after a snowstorm if the mayor were absent. The ordinance is vague, stating that either the president of the council or the chairman of the street and sanitation committee will decide. Malmstrom said.

The welfare and ordinance committee will review the entire ordinance in the future. Ald. Mrs. Dorothy Stillings, Seventh Ward, indicated. She asked that aldermen submit their suggested amendments to the committee.

Handbook on Fallout Available

Menasha and Kimberly Post Offices have available copies of the new handbook on fallout protection being distributed by the Defense Department.

Other offices in the Fox Cities area expect to receive the free pamphlets by the end of the week. They may be picked up at any time at the offices.

Chris Schink, seated left, is the new president of the Outagamie County Deputy Sheriff's Association. He is receiving the gavel from retiring president, Robert Krenke, right. Seated between them is Secretary Clement Palmbach. Standing, left to right, are Les Gebheim, a director; Donald Weisgerber, Sergeant-at-arms; and Ray Hawley, vice president. All are from Appleton except Krenke, who lives in Dale.

Psychologist Added to Staff At Winnebago

Dr. Marshall Rosenberg, formerly associated with the Mendota State Hospital and in research at the University of Wisconsin, has been appointed as a staff psychologist to the psychology staff at Winnebago State Hospital.

The graduate of the University of Wisconsin, a member of the American Psychological Association and the Wisconsin Psychological Association, is currently involved in a research which is investigating the question of psychotherapy with the schizophrenic patient.

Property Taxes Total \$158,803

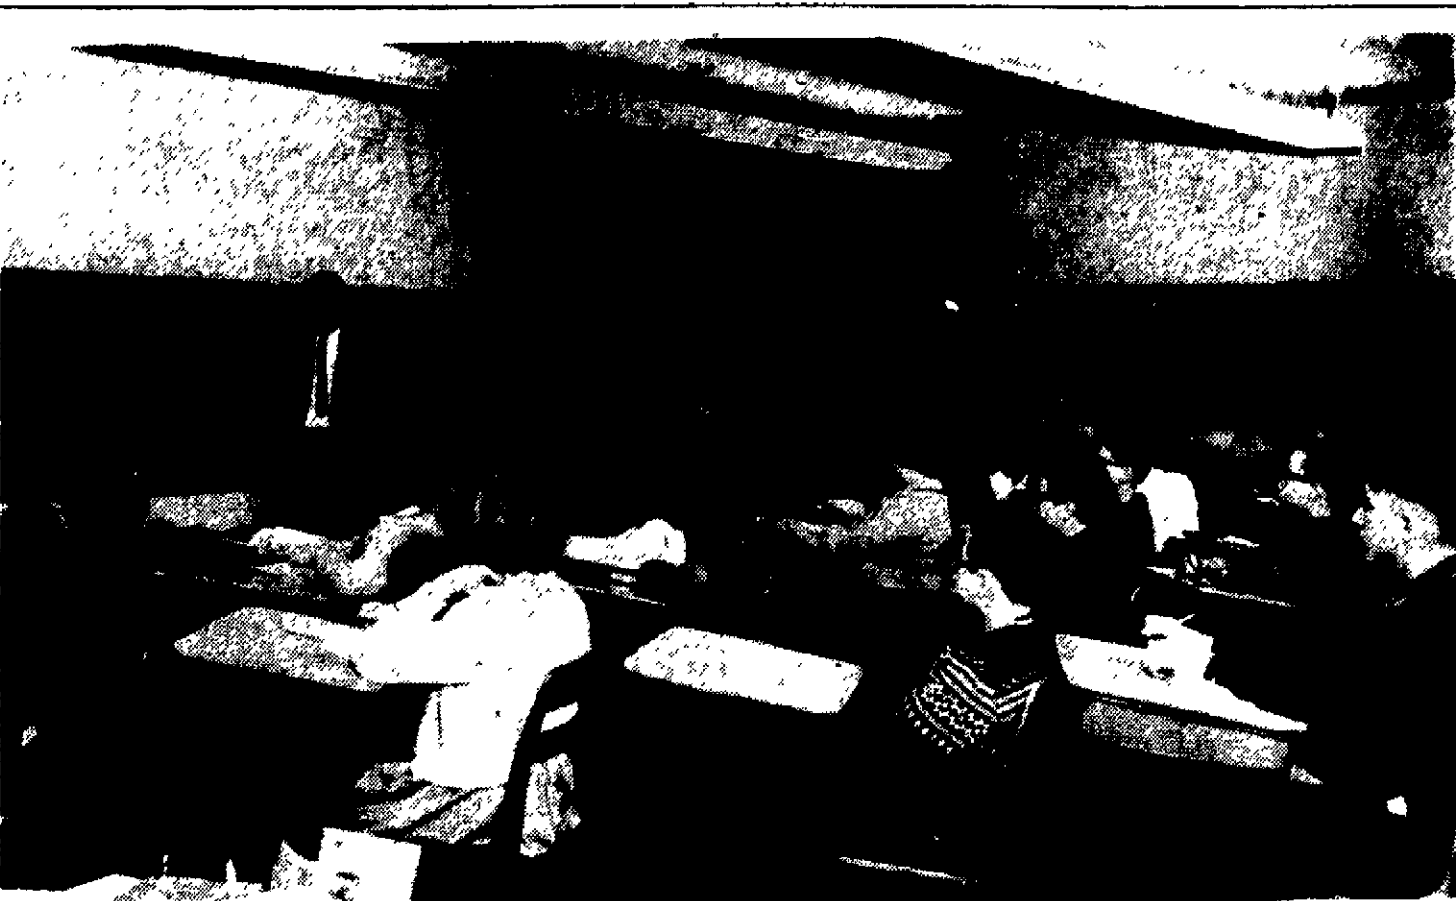

MENASHA — Collections of 1961 property taxes up to Tuesday and including payments mailed in last year totaled \$158,803. City Treasurer W. W. Edwards noted today.

Last year, the comparable figure was \$123,787.

The 1961 tax levy for city property is \$1,582,746. Last year's was \$1,580,354.

The collection rate was slightly more than 10 per cent of the total taxes due this year, compared to about 7 per cent last year.

\$1.2 Million Program For Ramps In '62 Handed Appleton Council

These Children Moved from Jefferson School Tuesday to resume classes after the holiday period in the new addition to Foster School, 305 W. Foster St. William Geenen, route 2, West DePere, is teacher for the class. About 100 students moved into the new addition.

No Action on Snow Removal

Request for Parking Lot Work Sent For Committee Study

There was no decision by the Appleton council last night on a suggestion that the city consider removal of snow from city parking lots by private contractors.

A resolution by Ald. Alvin Tews containing the suggestion was referred by a 17-2 vote to a joint meeting of the public safety committee and the street and sanitation committee. The meeting date was not set.

At their last meeting, the public safety committee recommended that Director of Public Works Edwin Duszynski decide whether private contractors should be used and the street and sanitation body recommended the joint meeting.

Ald. R. P. Groh said "If you want the city to plow the parking lot, we will do that. We will from the parking meter department. But we will plow the streets before we plow the lots."

The resolution by Ald. Alvin Tews, submitted after the heavy members from Sunday through snow in December, called the condition of the lots "deplorable."

Coach Orders Choice Dates or Basketball Left to Players

NEW LONDON — New London's basketball players were told Wednesday to make a choice between dating and basketball.

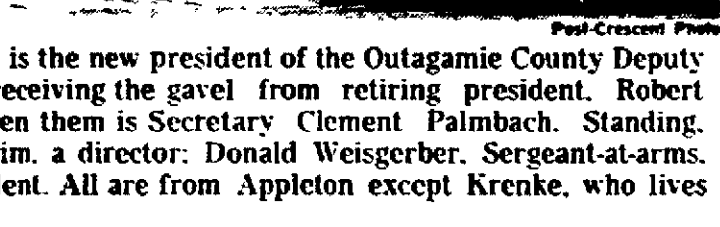

Head Basketball Coach Gar Ammerman warned his cagers to show more interest in the game or turn in their uniforms. The tongue-lashing followed the Bulldogs' 85-47 non-conference loss to Oshkosh, which gave the school a record of five losses against two wins.

Two of Ammerman's varsity sat out the Oshkosh game because "they failed to make all practice sessions during the holidays" and missed a scrimmage game with Amherst High School Saturday.

Ammerman further warned his players that only a rumor of his players using beer or other intoxicating beverages would be sufficient grounds to drop the players from the squad. Ammerman said he would not take time to investigate the rumor.

Curfew Set

The resolution by Ald. Alvin Tews, submitted after the heavy members from Sunday through snow in December, called the condition of the lots "deplorable."

Today's Africa To be Discussed By Missionary

The Rev. R. E. Cook, missionary to Gabon, French West Africa, will speak on "Today's Africa" at the Christian and Missionary Alliance Church at 7:45 p.m. Friday.

The Rev. Mr. Cook will use colored slides to illustrate conditions and customs in Africa. His speech will include an insight into the political situation as well as information on the missionary.

The missionary, home on a year's furlough, currently is on a lecture tour.

Parking Meter Group To Discuss Changes

WAUPACA—The parking meter commission will meet Jan. 15 with the city police and fire commission to discuss recommended changes in the placement of parking meters in the business district.

More Capital Asked by Firm

Outagamie County Bank Seeks Okay of \$100,000 Increase

Stockholders of the Outagamie County Bank will vote Tuesday to approve or disapprove a proposed \$100,000 increase in the bank's capital.

If the proposal is approved the capital investment of the bank will be raised to \$400,000. Between 25 and 35 of the 137 stockholders are expected at the annual meeting. Stockholders also will vote to re-elect seven directors and appoint two new directors this year.

Two other banks in Appleton plan annual meetings Tuesday. Appleton State Bank and the First National Bank stockholders will be issued operating statements for 1961 and be asked to elect directors.

Eight directors will be chosen for the Appleton State Bank, and 14 will be selected at the First National.

Duties of Personnel Group Told

A committee - of - the - whole Wednesday night definitely outlined the functions of the personnel committee it created in November.

The committee will have jurisdiction over everything dealing with city employees, except hiring and firing them. Included in its duties are administering the pay plan, union negotiations, and settling policies concerning car allowances, working conditions and fringe benefits.

Will Be Heard

All department heads and committee chairman who have control over the employee involved in a personnel committee action will have a chance to be heard before the personnel committee before any action is taken.

The committee will study the matters and make recommendations to the council.

Auto Blaze in Garage Sets Off Investigation

Firemen Wednesday night smothered a blaze which started in a private garage at 814 W. Parkway Blvd., where two youths were rebuilding an automobile.

Fire Chief Alfred Arnold said the blaze could have touched off a gigantic explosion because inside the garage was an acetylene tank and a 30-gallon fuel oil drum linked to a stove by a rubber hose.

The youths, Robert Schultz Jr., 14, and Terry Besaw, 20, 920 W. Brewster St., were working on the car in the garage at Schultz' home. Chief Arnold said the car belonged to Besaw. He said gasoline leaked onto the floor but firemen were unable to learn how it ignited. The car's engine and a diseases—birth defects, arthritis and polio.

Lombardi will work with sports editors and high school football coaches to promote athletic building and heating inspectors' events for the New March of Dimes.

First Phase of Plan to Cost \$1,017,000; President Says AAL Lot Not for Sale

A two-phase parking plan for Appleton, including a million dollars for immediate construction of ramps, was presented to the council Wednesday by J. M. Keneipp of Barton-Aschman and Associates, Evanston, Ill.

The firm is recommending a 405-car, \$630,000 sloping floor ramp on a portion of the two city lots bounded by Franklin, Morrison and Washington streets, and a deck over the lot at the southwest corner of Division and Washington streets for 100 cars, costing \$300,000.

Gets 30-Day Term in Jail For Contempt

Ronald Fulcer, 22, 1625 W. College Ave., was sentenced to 30 days in jail today for contempt of court.

Fulcer, appearing before Municipal Judge Gustave Keller in a show-cause action involving non-support, was ordered to come back in one week with \$100 for support of his wife and child. "If you don't have the \$100 with you," Judge Keller said, "you'd better bring a suitcase because you'll be going to jail."

Fulcer told the court he might as well stay because "I won't have the money." Judge Keller immediately ordered the 30-day sentence. Fulcer will be able to work out of jail under the Huber Law.

On Sept. 7, Fulcer was ordered to pay \$20 per week to his wife, Barbara, for alimony and \$20 per week for support of a minor child.

No Third Term, Attorney General Tells Newsmen

WAUSAU (AP)—Attorney General John W. Reynolds took time out today from a round of political conferences to tell newsmen he had decided definitely against seeking a third term.

Reynolds reiterated a previous statement that he is seriously considering running for governor or U. S. Senator but would not be a candidate against a fellow Democrat, Gov. Gaylord Nelson. The chief executive, known to be thinking about a senatorial bid, has postponed a decision on his political future until after the Legislature adjourns.

The attorney general's schedule today called for speeches before the Marathon County Young Democrats and a conference of Democratic leaders in the 7th Congressional District.

Lombardi Named To 'Dimes' Post

Vince Lombardi, head coach of the Green Bay Packers, has been appointed sports chairman for the Chairman Karl Baldwin, Appleton announced today.

The appointment stresses the importance of sports participation in the March of Dimes attack on the three major crippling diseases—birth defects, arthritis and polio.

Lombardi will work with sports editors and high school football coaches to promote athletic building and heating inspectors' events for the New March of Dimes.

Auto Blaze in Garage Sets Off Investigation

Firemen Wednesday night smothered a blaze which started in a private garage at 814 W. Parkway Blvd., where two youths were rebuilding an automobile.

Fire Chief Alfred Arnold said the blaze could have touched off a gigantic explosion because inside the garage was an acetylene tank and a 30-gallon fuel oil drum linked to a stove by a rubber hose.

The youths, Robert Schultz Jr., 14, and Terry Besaw, 20, 920 W. Brewster St., were working on the car in the garage at Schultz' home. Chief Arnold said the car belonged to Besaw. He said gasoline leaked onto the floor but firemen were unable to learn how it ignited. The car's engine and a diseases—birth defects, arthritis and polio.

Lombardi will work with sports editors and high school football coaches to promote athletic building and heating inspectors' events for the New March of Dimes.

Incoming Officers of the Wisconsin Association of Nursing Homes, Inc., were installed at the quarterly meeting of the organization here Wednesday. Among those installed were Govert Zercouteren, first vice president, Sheboygan; Grant Hurley, third vice president, Union Grove; the Rev. C. A. Becker, president, Racine; and Mrs. Mary Bernikowicz, R. N., secretary, Kenosha.

GOP Stars Face Local Elections

Nelson, Nixon Must Score Impressively for Backing

BY WILLIAM S. WHITE

WASHINGTON—It must be said now of the GOP that never has a major party had all its big presidential eggs in one basket so vulnerable to easy upset by purely local circumstances.

White

The whole future of the Republican Party in the 1964 presidential election may well be predetermined two full years ahead of time, in gubernatorial contests in which only two of the 50 states will have any voice.

Both the outstanding GOP presidential prospects for 1964—Nelson Rockefeller of New York and Richard Nixon of California—could be destroyed by this peculiar set of circumstances long before the 1964 Republican National Convention is called to order.

Governor Rockefeller is already running hard and publicly—and early—for re-election in New York. He has been forced to rush out in this unseasonable fashion by the complications surrounding the personal tragedy of his impending divorce. Many, including this correspondent, think any man's personal life is his personal business; but many more don't.

Nixon is stoically going to bat for governor of California, not really only out of personal choice but also out of another kind of harsh political necessity. His narrow defeat for the presidency by Mr. Kennedy in 1960 left him no alternative. If he expected to remain really important in his party, he simply had to put his vote appeal again to the test in his home state.

Makes Admission

Rockefeller has in effect admitted—in what by political standard is total candor—that he is looking beyond the statehouse in '62 to the White House in '64.

Nixon, to the contrary, has been pushed and prodded to say that he is "not a candidate" for the presidency. It goes without saying, however, that if he should win impressively in California, his friends would not be slow to open a presidential "draft" for him.

Rockefeller, for his part, has surely no easy road, either. Most of the regular Republicans have never really wanted him for the

top nomination, anyhow. The coming divorce will certainly be seized upon by them as added argument why he should not have it. Even to stay alive nationally for '64, he must do better than merely well in the New York race in '62.

So must Nixon, in California. A mere thin victory there over the incumbent Democratic governor, Edmund (Pat) Brown, who is a long way from a Roosevelt, an Eisenhower or a Kennedy politically, would hardly set the Republican pros to mad, glad cheering.

Goldwater No Threat

Thus, it comes to this: Both Rockefeller and Nixon could very easily lose in practical fact and for the future, even if not necessarily losing their 1962 elections. And so could the whole GOP. For if both were knocked out of the GOP basket for '64, its sole remaining occupant, on present form, would be Senator Barry Goldwater. Few practical politicians believe, as of today anyway, that Goldwater could even begin to defeat Kennedy. This columnist doubts that Goldwater himself believes it, as of now anyway.

So 1962 is going to be a singular, go-for-broke year for both Nixon and Rockefeller, and also for the GOP nationally. True, there are elements of opportunity as well as danger. A big gubernatorial victory for either, accompanied by a loss or near-loss for the other, would tidy up things no end for the winner.

But the situation is one where danger bulks much larger than opportunity. For both the only really applicable message at this season is not so much "Happy New Year," as it is "tough, urgent new year."

(Copyright, 1962)

Inquest Planned in Keith Thompson Death

OSHKOSH — Sheriff Richard T. Lowell says a ninqquest will be held into the traffic death Dec. 27 of Keith Thompson, 18, 637 Elm St., Neenah, but that the date cannot be set until the driver of the car, Dean Tersinski, 30, 930B N. Main St., Oshkosh, is able to testify.

Their two cars collided almost head-on on U.S. 45 near County Trunk Y in the Town of Oshkosh. Tersinski was injured in the accident.

Mayor Bell To Run for Re-Election

NEENAH — Mayor Chester S. Bell announced today that he will seek re-election.

In a formal statement Mayor Bell, who has been the city's full-time chief executive since 1958, declared:

"Until recently it had been my intention not to seek re-election as mayor.

"However, my associates in the council and other friends have been urging me to reconsider my decision. They point out that there are many problems facing the city in the next two years with which I already have some familiarity—reassessment, necessary improvements to our sewer system, the addition to the sewage disposal plant, school consolidation, improvements to our parking facilities and other matters.

"After careful consideration, I sincerely believe that during the past four years I have acquired some acquaintance with city affairs which can be useful over the next two years. Accordingly, I have decided to offer myself again as a candidate for mayor and am today taking out nominating papers."

Bell

Action on Petitions

Spring Road, Clayton School Hearings Scheduled for Jan. 17

MENASHA — Spring Road and Clayton School District consolidation with Neenah has been set for a hearing Wednesday, Jan. 17, at the Spring Road School by the county school committee.

The hearings will be on petitions from residents of those districts to dissolve each district as of June 30 and to attach it to the Neenah school system.

The Clayton District hearing has been set for 8 p.m. and the Spring Road District hearing for 8:30 p.m. that evening.

After each hearing the county school committee meets with the boards of the various districts involved before taking action on the petitions for dissolution.

Spring Road School District voters at a special meeting Dec. 11 voted 107 to 54 in favor of a resolution to establish their own high school district and have sent this resolution to the state superintendent.

Residents of the Clayton School District also have filed to have that district dissolved and the entire district attached to the Neenah school system.

Mrs. Maxine Ott, county superintendent of schools, said she contacted Rothwell today to see if there was any conflict which would make the hearing by the county school committee on the Kenneth J. Biskner, 45, 112½ W. Wisconsin Ave., is charged with issuing and cashing two checks for \$110 and one or \$130 gal because this action was taken under the law on reorganization of school districts while the County Judge Arnold J. Cane action taken Dec. 11 was under a continued bond at \$1,000 for trial different law pertaining to creating a high school district.

Raising a Sturdy Stalk of Indian corn from seed was the project this winter of Mrs. Donald Cleveland, a Neenah employee. Mrs. Cleveland examines the tiny ear growing from the maturing stalk.

July in January

Corn-on-Cob Raised by Neenah Office Clerk

BY JAMES AUER
Post-Crescent Staff Writer

NEENAH — The only ear of freshly home-grown corn in the Fox Cities will be on the dinner table of the Donald Cleveland family, 517 Franklin Ave., one of these days—if Mother Nature cooperates.

Mrs. Cleveland, who is employed as secretary of the Neenah Health Department, has spent much of her spare time during the past six weeks, nurturing a sturdy stalk of Indian corn in her office at city hall.

"Everything grows in the health department," says Mrs. Cleveland, proudly.

The fledgling corn plant is now a yard high, and a tiny, straw-colored tassel has appeared above a miniature ear on the stalk. In the normal course of events, knee-high by the Fourth of July is considered a criterion for a good corn crop.

"We'd planned to have corn-on-the-cob on New Year's Day," she explains. "But it wasn't quite ripe enough for harvesting. Now we've decided to wait a few more weeks."

Originally, the seed for the out-of-season maize was planted by Mrs. Roger Simpson, secretary of the Public Works Department. Mrs. Simpson had taken the kernel from a colorful ear of Indian corn displayed on her counter during the Thanksgiving season.

Grows and Grows

When the robust little stalk outgrew the tiny pot in which she had placed it, Mrs. Simpson handed over care and custody of the corn to her co-worker, Mrs. Cleveland.

The plant's new custodian immediately transferred it to a larger pot, then surrounded the roots with specially-compounded soil. The original stalk has since been joined by two others, which Mrs. Cleveland hopes will eventually produce little ears of their own.

Whether or not Mother Nature will do her part, and whether or not the Cleverlands will have the heart to remove the valiant little ear from the stalk, only time will tell.

Oshkosh Council Cuts Work Week With Pay Staying at Old Level

OSHKOSH — Hourly wage employees of the city sanitation department were put on a 40-hour work week and granted overtime pay for work over 40-hours a week by the Common Council Wednesday.

Both moves were effective Jan. 1. Prior to the first of the year sanitation department workers were on a 42-hour week with time-and-a-half pay coming after 42 hours.

In the only other action, the council approved rezoning four lots on the southwest corner of National Avenue and S Sawyer Street from single family residential to commercial.

Two doctors, John A. Leschke and S. J. Grajewski, said they plan on constructing a medical offices building on the site.

Man Admits Threat To Strike Mother

OSHKOSH — A rural Neenah man, whose mother was hospitalized from shock after he threatened to hit her, was ordered held without bond in the Winnebago County jail to await sentencing Jan. 12 on a disorderly conduct charge.

William J. Lehl, 21, route 2, Neenah, admitted the charge. Dist. Atty. Jack Steinhilber also told the court Lehl cashed two worthless checks of \$20 each Dec. 9 and 10.

According to the police report, Lehl and his mother were arguing over money matters Wednesday. When she refused to sign a bank note for him he threatened to hit her.

Group Readies Slough Case

Neenah Committee To Give Presentation At River Hearing

NEENAH — A four-member sub-committee to prepare the city's presentation at a forthcoming public hearing, to be held by the United States Army Corps of Engineers, was named Wednesday night by Mayor Chester S. Bell.

Nominated to present the case for obtaining federal assistance in the slough improvement project were Ald. James Dinius, chairman, Ald. Carl Coenen, Ald. Wilmont Houpt and Ald. Harold Young.

The hearing will be held at 10 a.m., Feb. 6, at Roosevelt Junior High School, Appleton. Improvement of the Fox and Wolf waterways is the topic of the all-day hearing.

Mayor Bell recommended that the sub-committee refer to Wayne Bryan, director of public works, for technical assistance in preparing for the hearing.

He suggested that the group's presentation be made verbally at the hearing, and that a written statement be presented to the Corps of Engineers after the testimony.

Ald. Peter Fara suggested that the written report be distributed to the aldermen even though it need not be brought to the floor of the council for discussion.

Mayor Bell urged as many aldermen as possible to attend the hearing.

Council Okays Action To Make Changes to Official City Map

NEENAH — The City Council Wednesday night approved two amendments to the official city map.

One amendment established the width of the proposed Henry Street at 60 feet and moved it some 97 feet to the east of the point where it was originally indicated on the map.

The other amendment discontinued a projected street that would have been located between County Trunk S and State Trunk 130.

Youth Arrested After Beer Parties at Home

OSHKOSH — Bond of \$800 was ordered by County Judge Arnold J. Cane this morning for John Danke, 19, Adella Beach, Neenah, who is charged with contributing to the delinquency of five 17-year olds as the result of beer parties held at his home the nights of Dec. 25, 26 and 27.

Arraignment in the case was adjourned until Friday morning to allow Danke's lawyer to appear.

Winnebago County police arrested Danke after investigating an accident in which he shot himself in the toe and had to be taken to Theda Clark Hospital.

Larsen Man Leaves Estate of \$54,467

OSHKOSH — Leonard W. Kelm, route 1, Larsen, who died March 3, 1961, left an estate of \$54,467, according to the inventory filed Wednesday in Winnebago County Probate court.

Real estate is valued at \$12,000, all in property at Elkhorn. Most of the personal property consists of \$19,833 in stock in Elkhorn Motors, Inc., and in life insurance.

Legatees include a half-brother and three half-sisters.

Proponents of a separate high school district declared the area had the valuation and the high school enrollment required under the law as a minimum for operating a high school. They also indicated other school districts might join with them in consolidating into a larger high school district.

Since the meeting petitions have been filed asking that the entire Spring Road School District be dissolved and attached to the Neenah public school system.

Residents of the Clayton School District also have filed to have that district dissolved and the entire district attached to the Neenah school system.

Mrs. Maxine Ott, county superintendent of schools, said she contacted Rothwell today to see if there was any conflict which would make the hearing by the county school committee on the Kenneth J. Biskner, 45, 112½ W. Wisconsin Ave., is charged with issuing and cashing two checks for \$110 and one or \$130 gal because this action was taken under the law on reorganization of school districts while the County Judge Arnold J. Cane action taken Dec. 11 was under a continued bond at \$1,000 for trial different law pertaining to creating a high school district.

Like many families, they are staying in a motel until more adequate housing is found.

Tipsy Driver Forfeits Bond New London Man Will Appeal Charge In Circuit Court

Theodore C. Guyette, 48, 327 E. Wolf River Ave., New London, forfeited bond of \$175 when he failed to appear in Municipal Court today on a charge of drunken driving.

An attorney for Guyette has filed a notice of appeal to Circuit Court.

Guyette was arrested at 8:35 p.m. Dec. 17 at Beacon Avenue and U.S. 45 in New London. He pleaded innocent at his arraignment Dec. 18.

Full Agenda For Legislature As It Resumes

Madison (AP)—Some 163 bills and resolutions held over from last year await the return of Wisconsin's state lawmakers Monday.

Final action on the measures was deferred when the Legislature recessed Dec. 22 after reaching agreement on a tax bill.

Included in the pile of pending business is a controversial measure that would boost salaries of lawmakers from \$300 to \$350 a month and grant them expenses of \$15 a day instead of the flat \$175 a month now received for room and board.

Other proposals include a compromise version of a school bus bill that would extend public transportation to parochial school pupils. The Assembly already has approved the measure and the Senate is expected to follow suit.

A number of controversial bills on reapportionment also are pending. Most have been buried in committee since they were introduced.

New business is expected to include a package proposal designed to smooth some rough edges on the tax revision measure passed before the lawmakers recessed.

Who's on First?

Government Procedure Tangles in Red Tape

Like a collection of kittens playing with a ball of yarn, the Appleton council last night became tangled in the reams of red tape that go with city government.

For about 20 minutes the council looked bewildered. Finally it untangled itself.

All the council wanted to do was put off until later a committee-of-the-whole discussion on a school board decision.

The decision came to the council as part of the report of the board of public works. It said that the school board does not intend to request money for additions to the present Wilson and Roosevelt junior high schools. The report said that this decision should be discussed Jan. 3.

Then Ald. Alvin Tews moved to strike the item from the report. But some council members thought that would remove the school board's action from council consideration forever.

Amends Motion
Ald. Mrs. Dorothy Stillings amended Tews' motion so that only the part that suggested discussion Jan. 3 was stricken. A voice vote was taken. There were all ayes and no nays. Then there was a roll call vote and it was 19 ayes and one absent. The council had adopted something or other.

Then Ald. Homer Malmstrom rose: "What was that roll call vote for?" City Clerk Elden J. Broehm said the council had adopted the whole board of public works report, as amended.

City Atty. Don Jury said the council had approved only the amended motion. Malmstrom moved to reconsider.

"We don't need to reconsider," said Jury. "Let's now vote on the report." Then Tews said, "I thought we were voting on the amendment to my motion."

Embarrassed Smiles
"We were voting on the amendment," said one alderman. "We were voting on the report," said another. There were some embarrassed smiles.

Mrs. Stillings offered to clarify her amendment to Tews' motion to amend the report. She did. There were two more votes and the council decided the matter was settled.

Exactly what was decided? The committee-of-the-whole will discuss the school board decision later, when school board members can be present.

The committee-of-the-whole suggested additions to Roosevelt and Wilson schools two weeks ago as an alternative to a new school in the northeast section of the city that is written into the five-year capital improvements plan. The council, at its last meeting, referred the alternative to the school board and the school advisory committee.

The school board's decision, presented to the board of public works and in turn to the council, showed its disapproval of the alternative additions.

At least, that's what seems to be the conditions.

\$1.2 Million Ramp Plan Given Council

CONTINUED FROM PAGE 1 The meter rate would be two hours for five cents. To encourage use of the lot, a 10-hour limit is suggested.

An alternate to that plan, but a less efficient one, Keneipp noted, would be to ramp the entire two lots, providing 410 spaces for \$660,000. Only five spaces would be added, costing \$30,000. This ramp would be a vertical, expandable type.

The second, one-level ramp would consist of a deck on the lot at the southwest corner of Washington and Division streets. Originally this deck was suggested for construction in three to five years.

Mayor Mitchell had asked consideration of a plan to extend the deck over Division Street and over the lot at the southeast corner of Washington and Division. No such plan was submitted by Barton-Aschman, but the mayor said today that it still could be considered.

Other Suggestions
Three other recommendations are made for immediate action: Metering Lot 9 on S. Walnut Street, with 24, five-cent an hour meters at a cost of \$2,000. (This newest city lot, completed more than six months ago, is scheduled for metering, but it has not been done.)

Metering 30 stalls in the city hall parking lot, which now is not covered by the city's parking lot ordinance. Thirteen stalls would be left free for city hall callers. Cost would be \$3,000.

Change the meter rate on the lot at the southeast corner of Washington and Division streets from five cents an hour to 10 cents an hour.

Recommended for action in two to seven years are three other items:

Enlarge, surface and meter the present free lot near the water tower at the northwest corner of Division and Washington streets, at a cost of \$75,000. There would be 160 spaces and the rate would be five cents for two hours.

(The city had planned to do just what the Barton-Aschman firm recommended, but had been waiting to close a deal with the Chicago North Western Railroad for a strip of land to enlarge the lot.)

Future Needs
Surface and meter the present free lot behind the First Congregational Church. There would be 60 spaces and the rate would be two hours for five cents. Estimated cost is \$24,000.

(The city's plans for this lot have been held up pending a decision on how to revamp the Oneida-Appleton-Prospect streets intersection to eliminate a traffic bottleneck. Several plans have been submitted. None have been adopted.)

Develop space for 150 cars in Jones Park, at a cost of \$60,000.

money from the parking meter revenue fund.

Revenue Bond Issue

Initially a revenue bond issue of about \$900,000 would be needed. It would be retired over 20 years. The remainder of the money needed for the first phase of the program, about \$64,000, would be taken from the meter revenue account now and paid in cash.

The Barton-Aschman firm believes that parking meter revenue will increase about 40 per cent by 1963. This will occur because of the new rates put into effect last summer, the new rates the firm is recommending, and the increase in parking stalls if the first phase of the plan is carried out immediately.

Parking revenue for 1961 was approximately \$141,000. It is believed that if the new rates had been in effect all year the receipts would have been nearer \$164,000.

Barton-Aschman is the consulting firm hired by the W. T. Collins Co., consulting engineers, Milwaukee. Collins was chosen by the city to design the city's ramps, should it decide to build. The parking facility survey and improvements would be paid with city \$13,900.

SAFER BOATING THROUGH EDUCATION

FREE UNITED STATES POWER SQUADRON PILOTING COURSE

Offered by
Appleton Power Squadron
Every Monday Nite — 7:30 to 9:30

REGISTRATION AND FIRST CLASS

Monday, Jan. 8 — 7:30 P.M.
Madison Jr. High School, Carpenter and Calumet Sts., Arts and Crafts Room B172. (Enter from Calumet St., East door.)

- We urge all boat men and other interested people to avail themselves to participate in this course. It will make your boating more fun and result in greater safety for all who spend any time on the water.
- Your instructors will be qualified members of the United States Power Squadron — Appleton Squadron.
- Except for textbook all student material is provided without charge.

COURSE OUTLINE

Equipment & Laws
Safety
Small Boat Handling
Compass
River Boating

Rules of the Road
Seamanship
Aids to Navigation
Charts & Piloting

REVIEW — EXAMINATION (Optional)

- Upon completion of course an examination will be offered and certificate will be awarded.
- This course is available to all adult men and women students having reached the age of sixteen.

U. S. Financing Put Up to Taxpayers

By EDWIN A. LAHEY
Chicago Daily News Service

WASHINGTON — President Kennedy's budget for fiscal year 1963, now ready for congress, will be in balance "if" taxpayers produce enough revenue.

"That 'if' is one of the most significant facts of our time. We are now writing government budgets in the subjunctive mood. There was a time when you drafted a budget by estimating your revenue, and then fitting expenditures to expected income. Now it's the other way around. You decide what you'll spend, and then make it plain to the taxpayers that if they want a balanced budget, they had better produce enough revenue to match expenditures in Washington.

Only the old fashioned squares, or the radical right wing has the temerity to suggest today that the government should curtail its service and cut its payrolls to straight rising line that will bring avoid a budget deficit.

Mr. Kennedy will soon send a billion-a-year government.

Like his predecessor, Mr. Kennedy will doubtless tell congress that his budget will be in balance "if" the taxpayer will just do his part.

The "if" means that business must expand, to increase individual and corporate income taxes. That "temporary" excise taxes must be continued, that postal rates must be hiked, that tax loopholes must be closed, etc., etc.

Because of our cockeyed new habit of writing budget messages in the subjunctive mood, the "Midyear Review" of the budget and the "supplemental appropriation" have become important, a budget message except the firm conviction that the government will need all he can earn as taxes in the coming year.

which comes out about nine months after the original budget message, the government explains how everything went black, and how expenditures are more and revenue less than they estimated earlier.

The taxpayer, who thought he had read about his budget nine months before, is apt to be a little baffled by the bad news in the "Midyear Review."

It would be hard enough to follow the disappearing tax dollar if budget messages in January were really on the square. It's next to impossible for the average citizen to get anything out of a budget message except the firm conviction that the government will need all he can earn as taxes in the coming year.

Terror '5' Invades New Oshkosh Gym

Reservists May Get to Play Part of Season

Deactivation Could Release Baseball Players by June 30

WASHINGTON (AP) — Major league baseball players called to active military service last fall probably won't make spring training, but they could see action before the 1962 season is half over. There has been no definite decision, but it appeared possible today that such players as Tony Kubek of the world champion New York Yankees and Ron Hansen of the Baltimore Orioles, both shortstops, may be cavorting around the infield before July 4. President Kennedy announced Wednesday that two new regular Army divisions will be formed this year. The announcement said the two National Guard divisions and assorted guard and reserve units reactivated in September and October "will be released this year as the international situation and the readiness status of the two new divisions permit."

Under law, the 32nd Division of Wisconsin and the 49th Division of Texas can be held until next Oct. 15. But Defense Department officials have indicated they are shooting for deactivation by June 30. Some smaller units could be released before then.

Weekend Passes
Reactivated professional football players, many of whom managed to finish the 1961 season by obtaining weekend passes, would be demobilized in time for the 1962 season if the June 30 date is achieved.

Among the soldier-players who scurried from camp to gridiron and back this fall and winter were three key members of the National Football League champion Green Bay Packers — Paul Hornung, Boyd Dowler and Ray Nitschke.

Besides Kubek and Hansen, some of the major leaguers called to active duty last fall included Steve Barber and Barry Shetrone of Baltimore, Bob Johnson of Washington, Jim Grant, Wynn Hawkins and Walter Bond of Cleveland, Dick McAlliff of Detroit, George Thomas of the Los Angeles Angels, Reuben Amaro and Jim Coker of Philadelphia, Dick Bertell of the Chicago Cubs and John Orsino of San Francisco. Pentagon officials, in discussing the possible release by June 30, stressed that no special consideration will be shown to professional athletes.

Minneapolis, Bobcats to Meet Again

Rebels to Sport Even Stronger Lineup This Weekend

GREEN BAY — Things could get worse for Green Bay's Bobcats before they get better. Player Coach John Mayasich fears. The Bobcats, runners-up in the U.S. Hockey League, lost their fourth straight USHL decision to the Minneapolis Rebels over the weekend, 5-2. The same Rebels will be their guests Saturday night and Sunday afternoon and, Mayasich has been alarmed to discover, figure to be even stronger than they were in their last meeting.

The Minneapolis sextet will be reinforced by the return of former All-American center Dick Bink, forward Larry Johnson and defenseman Wendy Anderson, all of whom were forced to miss last Saturday's contest because of injuries.

"It kind of scares you to think that players of their caliber will be in the lineup this weekend when they beat you without them," Mayasich said.

Concerned over this prospect, plus the Bobcats' lack of back checking last time out, Mayasich has scheduled extra practice sessions this week designed to whip his team into better shape.

He also has been experimenting with lineup changes, one of which involves his dropping back from center to his old spot at defense. He also has moved Pete Buchmann back up to center on a line with Dick Dougherty and Dick Dier and stationed Gerry Frenette on the first line with Paul Coppo and Pic. Jackie Poole.

Titans Hire Sauer As Assistant Coach

WEST PALM BEACH, Fla. (AP) — Harry Wismer, owner of the New York Titans of the American Football League, said Wednesday George Sauer, former head coach at Kansas, Navy and half, and the outcome of a game. Baylor, would be an assistant to can be affected if the clock is Clyde (Bulldog) Turner, new Titans coach. Sauer will direct the of the players' representatives. The representatives heard a re-

Friday's schedule:
Appleton at Oshkosh
Fond du Lac at Manitowoc

BY JOHN L. PAUSTIAN
Post-Crescent Sports Editor

Most of the questions surrounding Appleton High School's bid to be counted among the Fox River Valley Conference's 1961-2 basketball title contenders will likely be answered Friday night.

AHS' cagers invade the spacious, new Oshkosh High School gym for one of two games on an abbreviated, but vital, FRVC schedule. First-place Fond du Lac moves into defending champion Manitowoc's new emporium for the other contest. (The two other games in the league's fourth round were pre-Yuletide attractions.)

If the Terrors, who have surprised with two wins in three FRVC starts, topple Oshkosh, they'll rate as a team to watch in the championship chase. The task looms large, however, since the title-favored Indians bid fair

BY JIM HARP
Post-Crescent Staff Writer

Hoping to start the new year off right, with its first victory of the season, the Lawrence College basketball team travels to Northfield, Minn., for a pair of games this weekend.

The Vikings will resume Midwest Conference action by meeting Carleton College Friday night, then will go cross town to St. Olaf Saturday afternoon.

Coach Don Boya has had little time to get his team assembled after the holiday layoff, except for several drills and a non-conference game with Stevens Point State College last week.

Drill at Carleton
Boya held a short session with part of his squad Tuesday and staged a full-scale workout Wednesday. The Vikings left today and plan to drill on the Carleton court tonight in preparation for Friday night's clash.

Need Consistency
"We will have to come up with some consistent all-around play and improved rebounding in order to break into the win column," Boya stressed. "In the game against Stevens Point (which the Vikes lost, 103-68) our lack of work was evident and we committed many number of errors, like bad passes."

Both Carleton and St. Olaf have 2-2 records in the conference and

Want NFL Scoreboard Clock to be Official

Player Group OKs Face Guards; Reitzlaff Is President

HOLLYWOOD BEACH, Fla. (AP) — National Football League players recommended Wednesday that the scoreboard clock be made the official clock during games in order to eliminate confusion. A players' committee, meeting at the Hollywood Beach Hotel, also agreed that the use of face and John Reier of the Pittsburgh Steelers, secretary-treasurer. The players' representatives named to the executive committee reports of confusion during the Eddie LeBaron and Phil several times this season because of the Dallas Cowboys and the scoreboard clock was several Bill Pellington, Baltimore Colts, seconds at variance with the official one.

Contribute to Safety

"Players look at the scoreboard and recently retained by the players' association. The meeting adjourns Friday. On that day, the representatives hope to meet here with league Commissioner Pete Rozell to make official one.

to be in a surly mood. Oshkosh has already lost twice in league play and can hardly afford another setback at this relatively early phase in the race.

Narrow Margins

The teams' overall records are quite similar — 4 and 3 for Oshkosh and 3-4 for AHS. The Terrors' four losses have all been by margins of one to five points. Two of Oshkosh's losses were narrow (four points or less). The only had defeat for either team was Oshkosh's 75-54 drubbing at the hands of Sheboygan South. That night, the Indians were unable to solve South's zone defense.

Kimberly has been the only common opponent for OHS and AHS. Appleton lost, 59-58, to the Papermakers; while Oshkosh bowed, 49-45.

Oshkosh has the superior point Turn to Page 7, Col. 3

MU Snaps Demons' Home Court Win Chain at 18 Games

Glaser and Erickson Pace 75-68 Upset Triumph

CHICAGO (AP) — Marquette's basketball team didn't get a basket in the last 7½ minutes, but got a 75-68 victory over DePaul Wednesday night by steadily banging away from the free throw line in the closing minutes.

The unpredictable Warriors, thrashed by Bradley the last time out, handed the Demons their first loss in 19 home games and their second in nine starts this season. The triumph was the first in the DePaul quarters for a Marquette team coached by Ed Hickey.

The Warriors had a 70-54 lead when they suddenly went dead from the floor. DePaul steadily closed in to 70-64 with 2½ minutes left. Three free throws increased the Marquette hold to 73-64, but again DePaul started to move up. With 32 seconds remaining, the Demons pulled to within five points, 73-68, but then Dave Erickson stepped to the free throw line and popped in two shots to write the final score.

Marquette put in 23 of 30 free shots while DePaul made good on only 20 of 33. The Warriors shot 56 per cent from the floor in the first half, hitting on 18 of 32 shots, and took only 16 shots from the floor in the last half, putting in half of them.

The victory was the sixth in 10 starts for Marquette.

The Warriors Ron Glaser and DePaul's M. C. Thompson shared

George Altman First Cub to Sign

CHICAGO AP — Outfielder George Altman became the first Chicago Cub to sign for the 1962 season today.

It gave the Cubs a start toward becoming the first National League club to sign all its players, an accomplishment it had achieved the last three years. In the last two years the Cubs were the first club in the majors to get all players into the fold.

Altman, who may become the No. 1 first baseman this season, topped the Cubs in 1961 in batting with .303 and runs-batted-in with 96. He led the NL in triples with 12.

Laurels Keep Coming to the Green Bay Packers as an aftermath to their 37-0 title-game win over New York last Sunday. Above, Coach Vince Lombardi holds a congratulatory telegram from President John F. Kennedy. Below, Paul Hornung is shown behind the wheel of a sports car he won for being named the game's most valuable player. He received the award in New York Wednesday.

Badgers Must Stop Nelson

Iowa Star Has Hit Over 30 Points In Eight Games

MADISON (AP) — Wisconsin basketball Coach Johnny Erickson began getting ready for Saturday's Big Ten opener with Iowa by worrying a little.

The cause of Erickson's concern is the Hawkeyes' Don Nelson.

"There's no doubt he's a terrific player," Erickson said Wednesday as the Badgers resumed drills after a holiday rest. "I think if we can hold him under 25 points, we'll have a chance to win."

Nelson averaged 23.7 points per game last season and scored 30 or more points in eight games this season. In the game at Madison last year, Nelson was slowed by an injury and got only 20 points but Iowa won 76-68 as Frank Allen tossed in 24 points.

In the second game at Iowa City, Nelson was held to 22 points, but this time Matt Szykowsky got loose for 24 points and Iowa won again, 63-61.

Baltimore Colts Sign No. 2 Choice

BALTIMORE (AP) — The Baltimore Colts of the National Football League announced the signing of their No. 2 draft choice, Bill Saul of Penn State, Wednesday. The Colts intend to use the 6-foot-4, 220-pounder as a line-backer. He played center-line back for the Nittany Lions this season.

Sam Huff Says He Was Packers' Most Valuable Player — Not Paul

Hornung Lauds Club's Unity And Intelligence

BY WILL GEIMSLEY
NEW YORK (AP) — Sam Huff, the New York Giants' rugged line-backer, may have lost a couple of teeth and a lot of pride in last Sunday's National Football League title game at Green Bay but his sense of humor emerged undamaged.

The 230-pound miner's son from West Virginia had nerve enough to show up at a press luncheon Wednesday honoring Green Bay's Paul Hornung as the most valuable player in the Packers' smashing 37-0 victory, and Huff stole the show.

Huff said he couldn't understand why Hornung was receiving the sports car for his role in the game.

"Paul wasn't the most valuable player for Green Bay—I was," he said. "I think everybody who saw the game will agree to that."

Eerie Feeling

The Giant defensive star told about the eerie feeling of playing in the Green Bay Stadium, surrounded by 41,000 fans, all of them hostile.

"When I got home, a friend told me he thought his television had come dead when the Giant players were introduced," Sam drawled. "But it hadn't. When they called out our names—nothing but stony silence."

"I assured my friend the Green Bay Packers could make a noise like when Y. A. Tittle was trying to call out signals."

In a brief serious vein, Huff said he believed that one of the reasons the Giants took such a disgraceful licking was that they

had spent too much of themselves in the last game of the regular season against the Cleveland Browns (a 7-7 tie).

"We always get up for the Browns for some reason," he added. "That was true again in this case, and we played a hard game. We had a natural letdown."

Rockets Will Play Host to Trucker Quint

Co-Leading Two Rivers Meets Kaukauna Friday

BY RALPH MUELLER
Post-Crescent Staff Writer

Neenah and Two Rivers will continue their tight Mid-Eastern Conference first-place fight Friday night when all eight conference teams return to league action following the holiday layoff.

The Rockets, who kept their sharp edge last week with a 59-54

victory over Appleton, will play host to Clintonville in the hope that they can win their ninth successive game of the season.

Two Rivers will attempt to keep pace by winning its fifth straight loop contest as host to winless Kaukauna. Menasha will be at Kimberly and Shawano at New London.

Averages 68 Points
The high-powered Neenah squad has accumulated 272 points in four conference games this season for an average production of

MID-EASTERN CONFERENCE				
	W	L	TP	GP
Neenah	4	0	272	202
Two Rivers	4	0	251	217
Kimberly	3	1	223	194
Clintonville	2	2	213	224
Menasha	1	3	224	239

Friday's Games:
Menasha at Kimberly
Kaukauna at Two Rivers
Clintonville at Neenah
Shawano at New London

68 per game, the best in the circuit.

The Rocket defense has the second best mark in the league, having allowed 203 points (50.75) average per game to be scored against them. Kimberly, the third place team in standings, has the best defensive mark (48.5).

Clintonville has allowed more points than it has scored. The offense has a 53.3 average while the defense has given up an average of 56 per contest.

Two Rivers has the second best offense and ranks third in defense according to the statistics. They have scored an average of 61.8 points and given up an average of 54.3.

Kaukauna has a 43-point offensive average and its defense has allowed 60.8 per game.

Menasha will pit its 56-point offense and its 59.8 defense against Kimberly which has scored at a 55.5 pace and given up points at a 48.5 rate.

Shawano, which features the conference scoring ace Tom Wagner, has a 60-point offense and a 59.8 defense. New London has scored at a 51-point per game pace while they have a 59.8 defensive mark.

Wagner has scored 77 points in the first four games of the season for a 19.2 game mark. Kimberly's Al Hietpas is second with 72 points. Neenah's Dave Burton and Lee Spiering, of Two Rivers, both have 70.

Syracuse's Easterly Shoots for New Honors

WASHINGTON AP — Versatile Easterly of Syracuse will be shooting for a grand slam of sorts in the U.S. Bowl football game. Easterly, who performed at both quarterback and halfback for the Orange, already has won honors in two post-season games—the Lib-

Southern '11' May Start 3 Ends Saturday

Ewbank Impressed With Material For Senior Bowl

MOBILE, Ala. (AP) — It looks like the Southern team in Saturday's Senior Bowl all-star game will take the field with three ends in the line-up.

"I have been so impressed with the fine ends I would like to use them all at the same time," Coach Webb Ewbank of the Baltimore Colts said.

Dave Edwards of Auburn and Gary Collins of Maryland apparently have nailed down starting berths at the end posts, and All-America end Bill Miller probably will be shifted to a starting role as a flanker back.

But Ewbank and Yankee Coach Tom Landry of the Dallas Cowboys concentrated mainly on setting up defensive teams for the nationally televised game.

Ewbank apparently will be using the largest and smallest tackles on his team for defense. Robbie Osborne of Clemson, 6-foot-4 and 278, is likely to be starting at one tackle and Maryland's 215-pound guard, Bill Kirschiro at the other.

Converted Tackle Tackle Bill Rice of Alabama has been converted to defensive end and seems to have captured the starting nod. Mississippi end Ralph Smith probably will man the opposite end.

Backing up the Southern line probably will be Mike Lucci, 203-pound Tennessee center; Roland Jackson, 203-pound Rice fullback and Ken Hays, Baylor's 204-pound guard.

Don Fuell of Mississippi Southern and Jack Collins of Texas apparently will hold down the South's defensive halfback slots, and Alabama's Billy Richardson and The Citadel's Early Eastburn will be at safety.

John Lomaskoski of Western Michigan, 6-foot-4 and 254 pounds, and Utah State's Clark Miller, 6-foot-5 and 250, evidently are slated for starting action at tackle for the North.

Landry has been hesitant to name his starters, but he said he has been impressed with his quarterbacks and running backs.

Signal callers Ed Wilson of Arizona and Mel Melin of Washington State have been throwing well, he said. Steve Simms, Rutgers fullback, Tom Larscheid, Utah State halfback, and Bill Tunncliffe, Michigan fullback, have impressed him as runners.

Drills Under Way For AFL 'Star' Contest Sunday

SAN DIEGO, Calif. (AP)—Only tackle Ron Mix was absent as the American Football League's Eastern and Western all-star teams went through practice Wednesday for Sunday's game.

Mix, member of the West squad, is due Thursday on leave from Ft. Lewis, Wash., where he is serving in the Army as a reservist.

Sid Gillman of the San Diego Chargers, who is coaching the Western squad, scheduled two practice sessions daily.

Wally Lemm of the Houston Oilers, coach of the Eastern squad, has called only one workout daily. He said he preferred the more relaxed way of preparing for the game.

'Sudden Death' to be Used if Eagle-Lion Game Ends in Tie

MIAMI, Fla. AP — If the National Football League's game here Saturday between the Detroit Lions and Philadelphia Eagles ends in a tie, a sudden death play-off will determine the winner. Commissioner Pete Rozelle said Wednesday.

If the game ends in a tie, the referee tosses a coin, kicking and choice of goals are decided. There is a three-minute intermission and play continues for the standard 15-minute quarters, with the teams changing goals as usual. The first team to score wins.

Dr. Roger Bannister to Do Research in Boston

LONDON (AP) — Dr. Roger Bannister, the first man to run the four-minute mile, has announced he will leave London Jan. 12 for a year's research in neurology in Boston.

Bannister plans a short holiday with his wife and three children in Washington. They will stay with Per Jacobson, managing director of the international monetary fund and Bannister's father-in-law.

erty Bowl and the Blue-Gray game.

In the Liberty Bowl game at Philadelphia Dec. 16 he caught two key passes from quarterback Dave Sarette as Syracuse came from behind to nip Miami 15-14.

Two weeks later, at Montgomery, Ala., Easterly stepped into Sarette's shoes when the quarterback was injured in the Blue-Gray game. The Gray eventually won 9-7, but Easterly was named outstanding back for the Blue squad. Auburn quarterback Bobby Hunt, who led the Gray team to victory, probably will be pitching passes to Easterly in the U.S. Bowl. Conversely, college teammates like Arizona halfbacks Joe Hernandez and Bobby Lee Thompson will find themselves on opposite sides of the line here Sunday.

Draft Choices That's because the teams will be made up of National Football League team draft choices. The East team, coached by Bill McPeak of the Washington Redskins, will be composed of boys drafted by the seven Eastern Division teams. The West, coached by Red Hickey of the San Francisco 49ers, will have Western Division draftees.

The Redskins drafted Hernandez while Detroit picked Thompson. Despite the professional angle, the players will not lose their amateur standing in the NCAA-sanctioned game. Each receives a jacket, a watch, a tour of Washington and expenses.

Promoter Pete Castiglia, a former Georgetown University and Redskins' fullback, thinks the game might make money in its first year.

Like Easterly, most of the 46 players who began practice Wednesday, have been traveling the post season bowl circuit. Twelve other bowls are represented and seven boys received awards for outstanding play.

As Northwestern center Larry Onesti put it while waiting for the bus to the practice field: "You know, a fellow really gets to see the country playing in these bowl games."

Change in UW Ticket Prices Requested

Student Seating Section May Be Moved

MADISON (AP) — The University of Wisconsin Athletic Board has recommended that football game ticket prices be rescaled, and that the student seating section be moved to the sunny side of Camp Randall Stadium.

The proposals will be considered by the regents during a weekend meeting.

The price of tickets between the goal lines would be raised 50 cents to \$5, while the cost of seats behind the end zones would be reduced. North end zone seats would sell for \$4 and those on the other end of the field for \$3.

Student season coupon books for all sports would be increased \$1 to \$10, spouse's books to \$13, and faculty employee books to \$17.

The student seating change would move their section from the shady west side to the east side.

Oscar Damman, university ticket sales manager, said the change was proposed to accommodate older fans who now must climb three flights of stairs to reach seats above row 30 on the east side. The climb is much shorter on the west side.

'Babe' Dye, Former Black Hawk Hockey Star, Dies at 63

CHICAGO (AP) — Cecil (Babe) Dye, Chicago Black Hawk hockey great of the 1920s and former professional baseball and football player, died Wednesday after a six-week illness. He was 63.

Dye, who was born in Hamilton, Ont., died in University of Chicago Hospital a few hours after suffering a stroke. He had been under treatment for a heart ailment since September.

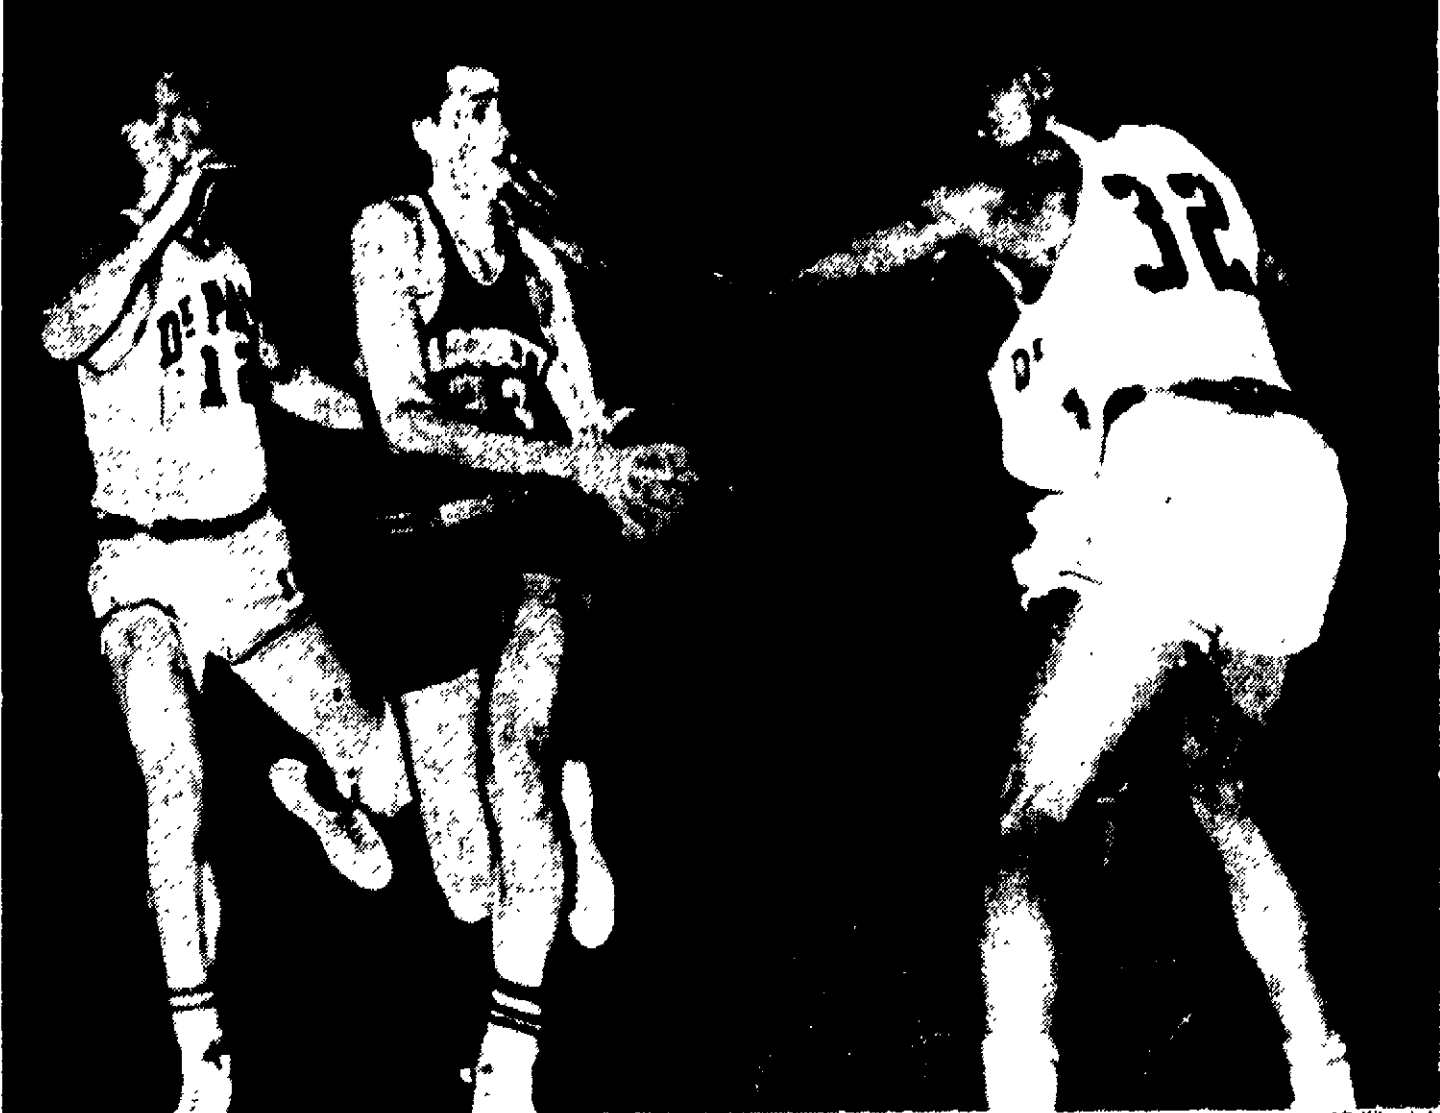

He played right wing and scored 25 goals for the Black Hawks during the 1926-27 season. Dye's hockey career ended abruptly a few months later when he suffered a broken leg while training for the 1927-28 season.

Dye, who played the outfield for Buffalo of the International League during the hockey off-season, was offered a \$25,000 contract in 1921 by Connie Mack of the old Philadelphia Athletics. But Dye turned it down because it conflicted with the hockey season.

Dye also played halfback for the Toronto Argonauts in the 1920s.

Marquette's Ron Glaser is guarded by two DePaul players, Joe Reuter (12) and Dick Cook (32), in the

first half of Wednesday night's game in Chicago. Marquette won the game, 75-68.

Terror Quint Will Invade Oshkosh Gym

CONTINUED FROM PAGE 6

averages, both offensively and defensively. The Indians are averaging 64.7 points on the attack — compared to 61 for AHS. Defensively, Oshkosh has yielded an average of only 52.4, compared to 58.7 for the Terrors.

The teams will be about even in the height department — with AHS slightly taller in the forecourt and Oshkosh having an edge in the backcourt.

Oshkosh's top scorer, and rebounder, is 6-foot-3 Roger Beck, who is averaging 18.3 points a game. Beck has been in the double figures each game — and his high has been 24.

Season's High Other top Oshkosh performers include Dick Raddatz, Dave Rutzler, Steve Lange, Tom Witasek, Tom Stroede and Bill Steinhilber. Witasek has been in double figures four times. Lange hit his season's high of 19 against New London Tuesday.

AHS' offensive leader continues to be guard Mike Lee, who is averaging around 22 points a game and has been held under 20 only twice in seven games. His running mate, Dennis Babb, came into his own as a scorer with 16 points against Neenah last week.

The Terrors' front line contributed a total of only five baskets against the Rockets.

The make-up of the starting forecourt against Oshkosh is in doubt because of a re-injury suffered by Dave Hem, the Terrors' leading up-front scorer. Hem strained a hip muscle in practice earlier this week and may not be able to start.

Mike Woehler will probably get the starting call if Hem doesn't. The other forecourturs will be Jack Wendt and Carl Graves.

Last season, the Dick Emanuel-coached Terrors beat the Don Erickson-led Indians twice: 55-53 and 59-45.

Sooners Voted Top Comeback Team of 1961 Grid Season

BY THE ASSOCIATED PRESS

The University of Oklahoma Sooners, for years a terror of the college gridiron, made the greatest comeback of the 1961 season according to sports writers and sportscasters balloting in the annual Associated Press year-end football poll.

Coach Bud Wilkinson's Okla-

homa Sooners, who won only 3 games, lost 6 and tied 1 in 1960, started the 1961 campaign in extremely low gear. The Sooners were defeated in order by Notre Dame, Iowa State, Texas, Kansas and Colorado for the longest losing streak in the school's history. They had lost nine of their last 10 games.

Then they began their comeback, and, playing like the Oklahoma powerhouses of old, won their last five games for a 5-5 season. The Sooners beat Kansas State, upset Missouri 7-0, stunned Army 14-8, and finished off against Nebraska and Oklahoma State. The word is out that Oklahoma must be reckoned with in 1962 after Wilkinson's rebuilding efforts.

Oklahoma led the balloting with 36 votes, while Notre Dame was next with 25. Louisiana State and Minnesota were tied for third with 19 votes each. Kansas had 17, and Columbia 10. Votes went to 36 colleges in the "comeback" category.

Bobby Hull Paces Hawks Past Rangers

A couple of heralded youngsters — Dave Keon of Toronto and Bobby Hull of Chicago — shared the National Hockey League spotlight today after sparking their teams to victories.

Keon, a 21-year-old center who was rookie of the year last season, scored two goals in the Maple Leafs' 3-1 triumph over the league-leading Montreal Canadiens Wednesday night.

Hull, the league's top scorer two years ago, celebrated his 23rd birthday with a goal and an assist as the Black Hawks edged the New York Rangers 2-1.

With Keon and Hull—both considered potential "super stars"—leading the way, their clubs picked up ground in the races for first and third places. Runner-up Toronto moved to within two points of Montreal while Chicago closed to within three points of the third-place Rangers.

High School Boy Dies After Mishap In Cage Practice

HARTFORD, Conn. (AP) — A Weaver High School freshman died today shortly after an accident during basketball practice.

Leonard Cooper Jr., 15, was pronounced dead on arrival at McCook Memorial Hospital despite efforts by police and ambulance drivers to revive him.

Police said Cooper was hurt while rebounding in a six-man freshman scrimmage game. They quoted the five other players as saying Cooper bounced off one of them into a stretch rack on the wall near the basket about five minutes after the session began. He reportedly was walking back onto the court when he suddenly collapsed.

Villanova Rolls by Seton Hall, 99-67

Eighth-Ranked Duke Smothers Penn State; Bowling Green Wins

BY JIM HACKLEMAN
Associated Press Sports Writer

The battle of the unbeaten Villanova beat Seton Hall in a

walk. Or, more appropriately in the case of the fleet Wildcats, a

run. Racing and driving, showing off their quick-handed defenders in their aggressive zone, the Wildcats blitzed the Pirates 99-67 Wednesday night.

Now there are just three undefeated major college basketball teams — Villanova (12-0), Ohio State (10-0) and Mississippi State (9-0).

Seton Hall, winner over four lesser opponents, was expected to face an unhappy moment of truth against the nationally fifth-ranked Wildcats—and the issue was never in doubt. Villanova's versatile Hubie White hit on 13 of 20 shots from the floor and totaled 30 points, sophomore George Leftwich scored 22. Jim O'Brien had 18, and soph Wally Jones did a dazzling job as playmaker despite a sore shoulder.

Hits 30 Points Sophomore sharpshooter Nick Werkman was Seton Hall's only threat with 30 points.

Another member of the top 10, eighth-ranked Duke, smothered Penn State 95-55 behind the gunning of Art Heyman and Jeff Mullins. But 10th-ranked Bowling Green needed a pair of clutch free throws in the waning seconds to shade Western Michigan 73-72 in a Mid-American Conference opener.

Heyman's 36 points and Mullins' 24 were more than the Blue Devils needed against Penn State as they ran their record to 9-1. Bowling Green (9-1) and Western Michigan exchanged the lead seven times in the first half and 11 in the second. The vital foul shots were by Howard Komives, bringing a 72-72 tie, and the winner by Nate Thurmond with two seconds to play.

Defending champion Texas Tech and the club that appears to be its chief rival, Arkansas, started off the Southwest Conference season with victories. Tall Harold Hudgens pumped in three quick baskets as Tech took the lead for good in the early stages.

Ken Grissman Slams 209 in Teen Kegling

KAUKAUNA — Ken Grissman rolled a 209 singleton to lead the Teen Recreation Bowling League at the Bowling Bar.

The Marsh-Berghs (14-2) won two games to hold their 1-game advantage over the Screamin' Demons. The leaders have a 14-2 record. Other high scores were posted by Don Hilgenberg (206) and Jack Diedrich (202).

and the Red Raiders cruised over Texas 77-66. Arkansas won its ninth in a row after an opening game loss, beating Texas A&M, 64-59.

Garry Roggenbuck zeroed in during the second half, powering Dayton (9-1) from behind in a 64-48 runaway against Xavier, Ohio.

Roggenbuck clicked on nine of 10 shots in the second half, outscored Xavier 19-18 by himself, and finished with 26 points for the night.

Other honor scores: Dick Stuhl, 993; Gene Dannecker, 588; Glenn Rohm, 581; Norm Knaack, 580; Harold Council, 582; Dick Jabbs, 573; Fritz Kirk, 583; Don Houtch, 577; Mac Krosse, 567; Howard Rehfeldt, 553; Don Larson, 550; John Cannon, 550; Roger Brandt, 536; Erv Feldhahn, 550; Don Streck, 58; Ralph Shotole, 552.

back: Ron Kramer, who caught two touchdown passes, or to the entire offensive line."

Of the championship Packers themselves, the versatile halfback remarked, "We're not a great club. We don't have a Johnny Unitas at quarterback. We have no speedy halfbacks and no break-away fullback like Jimmy Brown. But I've never seen a team with better purpose, more intelligence or greater unity of purpose . . . every man knows his job and does it in a cool, businesslike manner."

And of the title game, Hornung said, "We knew right after the kickoff we were going to win . . . and win big."

Stay Warm in Zero King's New "Warwick"!

This coat is made to wear in Wisconsin weather. It's 100% all-wool tweed. Alpaca pile lining with nylon warmer in sleeves. Alpaca collar. Button front and knit wristlets in sleeves. Regulars and longs. Sizes 40-48.

Marine Instructor Takes Chemical War Course

Staff Sgt. Rodney J. Schueneman, son of Mrs. Fred J. Schueneman, 1009 Lincoln St., Little Chute, recently was graduated from the Army Chemical Corps' first advanced chemical course at Fort McClellan, Ala. Schueneman, a Marine, was among 36 non-commissioned officers from the army and Marine Corps from throughout the U. S. selected for the training.

Formerly in the Army, Schueneman served in Korea, was discharged in 1952 and enlisted in the Marines the next year. He is serving as an instructor in the atomic, biological and chemical warfare school at El Toro, Calif.

Ronald J. Jansen, son of Mr. and Mrs. Elmer J. Jansen, 810 E. Maple St., Appleton, is training with a patrol squadron at the North Island Naval Air Station, San Diego, Calif., as an aviation electrician's mate.

Roger G. Hermesen, son of Mr. and Mrs. John G. Hermesen, 910 E. Main St., Little Chute, is serving as a seaman aboard the destroyer "McDermitt" on the West Coast.

Jerome R. Seidler, son of Mr. and Mrs. Richard Seidler, 114 E. Byrd St., Appleton, is serving as a radaman aboard the guided missile light cruiser "Springfield".

YMCA Course Helps Graduates Sell Themselves

VANCOUVER, B. C. (AP)—The YMCA here is offering an eight-week course for young high school graduates who haven't been able to find jobs.

The course stresses proper attitudes, personal deportment, skills in speaking and writing and physical fitness. Six city businessmen will act as employment counselors for the 40 young men presently taking the instruction.

"Some of the boys are of good intelligence but are just wandering around looking for jobs," said project director D. W. Roxburgh. "We hope to give them some skills with which to sell themselves."

Mayor Claims Town Allows Motorists 15 m.p.h. Tolerance

LUDOWICI, Ga. (AP)—The city of Ludowici not only is not running a speed trap, says veteran Mayor J. W. Godfrey Sr., but it has liberalized its arrest policy to allow motorists a tolerance of 15 miles per hour.

The American Automobile Association said last week it has received complaints about a speed trap at the Long County city on a popular north-south route.

The AAA said the speed limit drops from 60 m.p.h. to 35 m.p.h. at the Ludowici city limits and an electric speed timer is placed so

near the 35 mile sign a motorist can't slow down in time.

That's not so, says the mayor. "The timer is placed exactly half a mile from the signs at the edge of town telling motorists to reduce speed to 35 m.p.h.," he said. "If a guy can't slow down in half a mile, well, he just doesn't intend to slow down."

Godfrey also said, "We raised the speed limit in this city from 25 to 35 m.p.h. and then set a policy that motorists won't be arrested unless they are making over 50. What more do they want?"

And he added, "But I can assure all motorists—not just members of the Triple A—that if they come whipping through Ludowici at more than 50 m.p.h., they're going to get caught."

SEC Will Act to Stop 'Scalping'

BY SYLVIA PORTER

Today, any investment adviser can, if he so wishes, secretly load up on a specific stock, then issue a glowing "buy" recommendation to his paying clients — and then on the price rise his recommendation helps to inspire, sell out his holdings at a quick profit.

Porter

There is nothing illegal nor even objectionable about his action, if he so wishes, secretly load up on a specific stock, then issue a glowing "buy" recommendation to his paying clients — and then on the price rise his recommendation helps to inspire, sell out his holdings at a quick profit.

This would appear to be the implication of a year-end court decision squelching an effort by the Securities & Exchange Commission to prohibit the Capital Gains Research, Inc., of Larchmont, N.Y., from doing precisely what I've outlined above.

The decision by the U.S. Court of Appeals for the Second Circuit in New York represents a stunning defeat for the government's top financial policing agency, which had attempted to stop the investment service from engaging in what Wall Street calls "scalping" — a practice whereby an adviser sells his services for a fee and then, in effect, enters the stock market in competition with his own clients.

All-Out Probe

It also paves the way for an intensive probe by the SEC into this sort of activity by investment advisers during its current all-out investigation of the stock markets — and for new legislation which would permit the SEC to outlaw this practice.

You're involved here if you're among the tens of millions who own stocks or intend to invest. For there are now thousands of advisory services operating in our country which sell their advice to individuals for fees ranging from \$1 to several hundred dollars. Here's the tale.

Capital Gains Research Bureau, Inc. sells, among other services, a "Special Recommendation" bulletin on securities. In 1960 it had 5,000 clients paying \$18 a year for the bulletins and, more important, another list of

about 100,000 names (I was on it, so I know) to whom the bulletins were sent from time to time for free.

In 1960 Capital Gains followed this pattern. It bought a block of stock. It followed up three to seven days later with a widely circulated recommendation to buy the stock. Within a few weeks after the recommendation had been published and circulated and the prices of the stocks had gone up, Capital Gains sold out. In a period of six months it made quick turns on seven stocks, netted around \$20,000. It did not tell its clients that it was taking a position in any of the securities.

Claimed Fraud

To the SEC, this was a "clear and convincing" violation of the 1940 Investment Advisers Act prohibiting an investment adviser from employing any scheme "which operates as a fraud or deceit upon any client."

It sought an injunction to prevent Capital Gains from continuing the practice from the District Court for the Southern District of N.Y. It was turned down. It appealed to the Circuit Court. It was turned down again, with the majority opinion holding that:

1. The SEC did not prove a failure to disclose "material facts" on the seven stocks in which Capital Gains took a secret position.
2. The SEC is trying to create a law not passed by Congress or a regulation not promulgated by the SEC to the effect that the failure of an adviser to reveal he had bought stock himself was failure to disclose a "material fact" and thus a scheme to defraud.
3. Statements in the bulletins that the adviser owned shares and intended to sell would be meaningless.

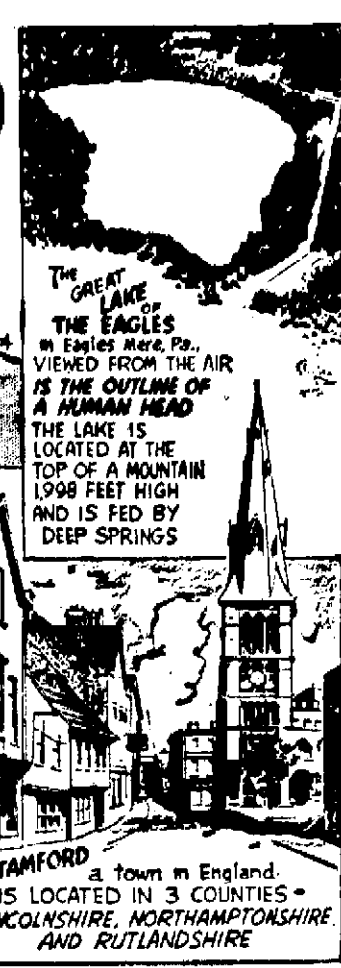

Lacked Proof

4. The SEC didn't prove that any client bought the recommend-

about 100,000 names (I was on it, so I know) to whom the bulletins were sent from time to time for free.

McCloy in Berlin For 1-Day Visit

BERLIN (AP) — John J. McCloy, former U.S. higher commissioner in Germany, arrived unheralded for a one-day visit to Berlin today at a time of deadlock between Soviet and American commandants in this divided city.

East German Communists are still insisting that U.S. civilian officials entering East Berlin identify themselves to East German police. Because of the insistence, Maj. Gen. Albert Watson II, the U.S. commandant, canceled a meeting last month with Col. Andrei I. Solovyev, the Soviet commandant.

Later, the United States barred Solovyev and his chief aide from the American sector. The British and French commandants have not followed the U.S. lead.

Shortly after McCloy's arrival, a U.S. mission spokesman said: "We do not intend to permit our rights to be interfered with, nor will we allow improper treatment of our representatives."

He said Soviet replies to American protests were wholly unsatisfactory.

longer the custom in Japan except in more remote areas. And the women are trying to put a stop to that.

Disclose How Many, What Kind of Coins in Pocket

BY CAPPY DICK

Today's fun - project for boys and girls is a stunt by which you can tell a friend exactly how many one-cent pieces, five-cent pieces and dimes he has in his pocket.

It is important, first of all, that your friend assure you that he has some of each of the three coins in his pocket. He must have one or more pennies, one or more nickels and one or more dimes.

When he has made sure he has the three kinds of coins, tell him that, without looking, you will disclose exactly how many of each he has. Then give him these directions:

Tell him to write on paper

(where you can't see his figures)

the number of pennies he has. He then is to multiply that number by 2. To the result he adds 2. Then he multiplies by 5.

Next, he adds to this total the number of nickels he has in his pocket. He multiplies the result by 10. To this result he adds the

number of dimes he has in his pocket. From the result he subtracts 150.

When he has completed his figuring, ask him to write the final result on a piece of paper and hand it to you. When you receive the paper, you have all the information you need to tell him how many coins he has, because the first number at the left will be the number of one-cent pieces he has, the middle number will be the number of nickels he has and the last number will be the number of dimes he has.

(Copyright, 1962)

Lesson in English

BY W. L. GORDON

WORDS MISUSED: Do not say, "Where shall we sit the chairs?" Say, "Where shall we SET (or, PLACE) the chairs?"

OFTEN MISPRONOUNCED: Conversant. Accent first syllable, preferred.

OFTEN MISPELLED: Phosphorus (the element). Phosphorous (containing phosphorus).

SYNONYMS: Unwise, imprudent, injudicious, impolitic, ill-advised, foolish, senseless, idiotic, irrational, absurd, objectionable.

WORD STUDY: "Use a word three times and it is yours." Let first number at the left will be the number of one-cent pieces he has, the middle number will be the number of nickels he has and the last number will be the number of dimes he has.

is increased by repetition.

Sammy Davis Stars on TV Western

BY TV SCOUT
6:30-7:30 (Channel 2) — Sammy Davis Jr. has a fine character to play on tonight's Frontier Circus. He's Cato, a former slave, who is caught while stealing food at night. He proves to be a fascinating individual — a willing worker, a good singer and, because he was raised by the Apaches, a keen hunter. But he has a secret, which spells trouble for an old ex-Civil War officer living nearby.

6:30-7:30 (Channel 4-5) — Cliff Robertson co-authored the story he stars in on tonight's Outlaws, and it's a good one. He plays a blind villain, perhaps the first time a person so handicapped has been made into anything other than a hero on TV. Robertson is a charmer, who uses his blindness to help con the town into thinking him the perfect mayoral candidate.

7:30-8:30 (Channel 4-5) — There are very few medical matters involved on Dr. Kildare tonight. It's basically a soap opera story, and an old one. One of Kildare's fellow internes (Eddie Ryder) has some family problems, and Kildare tries to straighten them out.

8-9 (Channel 2) — A more light-hearted and satirical view of 1961 than is usual with year-end round-up programs is offered by Accent On 1961—A Public Memoir. The show is primarily a photographic essay and highlights such earth-shattering events as Shepard's ride into space, Maris' 61st homer and Elizabeth Taylor's Oscar.

9-10 (Channel 2) — CBS' Bonn correspondent, Daniel Schorr, persuaded the East German government to let him bring a camera crew in to photograph a city of their choice. The Germans picked Rostock, a port on the North Sea, and for three weeks Schorr and his staff were given almost complete cooperation to film whatever they wanted. You'll see the results on tonight's CBS Reports. "East Germany—The Land Beyond the Wall." A later interview with Walter Ulbricht which he terminates abruptly when Schorr asks him about de-Stalinization is also included. Two high spots are contrasting shots of churches (one has a collaborationist pastor, the other has not) and some scenes of school children.

9-10 (Channel 11) — Tonight's The Untouchables is one of the few in the series this year which has even the slightest basis in fact. For this one, the program's researches came up with a story of how bootleggers once used a lighted church steeple to guide

AP Wirephoto
Skater Jill Shipstad will become the first girl to skate in a role previously played solely by men and she has Uncle Sam to thank for it. The California teen-ager is replacing Richard Dwyer, right, who has been called up for active duty with the Army.

'Father Frost' Reigns

Bulgarian Christmas Spree Just Beginning

SOFIA, Bulgaria AP) — The wooden stick, but Dyado Mras Christmas shopping spree is just starting in Bulgaria.

After the Communists took power at the end of World War II, the Orthodox Church's Christmas—Jan. 6—was abolished as an official holiday. But it remains a vivid event in the life of this loyal Soviet satellite.

State-owned stores decorate their windows with Christmas trees, holly and cheerful Santa Claus dolls to encourage spending. The shops are well filled but the choice and quality of the goods are often poor.

As in Russia, Santa Claus has changed his name. He is no longer Dyado Koleda (Father Christmas) but Dyado Mras (Father Frost). His white beard and ermine-lined red suit are much the same as in the West.

Excited Children

At several street corners in downtown Sofia, he sits among piles of gifts surrounded by crowds of excited children. The traditional bishop's staff of St. Nicholas has become a rough

them into Detroit. From this, the writers fabricated a story of how a bootlegger conned a priest into letting him practically run the town, and donated the illuminated steeple as a charitable gesture.

9-10 (Channel 4-5) — Sing Along With Mitch hits the road tonight, using highways and their ramifications as the program's theme. (Color)

Sewer Plant Backed by State Committee

Water Pollution Group Urges OK By Federal Agency

Post-Crescent Madison Bureau

MADISON — The State Committee on Water Pollution has urged the Chicago district office of the U.S. public health service to approve the construction of a public sewer system and a sewage treatment and disposal plant to serve most of the town of Menasha lying east of the Fox River.

T. F. Wisniewski, director of the committee, explained that bids for the construction of the plant must be approved by Jan. 18.

The national government about a year ago made a tentative allocation of \$60,750 in federal aid for the plant that would be operated by Sanitary District No. 4 of the town. The total project eligibility cost is estimated at about \$190,000. Actual total plant cost will be about \$216,000, and with the cost of sewer construction, the total outlay of the district is likely to run to \$475,000, it was said.

One of Several

The project is one of a number of developments in the continuing effort to control and abate the pollution of surface waters in the Fox River basin, Wisniewski said. The town officials had considered a connection with the city of Menasha, for sewage interception and treatment purposes. Menasha is a part of a joint sewage district with the city of Neenah.

Possible legal complications had not been ironed out, however, and meanwhile the local officials decided it would be preferable to act on the bids for the separate construction project that had been invited and filed some time ago.

Sophia Loren to Go To Award Ceremony If Director Agrees

PARIS AP—Sophia Loren, chosen best actress of 1961 by New York film critics, said today she would attend the award ceremony in New York later this month if director Anatole Litvak agreed. "But I'm not sure, because maybe Litvak won't let me go," she said. Litvak is currently directing the Italian star and Tony Perkins in a picture in Paris. She won the award for her acting in "Two Women."

104-Year-Old Has Full Day Knitting

CHETICAMP, N. S. (AP) — Mrs. Dan Aresnault may be 104 but she is not one to let the days just drift by.

After a nine-hour sleep she is up at 6 a.m., ready for a full day of knitting. She currently is working on a bedspread.

The thrice-married widow says she never takes a pill or a drop of medicine and has never owned a pair of eyeglasses. Mrs. Aresnault, who lives with a son and his wife, adds that she enjoys a good appetite.

Snowbank Saves Child After 3-Story Fall

BOSTON (AP) — A six-foot snowbank probably saved the life of 2-year-old Robert Cook Wednesday.

The youngster toppled from a third floor window of his home

Lawrence Pianist To Play Works of Four Composers

First on the New Year's musical docket at Lawrence College is a piano concert by assistant professor of music Theodore Rehl at 8:15 p.m. Thursday in Harper Hall.

Opening works are two 18th century sonatas by Scarlatti. Two compositions of Mozart, a sonata and a fantasy, will be performed in the first half of the program.

After the intermission, Prof. Rehl will play Igor Stravinsky's 1924 composition, "Sonata in Three Movements." The faculty pianist will conclude his recital with a set of 25 variations of theme by Handel composed by Brahms in 1861.

The concert is open to the public.

Program	
Sonata In G Major	Scarlatti
Sonata In A Major	Scarlatti
Fantasy In C Minor	Mozart
Sonata In C Minor	Mozart
Allegro	
Adagio	
Molto allegro	
Sonata In Three Movements	Stravinsky
Variations and Fugue on a Theme by Handel	Brahms

at 60 Dix Stret, Boston, and landed in the snowbank. He suffered only a fracture of the right leg.

The mother, Elaine Cook, said the boy opened the window while she was in another room.

Tenor James Bailey To Perform at Ripon At Fine Arts Concert

James Bailey, operatic tenor, will give a concert in the Ripon College Theater at 8:15 p. m. Sunday as the second artist in the college's 1961-62 Fine Arts Series.

The evening's program will include selections by Handel, Brahms, Strauss and Mozart. Bailey also will sing 16th century folk songs from the Balearic Isle of Menorca.

Future events in the current Ripon series include a piano recital by Murial Kerr March 3, a performance by the St. Louis Symphony Orchestra March 24 and a lecture by poet John Ciardi April 17.

Obituaries

Edmund J. Holowinski
Route 2, Menasha
Age 57, passed away at 3:20 a.m. Thursday after a six month illness. He was born October 3, 1904 in Bessmer, Mich., and had been a resident of Menasha for the past 40 years. He was a member of the Holy Name society of St. Johns. Mr. Holowinski is survived by his widow, Mary; his mother, Mrs. Anna Holowinski, Menasha; two daughters, Mrs. Hugo Westenberg, Mrs. Norman Pontow, both of Menasha; four sons, Norbert, Robert, Jerome, Menasha; Kenneth, US Air Force, Okinawa; five brothers, John, Milwaukee; Frank, Rhineland; Raymond, Neenah; Theodore and Victor, Menasha; one sister, Mrs. Orville Smith, Menasha; 18 grandchildren. Funeral services will be at 9 a.m. Monday at St. Johns Catholic Church, Menasha, with burial in the parish cemetery. Friends may call at the Laemmrich Funeral Home Saturday from 7 until 9 p.m. and Sunday from 2 until 9 p.m. The rosary will be prayed Sunday at 8 p.m.

Mrs. Cecil Taplin
Funeral services for Mrs. Taplin who passed away at 7:15 a.m. Wednesday will be held at 10 a.m. Saturday at St. Mary Catholic Church, Menasha, with burial in the parish cemetery. Friends may call at the Laemmrich Funeral Home after 3 p.m. Friday. The rosary will be prayed at 8 p.m. Friday.

Lester R. Poppe
624 W. Seymour St.
Age 83, passed away at 7 p.m. Wednesday after a lingering illness. He was born in Appleton July 3, 1908 and was a life resident. Mr. Poppe was employed at Kimberly Clark Corp. over 25 years. He was a charter member of the Riverview Lutheran Church. Survivors are his wife, two daughters, Ellen and Lois, both at home; one son, Frederick, at home; one brother, Melvin, Appleton; three sisters, Miss Lucile and Miss Gladys and Mrs. Wilmer Schaefer, all of Appleton. Funeral services will be Friday at 2 p.m. at the Wichmann Funeral Home with Rev. F. E. Thierfelder officiating. Interment will be in Riverside Cemetery. Friends may call at the funeral home after 4 p.m. Thursday until time of services.

Edward A. Sweedy
1207 Wyman St., New London
Age 83, passed away suddenly at his home at 5 p.m. Wednesday. He was born Dec. 8, 1878 in Ogdensburg, Wis. and lived in New London most of his lifetime. Mr. Sweedy was a member of the First Methodist church, New London and the Edison Old Timers Club. He is survived by his wife, one daughter, Mrs. William (Mildred) Cepicky, Iowa City, Iowa; two sons, Harold, Norfolk, Va., and Kenneth, New London; 6 grandchildren and 5 great-grandchildren. Funeral services will be Saturday at 2 p.m. at the Kirchner Funeral Home, New London with burial in the Floral Hill cemetery. Rev. Wesley Sharpe will officiate. Friends may call at the Kirchner Funeral Home after 2 p.m. Friday until time of services.

Mrs. Ida Schorney
Koss, Mich.
Age 87, passed away Wednesday after a 2 week illness. She was born October 30, 1874 in Germany.

Traffic Patrol Investigations Up During 1961
More accidents were investigated in rural Outagamie County during 1961 than the previous year but the number of injuries and deaths were down.

These are the primary conclusions of a report submitted Wednesday by Capt. Ronald Decker, of the Outagamie County Traffic Patrol. Decker's department investigated 513 accidents involving 794 vehicles during 1961. This compared with 461 accidents in 1960 and 554 in 1959, Decker said. Injuries, however, numbered 854 compared with 378 in 1960. The figure in 1959 was 360. Fourteen persons lost their lives on county roads through 1961, two less than the previous year and one less than in 1959, Capt. Decker said.

Rural People to Be Lions Guests at Tuesday Dinner
KAUKAUNA — Karl Kuehn, vice president of Badger Northland, will speak on "Changing Trends in Agriculture" at the annual rural guest night dinner program of the Lions Club at 6:45 p.m. Tuesday at Van Abel's, Hollandtown.

Lion members are invited to bring one or more of their rural friends to the meeting, according to Joseph Schouten and Richard Kuehn, co-chairmen of the program committee. A question and answer period will follow the talk by Kuehn after which a social hour is planned.

Fifth Ward Alderman Circulating Papers
KAUKAUNA — Fred A. Reichel, 900 Boyd Ave., Kaukauna, has started circulating nomination papers for the office of Fifth ward alderman, a post he has held for 10 years. He will be seeking a sixth term.
